SOUTHERN CALIFORNIA EDISON COMPANY (CONTD.)

9263 - See C. C. Moore & Co. Engineers
Los Alamitos - Alamitos Steam Unit #2,
B&W RB-286 - Repair Insulation for Installation of New Draft Connections in Gas Fan
(A) - Remove & Renew Insulation Where Thermocouples were placed into Reheat & Superheater Lines

9269 - See C. C. Moore & Co. Engineers
El Segundo - Replace Insulation around Edwards Valve on Attemperator Water Line Unit #1
(A) - Replace Insulation on Main & Reheat Attemperator Daily Control Valve
(B) - Repair & Replace Insulation on Attemperator Station on Unit #2
(C) - Repair & Replace Insulation at the Edwards Valve Unit #2.

9275 - El Segundo - Unit #1, RB-223
Repair Boiler Damaged by Explosion

9290 - See C. C. Moore & Co. Engineers
El Segundo - Unit #1 - Replace & Repair Insul. Damaged by Work on Damper Bearings
(A) - Unit #2 - ditto

9298 - See C. C. Moore & Co. Engineers

9336
(C) Remove & Replace Insulation on Secondary Superheater Header per C. C. Moore Instructions
(D) Field Alterations for Lower Furnace Rear Wall Tubes
(E) Remove & Replace Insulation on Burner Front
(F) Remove & Replace Insulation on Various Headers
(G) Remove & Replace Refrac. on Reheat Superheater between Wall Tubes
(H) Remove & Replace Insulation around Utiliscope
(I) Remove & Replace Insulation around Utiliscope Unit #2
(J) Remove & Replace Insulation on Burner Front Unit #2
(K) Insulate Steam Connections to Manometer on Silica Washer
(L) Insulate Body Portion of Safety Valves Units A&B
(M) Remove & Replace Insulation on Casing of Penthouse to permit installation of air seal line
(N) Remove & Replace Insul. on Penthouse for Installation of Expansion Joint

SOUTHERN CALIFORNIA EDISON COMPANY (CONTD.)

9351 - See C. C. Moore & Co. Engineers
Los Alamitos - Reinsulate around Reheat Attemperator Valves of Unit #1 - C-5668 - RB-245
(A) - Replace & Repair Insulation Damaged by Work on Damper bearings of Unit #1 C-5642
(B) - Repair & Replace Insulation on Recirculating Duct

9448 - See C. C. Moore & Co. Engineers
Redondo Beach - Reinsulate Clarage Gas Recirculating Fan on RB-266

9462 - See C. C. Moore & Co. Engineers
Los Alamitos - Reinsulate Clarage Gas Recirculating Fan on RB-245

9494 - See C. C. Moore & Co. Engineers
El Segundo - Insulate Area at Fenwall Switches in Unit #2

9496 - See C. C. Moore & Co. Engineers
Huntington Beach - Install Refractory & Insulation Materials for One (1) B&W Universal Boiler
(A)- Furnish & install Insulation including Alum. jacket on Superheater bypass valve heating Syst
(B) - Remove & replace Ins. over leaks in Boiler Tubes.
(C)- Remove & replace Ins. for installing temporary Thermocouples
(D) -Remove Ins. on Furnace Hopper
(E)- Furnish material & labor to replace Ins. & Brkwrk on Boiler UP 4
(E)- To replace Ins. & Brkwrk on Blr UP 4 damaged by tube leaks.
(F)- ~~To Replace Ins. & Brkwrk on Blr UP4 Damaged by~~
(G)- Install Aluminum Covers on Expansion Jts
(H)- Replace Refr. which were removed to cut gusset plate
(I)- Remove & Replace Ins. in Pent House Unit UP 4
(J)- Remove & Replace Ins. for rpr of Dampers UP 4
(K)- Replace Refr. on Rear Wall of Furnace
(L)- Labor & Mat. to repr Tube Leak Unit DP4
(M)- Remove & Replace Refr. acct. tube leak Unit DP4
(N)- Remove & Replace Ins. for Installation of Monometer
(O)- Remove & Replace Ins. to allow removal of Adj.Orifice
(P)- Remove & Replace Kaocrete B for Revising Gusset Plates
(Q)- Remove & Replace Ins. for rpr of Port Damper
(R)- Bldg Brick Pier & Ins. Tubes in Furnace Hopper
(S)- Remove & Replace Ins. to Install Thermocouples
(T)- Remove & Replace Ins. to repair Casing Leaks
(U)- Remove & Replace Ins. where Tram installed on Header
(V)- Apply Super 3000 to 30 sq.ft. Area inside boiler
(W)- Remove & replace Ins. because of tube leak front Blr
(X)-Remove & Replace Ins. for Spring Hangers & Rods install on upper division of wall heater
(Y)-Labor & Material to remove & replace Ins where water cooled baffle wall installed.
(Z)- Labor & Mat to remove & replace Ins where Orifice Flange

See Job 1669 for Continuation of Job 9496

SOUTHERN CALIFORNIA EDISON COMPANY (Contd)

9497 - (Contd)

(D)- Building Brick Pier & apply Ins. on Hopper

(E)- Labor to apply 2 coast RI Super3000 to inside of boiler Elevation 24 to 76'

(F) - Supply material to replace Ins. where removed to make Hanger Rod Revision. Cover Exp. Bellows

(G)- Remove & Replace Ins. Damaged by Tube Leak.

(H)- Remove & replace Ins damaged account tube leak.

(I) - Remove & replace Ins for installing test connect.

(J) - Remove & replace Ins for installing ~~of x Cast x "B" removal x of x furnace x tubes~~ Water Cooled Baffle Walls

(K) - Remove & Replace Ins for installing Cast "B" Removel of 6 Furnace Tubes.

(L) - Install Ins. to protect 2nd Paas Rear Wall Header Support.

(M) - Remove & replace Ins. where tube leak was repaired at Elevation 75'.

SOUTHERN CALIFORNIA EDISON COMPANY (CONTD.)

9497 - See C. C. Moore & Co. Engineers
Huntington Beach - Install Refractories and Insulation Materials for One (1) B&W Universal UP5 Boiler
(A) - Labor & Matl to apply 1/2" Kaolite behing Casing
(B)- Install Ins. including Aluminum Jacket on Superhtr By-pass Valve Heating System.
(C)- Remove & Replace Ins. on bottom of Superhtr

SOUTHERN CALIFORNIA GAS COMPANY
Agent for Reconstruction Finance Corp.

Job No. 5769
Detail

5769

(A) - To Repair Insulation on Depropanizer Pre-heater E16 and Cooler E14 at Absorption Plant- Jackson

(B) - To Insulate Steam Piping to the Ventilating Unit, Prod. Engineers Office, #3 Gen. Plant - Aliso

(C) - To Repair Insul. on Depropanizer Evaporator - Jackson

(D) - To Insulate Model Purifiers and Piping - Aliso

(E) - To Insulate Burner Piping, Blrs. #17 and #19 - Ducommun

(F) - Insulation Work, Area 22 thru 25 - Macy

(G) - None

(H) - Cancelled

(I) - To Insulate 8" Block Valve in East Steam Header, #3 Generator Plant - Aliso

(J) - Insulation of Additional Tank Car Loading Rack Facilities - Macy

(K) - To Repair Insul. for Unfinished Painting Work- Jackson

(L) - To Remove and Replace Insul. on Steam Injection Piping, Generators 18A and 18B - Aliso

(M) - To Insulate Relief Valve and Piping on Misc. Pumps at Dehydration Plant, Area #22 - Macy

ditto Area #15 - Aliso

(N) - To Remove and Replace Insulation on Steam Injection Piping, Generators 20A and 20B - Aliso

(O) - Isolation of Domestic and Industrial Water Supply Systems - Insulation - Aliso

(P) - To Remove and Replace Insulation on Hot Oil and Steam Piping at Generator #18, Damaged by Fuel Oil Spillage - Aliso

(Q) - To Insulate Steam and Condensate Piping - Aliso

5106 - Torrance - Brickwork Repairs to Experimental Plant Furnace

(contd)

STAUFFER CHEMICAL COMPANY (contd.)

5154 - Vernon - Brickwork - CO_2 Generator

5169 - Dominguez - Division - Insulation Work

5189 - Torrance - Repairs to Sulphur Hopper Duct

5215-A - Acid Cooling Tower Repairs
(B) - Rotary Kiln - New Lining

5222 - Dominguez - Insulation Repairs to Caustic Tank

5223 - Dominguez Division - Dominguez - Brickwork for Filter for D. C. Unit Converter

5229 - Torrance - Insulation Repairs to Converter System

5293 - Dominguez Division - Dominguez
Acid Brickwork Leonard-Montsano Filter Box,
(A) - Mannheim Furnace Repairs

5314 - Torrance - Brickwork for Installing Stoker in Experimental Decomposer Furnace

5393 - Dominguez Division - Dominguez
& A-K Insulation Repairs

5403 - Torrance - Acid Brickwork - Lead Tower

5419 - Torrance - Repairs to Insulation on Experimental Unit

5529 - Vernon - Acid Brick Lining in Surge Box

5642 - Vernon - Line Firebox of Sulphur Melting Pot

5684 - Vernon Plant - Acid-Proof Brick Lining in Paddle Mixer

5701 - See R C S Engineering Company
Three (3) 85 h.p. Boiler Settings
(A) - Insulation of Two (2) 85 h.p. Oil Field Boilers
(B) - Insulation of Drums

5752 - Vernon - Acid Brick Lining of 22" Pipe

5780 - Torrance - Construct New Pipe Heating Furnace

5811 - Dominguez Division - Insulation Repairs and Acid Brickwork for January
(A) - ditto for February
(B) - " for March
(C) - " for April
(D) - " for May
(E) - " for November

(contd.)

STAUFFER CHEMICAL COMPANY (contd.)

5831 - See New York Ohio Chemical Corp., affiliated with Stauffer Chemical Co.
Dominguez - To Install Acid-Proof Brick Lining in One (1) 12'-0" dia. x 7'-0" high Reaction Vessel
STAUFFER'S NAME — ALUMINUM CHLORIDE REACTOR

5918 - Dominguez Division - Dominguez
To Install Brick Lining in Stack Breeching Inlet and Change Seal

6049 - Dominguez - 8 ft. dia. Absorbing Tower - Acid-Proof Brickwork

6085 - Dominguez Division - Dominguez
Caustic Pot Brickwork
(A) - Caustic Pot Brickwork

6090 - Vernon - Acid-Brick Lining of Pipe

6206 - Dominguez - Dominguez Division
Insulation Repairs for 1948
(See Job No. 5811 for 1947)
(A) Maint. Ins. Repairs
(B) " on Two (2) Heat Exchgrs.

6340 - Dominguez - To Tear Out and Replace Brickwork for Renewing Cast Iron Caustic Pots in Two (2) Furn.
(A) - To Install Burner Tile In #4 Caustic Fusion Furn.

6457 - Dominguez - Dominguez Division
To Install Acid Brick Lining in #3 Absorbing Tower

6466 - Torrance - To Line Sulphuric Acid Converter

6506 - Dominguez - Dominguez Division
(Refer to Job No. 6206 for 1948)
Maintenance and Repairs to Insulation for year of 1949
(A) - Month of June
(B) - Month of November

6524 - Torrance - Insulation Work on Converter and Ducts
(A) - To Repair Insulation as directed

6544 - Dominguez Division - Dominguez
To Install Refractories and Insulation for One (1) 21" I. D. x 15'-0" long H_2S Firing Tunnel, including Connecting Flue

(contd.)

STAUFFER CHEMICAL COMPANY (contd.)

6577 - Dominguez Division, Dominguez -
Brickwork to 10'-0" dia. Sulphur Burner

6640 - Torrance - Acid-Brick Lining for One (1) Cooling Tower
(A) - Addl. Opening and Insulation in Crown of Acid Brick in Cooling Tower

6703 - Torrance Plant - To Insulate One (1) Steam Pot at Laboratory

6708 - Dominguez, Dominguez Division
Acid-Proof Brick Lining in One (1) Electrostatic Precipitator

6737 - See Montrose Chemical Corp. of Calif.
(affiliated with Stauffer Chemical Co.)
Torrance - To Install the Acid-Proof Brick Lining in One (1) Vertical Steel Tank 41" dia. x 7'-0" high
(A) - To Install an addl. 4½" Acid-Proof Brick Lining

6786 - Vernon - Acid-Brick Lining for a 22" I. D. x 24" long Pipe
(A) - To Brick Line "A" Mixer (B) Same as "A"

6790 - Dominguez Division, Dominguez
Refractory Lining for One (1) H2S Furnace Connecting Pipe and 4 ft. Extension to Existing Dutch Oven
(A) - Brickwk. Reprs. to Dutch Oven of Combustion Chamber

6795 - Dominguez Division, Dominguez & Brickwork
Maintenance and Repairs to Insulation for Year 1950
(For Year of 1949, Refer to Job No. 6506)

6808 - Torrance Plant - To Install Acid-Brick Lining in One (1) Tank 3 ft. wide x 5 ft. long x 3 ft. high

6829 - See Keystone Steel Fabricating Co.
Henderson, Nevada - Lindane Plant -
Acid-Proof Linings for:
One (1) Molten BH6 Tank; and One (1) Still

6831 - Torrance - Research Department -
To Insulate Dixon "Steam King" Boiler
(A) - To Insulate Piping at Research Dept.

(contd.)

STAUFFER CHEMICAL COMPANY (contd.)

6851 - Dominguez Division - Dominguez
Acid-Proof Brick Lining for One (1) Quench Chamber and Connecting Flues
(A) - Drill and Plug Drain Hole Bottom of Quench Tank
(B) - To Repair Lining of Primary Quench Chamber

6953 - Dominguez Division - Dominguez, Calif.
Brickwork Repairs to One (1) Custic Pot

6964 - Torrance - Research Department -
Insulation for One (1) Tank

6995 - Torrance - To Repair Acid-Proof Brick Lining of Nozzle for Cooling Tower

7001 - Dominguez Division - Dominguez
Insulation for One (1) Foster-Wheeler Economizer

7033 - Torrance - Insulation Repairs to Piping and Equipment, Damaged by Fire

7044 - Dominguez Division - Dominguez, Calif.
Acid-Proof Brickwork for New SO_2 Inlet for Plant #1 Tower; and New Piers and Grillwork for Tower
(A) - To Install Sloping Floor and 18" dia. Nozzle for Quench Tower
(B) - Labor and Acid Proof Cement only to Install Sloping Floor in One (1) Pump Tank for Quench Tower

7075 - Dominguez Division - Dominguez, Calif.
Labor and Expense Items only for Miscellaneous Insulation and Brickwork Repairs for Year 1951
(A) - Brickwork Repairs to Install New Bulkhead in 30" I. D. Manhole in Combustion Furnace in Sludge Plant
(B) - To Remove Insulation from Piping and Equipment of #3 Badische Unit
(C) - To Insulate 16" Piping for Converters
(D) - To Insulate One (1) Heater as Directed
(E) - Brickwork Repairs to Buildings
(F) - Insulation Repairs to Converter
(G) - To Insulate 30" dia x 13'-0" long Vessel & Misc. Insulation Required
(H) - To Repair Pier of #4 Caustic Pot
(I) - Quench Pump Tank Plant #2

(contd.)

STAUFFER CHEMICAL COMPANY (contd.)

7088 - Dominguez Division - Dominguez
Fire Brick Lining for Outlet Flue of Combustion Chamber of #1 Sludge Plant /Chamber
(A) - Brick Lining in Connection of New Flue for Comb.

7091 - Torrance - Acid-Proof Brickwork for One (1) Acid Tank

7092 - Dominguez Division - Dominguez
Acid-Proof Brick Lining for One (1) Drying Tower, including Inlet and Outlet Vestibules

7104 - Torrance - Insulation Work for Steam Boiler #2
(A) - Fireproof Pipe Supports of Pilot Plant

7105 - See Leonard Construction Company
Vernon - Acid-Proof Brickwork and Refractory Brickwork for New Contact Sulphuric Acid Plant
(A) - Packing Oleum Tower (B) - Line Stack Breeching

7109 - Torrance - Acid-Proof Brick Lining in Bottoms of Four (4) Manholes

7161 - Vernon - Water-White Sulphuric Acid Tanks - Acid Brickwork

7195 - Vernon - To line One (1) Neutralizing Tank at Muriatic Carboy Wash Rack

7216 - Dominguez Division, Dominguez - To Line Sewer Pit with Acid-Proof Materials

7217 - Dominguez - Brickwork for One (1) 10 ft. dia. Caustic Pot

7244 - Torrance - Insulation Work at Research Dept.

7267 - Dominguez Division, Dominguez - To Construct Acid-Proof Lining for One (1) Sewer Manhole

7271 - Dominguez Division, Dominguez - H_2S Furnace - Brickwork Repairs

STAUFFER CHEMICAL COMPANY (contd.)

7308 - Dominguez - Drying Tower No. 2 - Acid-Proof Work

7344 - Dominguez - Acid-Proof Brick Lining in Surge Tank for Drying Tower
(A) - To Repair Bulkhead in Sulphur Furnace
7370 - Henderson - Acid Brickwork

7426 - Dominguez Division - Dominguez, Calif.
To Install Acid Brickwork in Oleum Tower
(A) - To Install Acid-Brick Lining in Manhole

7477 - Dominguez Division - Dominguez - Caustic Pot
To Repair Brick Pier
(A) - Acid Brickwork on Stack Precipitator
(B) - Absorbing Tower
(C) - Drying Tower
(D) - Quench Tower
(E) - Manhole and Gutter
(F) - Brickwork around Damper between Quench Tower & Sulphur Burner
(G) - To Repair Maholes
(H) - Brickwork Repairs
(I) - Brickwork Repairs
(J) - To Line 48" Flue between Combustion Chamber and Absorbing Tower
(K) - To Replace Center Pier at Caustic Pot #4
(L) - To Repair Dutch Oven of Combustion Chamber
(M) - To Install Baffle Wall in 30" dia. Pipe

7525 - Dominguez Division - Dominguez, Calif. - Baffle Wall for Boiler -- 65% Oleum Plant

7558 - Dominguez Division - Dominguez, Calif. - Caustic Pot Brickwork

7597 - Vernon, California - Reline "A" Mixer

7702 - Vernon - To Reline 12'-0" dia. x 9'-6" high Water White Acid Tank

7734 - Dominguez Division - Dominguez - For Year 1953)
Acid-brick lining for Sewer Line
(A) - Experimental Heat Exchange Connection
(B) - To Line Two (2) Pits with Acid Brick
(C) - To Install Inner 4½" Sil-O-Cel Lining in Primary Quench Chamber, Plant #2

STAUFFER CHEMICAL COMPANY (contd.)

7734 (contd.)

(D) - To Cut Holes
(E) - To Repair Center Pier of Caustic Pot #4, #1, #2, #3, #5
(F) - To Repair #1 Sludge Pot
(G) - Necessary Repairs to Foster Wheeler Waste Heat Blr.
(H) - Replace Access Door in Sludge #1
(I) - #4 Absorbing Tower
(J) - Manhole in Sludge #1
(K) - Drying Tower - Acid-Proof Brickwork
(L) - To Repair Sludge Tank - Plant No. 2
(M) - To Repair Burner in H_2S Furnace
(N) - To Install 24" Outlet in Hot Gas Filter Furnace
(O) - To Line One (1) Concrete Pitt 6'x12' with Acid-Proof Brick
(P) - Install Blind in 4 ft. Diameter Pipe

7788 - See Leonard Construction Company - Dominguez
To Line Floor of 17 ft. dia. Tank with Insulating Brick - Labor only

7877 - Vernon - Acid Brick Lining in Steel Tank

8016 - Dominquez, Calif. - To Install Refractory Linings for One (1) 14' I.D x 40' Main Combustion Chamber - One (1) 14' I.D x 25' Dust Chamber, & One (1) 4'-9" x 81' Gas Flue

8009 - See Leonard Construction Co.
Dominquez, California
Line Floor of 17 ft. dia. Tank with Insulating Brick

8027 - Dominquez Division - Dominquez, California - To Line One (1) 24" diax 36" long Combustion Chamber for 6" Tunnel Burner

8145 - See Macco Corporation
Dominguez Division
Labor only to Line Sump Hole with Acid Brick

(contd.)

STAUFFER CHEMICAL COMPANY (contd.)

8162 - Vernon - Acid Linings in Two 8ft. dia. x 12ft. High Tanks

8279 - Dominguez - Install Lining of Insulating Fire Brick in Air Inlet Vestibule for Dutch Oven at Sludge No. 1
(A) - Repair Brickwork in #5 Caustic Pot
(B) - Repairs to Caustic Pots
(C) - Insulate 4" Sulphur Dioxide Vent Line
(D) - Renew Inner Lining of Insulating Brick in Primary Quench Chamber
(E) - Insulation Repairs to #65 Oleum Plant
(F) - Repair Door on Caustic Pot
(G) - Repair Sewer Pipe where Pipe Enters Manhole
(H) - Line Two Sewer Manholes
(I) - Install Hot SO_2 Duct to Quench-Tower, Pit No. 1

8332 - Vernon - Brkwrk Repairs to Co_2 Burner

8411 - Vernon - Mixed Fertilizer Plant Acid-Proof Brickwork, Scrub Tower
(A) - Install Packing in Scrub Tower

8441 - Vernon - Mixed Fertilizer Plant Install Fire Brick Lining in One 8'-4" dia. x 22'-4½" Air Heating Furnace
(A) - Line Feed Chute on Fertilizer Dryer

8566 - Dominguez - Refractory Repairs to Foster Wheeler Boiler

8676 - Dominguez - Repair #1 Sludge
(A) - Alterations and Repairs to Two (2) Caustic Pot
(B) - Repairs to #3 Caustic Pot
(C) - Install Brickwork in Sump for Collecting Liquid Waste from Trenches

8678 - Dominguez - Gas Cooling Tower and Surge Tank Acid-proof Brickwork

Extra - Line Two Pcs. of 4 ft. dia. Pipe

8770 - Vernon - Install Acid Brick Lining in One 12' dia. by 7'-0" High Steel Tank
(A) - Install Outlet Sleeves

8794 - Vernon - Repair Firebox at Fertilizer Pelletizing Plant

(contd.(

STAUFFER CHEMICAL COMPANY (contd.)

8867 - [illegible]
Dominguez - Install Burners in #1 Sludge Furnace
(A) - Install Refrac. Lining in Curtain Wall for 14x44 ft. Combustion Chamber Dutch Oven
(B) - Alterations to H_2S Burner Assemblies on Dutch Oven of 14x40 ft. Combustion Chamber
(C) - Install Two (2) H_2S Burners on 14x40 ft. Combustion Chamber
(D) - Install Expansion Joint Packing at Connection of 4 ft. dia. Flue Gas Duct
(E) - Install Brickwork and Insulation Packing around 4 ft. dia. Sleeve at Entrance to Quench Tower

8987 - Dominguez O Furnish Labor and Material to Install Acid Brick in No. Manhole in Sewer
(A) - Repair Burners on #1 Sludge Pot

9001 - Vernon - Remove and Replace Fire Brick Plug at Access Door at Base of #1 Waste-Heat Boiler in Sulfuric-Acid Plant

9055 - Dominguez - Repair #5 Caustic Box
(A) - Plant No. 1, Quench Tower Repairs
(B) - Repairs to No. 2 Waste Heat Boiler

9092 - Dominguez - No. 2 Plant Repairs
Primary Quench Chamber; Connecting Flue between Primary Quench and Cooling Tower; Renew Floor Supporting Piers and Grillwork in Drying Tower

9099 - Dominguez - Repairs to #5 Caustic Pot

9121 - Dominguez - Install Cut B&W-80 Brick in Front of Seven (7) Burners in #1 Sludge Furnace
(A) - Repair Brickwork of Dilute Boot
(B) - Cut Sewer Pipe
(C) - Line Two (2) Sewer Manholes

9133 - See Leonard Construction Company
Dominguez - Labor Only to Install Acid-Proof Brick and Refractories in 330-ton Contact Sulfuric Acid Plant
(A) - Revision to #1 Boiler
(B) - Labor & Material to Install $1\frac{1}{4}$" Split Brick in Top of Absorption Drying Towers

(contd.)

STAUFFER CHEMICAL COMPANY (CONTD.)

9213 - Dominguez - Repairs to #3 Caustic Pot
(A) - Repairs to Hot Gas Flue in Plant #1
(B) - Repairs to #H2S Furnace in #1 Plant

9416 - Dominguez - Repairs to #1 Caustic Box
(A) - Repairs to #5 Caustic Pot
(B) - Repairs to #4 Caustic Pot

9616 - Dominguez - Rebuild Firebox for Flare

9695 - Dominguez - Labor and Material to Line Cross in Hot Gas Duct
(A) - Repairs to H2S Combustion Chamber

9746 - Dominguez - Repairs to #5 Caustic Pot

9807 - Dominguez - Repairs to HCL Reactor
(A) - Repairs to Aluminum Chloride Reactor

9881 - Dominguez - Install Acid Brick Lining in #1 Tower Pump Pit
(A) - Install Acid Brick Lining in Stack Precipitator Pump Pit
(B) - Install Acid Brick Lining in Pump Pit at Tanks #219 and #220
(C) - Repairs to Absorbing Tower at Plant #2

9899 - Vernon - Air Heater Furnace Repairs Fertilizer Mixer Plant

9963 - Dominguez - Repairs to #2 Caustic Pot

1045 - Vernon - Repairs to Sulphur Burner in Acid Plant

1047 - Dominguez - Rebricking Caustic Pot Furnace

1107 - Dominguez - Repairs to #4 Caustic Pot

1136 - Dominguez - Repairs to #2 Quench Tower

1155 - Dominguez - Repairs to #1 Caustic Pot

1225 - Vernon - Acid Brick Lining for Alum Cooker Tank.

1238 - Dominguez - Necessary repairs to Dry Power Separator Pans Plant #1

1241 - Dominguez - Necessary repairs to Humidifier Pump Pit Plant #1

1253 - Dominguez - Repairs to Furnace Flue Plant #1

1285 - See Ralph M Parsons -Delaware - Design & materials for One Waste Gas Incinerator

STAUFFER CHEMICAL COMPANY (Continued)

1419 - Dominguez - Necessary repairs to #5 Caustic Pot

1543 - Dominguez - Renew insulating Brick interlining in primary Quench Chamber Plant #2

1627 - Dominguez - Labor only to install Acid Proof Lining and packing for 42" x 30' High Stripping Tower
(A)- Remove lining & re-install to inspect rubber

1679 - Dominguez - Install Epoxey Cement in Pump Pit

2052 - See L. W. Lefort Company, Inc
Dominguez - Labor and material to Construct Acid Linings in Four (4) Lead Lined Steel Tanks

2111 - Dominguez - Labor only to install acid brick in Manhole

2118 - Dominguez - Plant #2 - Renew Burner End of Combustion Chamber with Dished Head and
(A)- Renew Brickwork in Stack Precipitator

2180 - Dominguez - Necessary repairs to #3 Caustic Pot

2185 - Henderson, Nevada
Labor & material to install Acid Proof Linings in Vessels S-24 and R-23

2186 - Vernon - Repairs to CO Burner

2223 - Dominguez - Necessary repairs to #1 Caustic Pot

2306 - Dominguez - Necessary repairs to #2 Caustic Pot.

2365 - Dominguez - Labor & Material to Remodel One Burner Unit of Dutch Oven #1 Plant Sludge Furnace

STAUFFER CHEMICAL COMPANY (Continued)

2367 - Dominguez - Repairs to Hot Air Flues #1 Plant Sludge Furnace

2420 - Dominguez - Repairs to #5 Caustic Pots

2472 - Dominguez - Repairs to Pilot Incinerator

2503 - Henderson, Nevada
Linings for Five (5) Chlorine Towers
(A) - Lining for One (1) Vessel R-23
(B) - Install Packing Support & Tower Packing in Caustic Scrubber

2511 - Dominguez - Necessary repairs to Aluminum Chloride Reactor
(A) - Rebrick Manhole

2552 - Dominguez - Alterations to Sludge Furnace Combustion Chamber for new Hydrogen Burner - Plant #2
(A) - Remove & replace acid brickwork at Acid Outlet Sleeve in Bottom of Absorbing Tower Plant #2

2581 - See Montrose Chemical Corp
Henderson, Nevada
Install acid proof materials in One (1) Azeo Column

27
2644 - Dominguez - Repairs to C11A and C11B Drying Towers

2663 - Dominguez - Necessary repairs to Plant #1 Flue

(Continued next page)

2675 - Dominguez - Necessary repairs to #3 Caustic Pot

2678 - Dominguez - Repairs to #2 Caustic Pot

2694½ - Dominguez - Repairs to #5 Caustic Pot

2706 - Dominguez - Repairs to Furnace to the #2 Quenching Tower

2773 - Dominguez - Necessary repairs to #2 Caustic Pot

2839 - Henderson, Nevada
(work to be done at our Wilmington Warehouse)
Lining for H.C.L. Column Imidan Plant

2925 - Dominguez - Install acidproof Lining to Muriatic Shipping Pump

3046 - Dominguez
Alterations to front wall of Foster Wheeler Boiler to suit new Hydrogen Burner

3079 - Dominguez
Install Brick Lining in Acid Pump Base

3143 Dominguez
Repairs to Absorbing Tower Pump Tank.

3145 Dominguez
Necessary repairs to Quench Chamber.

3172 Vernon
Repair Sulfur Burner.

3173 Dominguez
Necessary repairs to Plant #2 Preheater.

3199 Dominguez
Necessary Repairs to #4 Caustic Pot.

STAUFFER CHEMICAL COMPANY [Cont'd]

3225 Dominguez
Necessary repairs to #3 Caustic pot

3249 Dominguez
Repairs to #2 Caustic Pot

3293 Long Beach
Drill sample holes in four stacks

(A) Repairs in auxillary burners F701 + F702

3302 Dominguez
Plant #1 - Repairs 1964

Quench Tower -
Stauffer dwg. #2, file 5141, issue 4

(A) 4' dia. flue from dust chamber to quench tower

(B) cooling tower surge tank Stauffer dwg #4, file 5141, issue 4

3382 Dominguez
Repairs to @2 caustic pot

3411 Dominguez
Reprs to #4 caustic pot

3414 Henderson, Nevada
Install acidproof lining in 2 liquefaction #2 chlorine drying columns

3452 Dominguez
Repair Plant primary quench chamber
Plant #2

3498 Dominguez
Install acid brick lining in hypochlorite scrubber

3506 Dominguez
Repairs to #2 Caustic Pot

STAUFFER CHEMICAL COMPANY

3531 West End, California
Engineering water-cooled roof support beams, #3 Borax melting furnace

3584 Henderson, Nevada
Rebrick Vessell #R23

3589 Dominguez
Repairs to #2 caustic pot

3609 Vernon
Necessary repairs to sulfur burners

3625 Dominguez
Repairs to #5 Caustic Pot

3682 Henderson Nevada
Rebrick R-23 vessel at Grano Steel, Los Angeles

3685 Dominguez
Repairs to #4 caustic pot

3710 Long Beach
Repairs to HI Boiler

3758 Long Beach
Assembly of gas flue between boiler and incinerator

3927 Dominguez
Repair Plant #1 sludge furnace

3969 West End, California
Furnish and install new roof support beams and install new Detrick arch, #3 borax melting furnace

STAUFFER CHEMICAL COMPANY (Cont'd)

4081 Vernon
Repairs to boiler #1

4097 Dominguez
Repairs to #4 caustic pot

4117 Dominguez
Install 1-1/4" acid brick splits on pump base.

4136 Long Beach
Repairs to boiler H901B

4160 South Gate
Reline #3 Kiln

4175 Long Beach
Necessary repairs to F703 incinerator

4192 Dominguez (Plant #2)
Repairs to primary quench chamber
A) Repairs to entrance of quench tower
B) Repairs to secondary quench tower
C) Repair drying tower pump tank

4216 Long Beach
Seal off inlet to #600 incinerator waste heat boiler

4313 Long Beach
Repair H-601 boiler and F-603 incinerator

4332 South Gate
Furnish and install materials to tear out and renew portions of sulphur burner refractory lining

STAUFFER CHEMICAL COMPANY (Continued)

4348 Dominguez
Repair #1 absorbing tower plant #1

4438 Long Beach
Repairs to #700 incinerator

4493 Dominguez
Furnish and install acid brick lining for C11A drying tower and T13 pump foundation

4520 Long Beach
Repair E3 incinerator

4543 Westend, Calif.
Supply material for trefoil section of 8'0" dia rotary lime kiln

4596 Dominguez
Labor to install acidbrick splits on T13 pump foundation

4650 Long Beach
Repair stack #300

4683 Vernon
Repair absorbing tower

4686 Dominguez
Repair caustic pots 1, 2, 3, 4 and 5

4707 Long Beach
Repairs to boiler #H601-A

STAUFFER CHEMICAL COMPANY

4717	Dominguez Repairs to #3 caustic pot
4726	South Gate Construct carbon block #1 acid tower
(A)	Install firebrick lining in tower
4805	Dominguez Repair #5 caustic pot
4949	Dominguez repair combustion chamber and dutch oven #1 plant
(A)	cancelled
(B)	labor and material to line cooling tower
4969	Dominguez Repair #1 caustic pot
5010	Dominguz Repair secondary quench-plant no 2
5036	Dominguez Furnish material
5045	Thompson Tank Mfg Co Los Angeles Henderson, Nevada Install acid proof lining in vessel
5049	Long Beach Repair F603 Incinerator
5060	Westend Rebrick #2 anhydrous Borax Furnace
5085	Long Beach Repairs to Heater H.701

5117	Long Beach Repair F757 foul gas burner	(4/68)
5152	Dominguez Labor to line pump base with acid brick on tank 15A	(5/68)
5174	Westend, California Furnish "Acme" brick and Detrick tile	(5/68)
5203	Dominguez Labor to install brick work on pump base and drainage ditch for diluter cooler system	(6/68)
5216	Vernon Repairs to sulfur burner and quench tower	(6/68)
5423	Vernon Repairs to cooker.	
5432	Richmond, Calif. Brickwork design-Acid sludge burner.	
5446	West End, Calif. Repair #1 anhydrous Furnace.	
5469	Dominquez Necessary Repairs To #2 Caustic Pot	12/68 W.O.
5497	Westend Reline Hot Zone of Rotary Lime Kiln	12/68 HWB

STAUFFER CHEMICAL COMPANY (cont'd)

5521	OWL CONSTRUCTORS (Compton) Henderson, Nevada Install acid materials in Thiol Expansion 'A' - Acidbrick lining in Manhole 'B' - Pennsalt Flex joint in expansion joints of concrete 'C' - Install #360 pump base topping at north and east walls of south blast structure. 'D' - Premium time 'E' - Labor for delays in work due to dangerous fumes and fire hazard		1/69

(D)- Labor & Mat'l to repair refractory

2084 - Wilmington - Install Insulag in Two (2) Exchangers E2 at #3 H.T.U.

2126 - Montebello Lab - Repair Gas Generator

TEXACO, INC (Continued)

2282 - Montebello Laboratory
El Monte - Furnish labor and material for installing lihing in 2 Cu. Ft. Generator

2385 - See C. C. Moore & Co. Engrs
Wilmington
Install Castable Refractories at Six Boiler Tubes at each boiler side wall and arch floor to Upper Header in CO Boiler

2471 - Wilmington
Necessary repairs to Regenerator
(A) - Install castable refractory lining (2000 s.ft.) in FCC Reactor

2633 - Wilmington - Install Seal with Castable Refractories at Bottom of Grid

2697 - Wilmington - Repairs on #1VPS Heater

2748 - Wilmington
Repairs to Heater

2771 - Wilmington
Repairs to #10 Boiler at #2 Boilerhouse

2786 - Wilmington
Repairs to #2VS Heater

2795 - Wilmington
Repairs to #1 VPS Heater

2798 - Wilmington
Repairs in Generator at SCC Unit

2805 - Wilmington
Necessary repairs to C.O. Boiler

TEXAC O INC (Continued)

2850 - See C C Moore & Co
Wilmington
Repairs to C.O. Boiler
(A) - Premium Time

2914 - See C. C. Moore & Co. Engrs.
Wilmington
Labor and material to insulate where boiler tubes removed and replaced
(A) - Premium Time

2943 - Montebello Research Center
Furnish 2 Sets of Refractory liners for 2 cu.ft., Generator

2969 - Wilmington
See Wonderly Construction Co.
Fireproofing Columns and Beams

2982 - Wilmington
Repairs to #H-2 Furnace

3062 - Wilmington
Gunite 1" thick lining in #2 Tower V245 at HMLU Refinery

3082 - Wilmington
Repairs to #2 VPS Heater

3229 El Monte
Install lining in 2 cu. ft. generator

3312 Wilmington
Necessary repairs to #1 VPS heater

3441 Montebello
Install lining in synthesis gas generator
(Norton dwg #RB 17589)

TEXACO INC.

3451 Wilmington
Furnish labor and material to cur 14 peepholes in Foster-Wheeler Furnace

3513 Wilmington
Repair combustion chamber of B-1 Heater

3528 Wilmington
Repairs to B3 and B4 Heaters

3602 Federal Steel Corporation
Wilmington
Install red brick in 4 holes of west side of boiler house building

3651 Montebello Research Laboratory
Rebrick 2 cu. ft. generator

3678 Wilmington
Repairs to VPS #1 Heater

3706 Wilmington
Labor and material for refractory repairs to #2 boiler at #2 boilerhouse

3708 Wilmington
Necessary repairs to #2 VPS Heater

3761 Wilmington
Repairs to Regnerator

3803 Montebello
Rebrick 2 cu. ft. generator using K28 IFB and Norton 33I

3807 Wilmington
Necessary repairs to #2 VPS Heater

TEXACO INC

3921 Wilmington
Install acid resistant lining in splitter tower and steam condensate sump

3997 Montebello
Install lining in 3 cuft generator

4029 Wilmington
Repair #5 boiler, #2 boilerhouse

4061 Montebello
Install lining in 2 cu. ft. generator

4269 Wilmington
Repair IVS heater

4320 Wilmington
FLUOR CORPORATION, LTD.
Los Angeles
Install refractory lining in CR unit #3, reactors 1, 2, and 3
(A) Dryout of reactor lining

4509 Wilmington
Repair #3 still at #2 crude

4367 Montebello Research Lab.
Install sample lining in commercial size generator

4551 Wilmington
Brickwork repairs to #3 crude heater

4560 Wilmington
FOSTER-WHEELER
Houston, Texas
Install lining in 2 Texaco generators and
Floors in 7 fired heaters

4593 Wilmington
FLUOR CORP
Los Angeles
Install lining in Lummus fired heater
HC-101 and ductwork

4600 Wilmington
Repair H1 heater at HTU#3

4619 Montebello
Install lining in 2 cu ft generator

4636 Wilmington
Replace approx 108 sq ft of insulating
brick wall of south cell of box heater
at #2 CRU

4655 Wilmington
FOSTER-WHEELER
Repair heater 4204

4715 FLUOR CORPORATION
Wilmington
Repairs to heaters

4765 CHICAGO BRIDGE AND IRON CO
Salt Lake City
Wilmington
Install new refractory lining in upper
A) over section and plenum of FCCU regenerator

TEXACO INC

4765 A) Cyclone repair and dryout

4770 Wilmington
Repair #2 VS heater

4772 Wilmington
Repair #2 VPS heater

4817 Wilmington
Repairs to reactor

A) Repair lining in C8 catalyst line
B) Repair catalyst lines where lining not removed
C) Repair catalyst lines C22A, C22B and C23

4833 Wilmington
Install new lining in lower cone of regenerator beneath grid

4841 Wilmington
Repair #1 boiler

4985 Montebello Research Lab
Install Norton lining in VHP synthesis gas general
A) Install refractory lining in 2 VHP shift converters

5069 Wilmington
Repair Synthesis Gas Generator

TEXACO INC (Continued)

5157	"SS Texaco New York" Terminal Island Repair starboard boiler	(5/68)
5222	Wilmington Repair synthesis gas generator	(6/68)
5232	Wilmington Refractory repairs VPS # 2 heater	(6/68)
5299	Wilmington Repairs to "A" generator.	
5326	Wilmington Repair "B" generator	
5343	Wilmington Install refractory Lining VPS #1 heater.	
5410	Wilmington Necessary repairs to HG4301 and HG4401 heaters.	
5474	Wilmington Repair to Generator	12/68 W.O.
5503	Wilmington Repair "A" Generator	12/68 W.O.
5557	Wilmington Repair "B" Generator	1/31/69 W.O.
5605	Montebello Lab Repair synthesis gas generator	3/69 WFB
5615	Wilmington Repair regenerator cyclones	3/69 WO

TEXACO INC (cont'd)

5685 Wilmington 5/69
Furnish labor and materials to reline #3 crude unit stack WO

5764 Wilmington 6-23-69
Repairs to Generator

5820 Wilmington 7/31
9 Boiler renew first and second pass baffles and furnace floor

5908 Wilmington 9/26
Replace Gunite Lining in Vessel

5971 Wilmington 10/69
Repairs to "B" generator WO

6170 Wilmington 3/70
Repair # 5 boiler

6175 Wilmington
Repair to reactor

6184 Wilmington
Repair Detrick arch B4
Kellogg Htr

6186 Wilmington
Repair tank 17 Alkie
2 plant

6201 Wilmington
Repair Regenerator cone section and cyclone
A Repair C16 Line

6207 Montebello
Repair bottom of Synthesis Gas Generator

TEXACO INC (continued)

6279	Wilmington. Repair C8 Line	6/70
6295	Montebello Install lining in dust tunnel (per Norton Dwg. RB-23316)	6/70
6316	Wilmington Necessary support repairs on tank V-654	
6321	Wilmington Repairs on HF 302 # 3 reactor hydrogen heater	
A	Repair HF 301 # 2 Hydrogen heater	
B	Repair HF 300 # 1 Hydrogen heater	
6330	Wilmington Repair "B" generator	
A	Repair "A" generator	
6347	Wilmington Install insulation in high pressure vessel	
6356	Wilmington Repair H-2 Stripper tower.	
6366	Wilmington Reapir "A" Generator	
6429	Wilmington Repairs to brickwork #1 and #2 VPS Heaters	10/70
6441	Wilmington Repair hot oil system, circulating system heater	10/70

TEXACO, INC. (continued)

6515	Wilm. - Repair #2 asphalt crude still.	12/70
6627	Wilm. - Scaffold Rental	3/71
6639	Wilm. - Repair Regenerator and Reactor	3/71
"A"	Wilm. - Repair C10 Line	3/71
6643	Monte - Repairs to Synthesis Gas Regerator	3/71
6662	Wilm. - Repair "A" Generator	4/71
6676	Montebello - Repair 20" ID Generator	4/71
6764	Montebello - Repairs to 6' Diameter Generator	6/71
6788	Wilmington Repair "B" Generator	7/71
6801	Wilmington Install Crystal, Silica Sand, and Lumnite Cement in Bottom Half V-1008 Vessel	7/71
6834	J T Thorpe + Son Inc. (Emeryville) Combustion Engineering Inc. (Orange) San Ardo, California Repairs to "A" Type Boiler	8/71
6844	Wilmington Repair CO Boiler	8/71
6881	Wilmington Repairs to "A" Generator North	9/71
6884	Wilmington Repair Combustion Section of HTU2 F101 Heater	9/71
6898	Wilmington Repair H2S Stripper	10/71

TEXACO, INC. (Continued)

6974	Wilmington Repair #2 Still at #2 Crude Unit	12/71
7027	Wilmington Repairs to C-10 Line	1/72
7037	Wilmington Repair #5 Boiler	1/72
7050	Wilmington Repairs to C10 Line	1/72
7057	Wilmington Repair "B" Generator	2/72
7066	Wilmington Repair Reactor Grid	2/72
7154	Wilmington Repair "A" Generator	4/72
7208	[illegible]	[illegible]
7211		
		5/72
"A"	Repairs to C22 Flue gas line	
	Repairs to regenerator cyclone linings.	5/72
	Regenerator wall.	
	Repairs to reactor stripper External lining on reactor Distributor-Grid support pipes	5/72
		6/72
"B"	Reline conical vestibule below waste heat boilers	
	Reline floor of elbow between waste heat boiler and precipitator.	
	Reline floor of entrance plenum to precipitator.	

TEXACO INC° (continued)

7277 Wilmington
Repairs to #2 still and #2 crude unit 7/14

7321 Wilmington
Repairs to convection section over heaters #301, 302, 303.

7383 Wilmington
Necessary repairs to cell #2 on #1 heater. 10/72

7452 Wilmington
Repair concrete and brickwork acid truck loading rack. 12/72

7523 Wilmington 1/73
Repair #5 Boiler.

7649 Ralph M. Parsons 4/73
Refractory Lining Sulfur Recovery Unit

Ralph M Parsons
7698 Long Beach
Refractory lining sour water stripper column. 5/73

7713 Carson
Refractory linings furnaces 17-1401, 17-1402, Hudrogenation 11-1201 and Reducing Gas Generator 11-1401.

7803 Long Beach
Necessary repairs to furnace 8/73

7846 Wilmington
Repairs to "B" generator 9/73

7858 Wilmington
Necessary repairs to H25 stripper 9/73

(H) - To Renew Refractory on End Tube Supports in all Coils of Cracking Heaters
(I) - To Repair Piping in Trenches
(J) - Renew Refractory on End Tube Supports in all Coils of Cracker Heater
(K) - To Renew Lower South Gas Ring in #3 Boiler - #2 Plant
(L) - To Repair Repair Linings in Htr. Flue & Stack; Brickwork in Fireboxes and Plenum Chambers
(M) - Refractory Repairs to TCC Cracker Htrs.
(N) - To Rebuild Fire Wall in North Pipe Trench D St.
(O) - Do Neces. Cleanup & Repairs in U33 Crude Area
(P) - To Repair Paving Around West End of F1 at U137
(Q) - To Replace Baffle Tile in Boiler #5, Plant #2
(R) - To Prepare to Rebrick Upper S. Wall & Entire N. Wall - TCC Treater
(S) - To Rebuild Brickwork at Gas Burners in Flare Pit
(T) - To Repair Refractory on North Side of Zone 10 and other Zones as Neces. - TCC Treater
(U) - To Repair Refractory in Zone 8 at TCC
(V) - Brickwork in Plenum Section & In Firebox Section of Treater Heater
(W) - To Make Temp. Repairs to Air Duct above Airline Burner - TCC
(X) - To Repair Tanks & Vessels at Asph. Loading Rock Damaged by Fire
(Y) - To Remove Brickwork on F-2 Plumbite to Settler at Unit #84
(Z) - Do Minor Brickwork on #6 Boiler, Plant #1

8037- Wilmington - To Remove Gas Booster Compressor #11 & Turbine #22

(contd)

UNION OIL COMPANY (contd.)

8037 (contd.)

(A) - To Repair Brickwork in Trenches around Area 1 in 33 Crk.
(B) - To Repair Broken Brick Fire Stop on Road10
(C) - To Repair Steam Leak on 2" Burner Line to D-6 Heater, U-91
(D) - To Remove Open 4" Line Going through Brick Fire Stop; Fill in Hole in Fire Stop
(E) - To Repair Brickwork of Pipe Trench Fire Stop
(F) - To Repair Hole in the Wall of Dye Plant Bldg.
(G) - To Repair Brick Fire Stop in F St. Pipe Trench
(H) - To Repair Damage to Htr. B-1 at Unit 34 caused by Explosion
(I) - To Remove Neces. Tile to Replace 19 Three Spider Burner Support Castings in HGO Heater
(J) - To Remove Floor Sufficiently to Replace 15 ' Burner Support Castings in LGO Heater
(K) - To Remove Neces. Tile to Replace three Three-Spider Burner Support Castings in Ref. Htr.
(L) - To Remove Neces. Tile to Replace 2 Burner Support Castings in Vis. Brkr. Htr.
(M) - To Repair Eyebolts in B-3A Plenum Chamber & all other Brickwork
(N) - To Repair Brickwork at Gas Burner Rings
(O) - To Replace Two Tubes in Boiler #1 at B.P. #2
(P) - To Repair Floor around Urinal in FCC Structure U-152
(Q) - To Seal Cover on Sewer Box #29
(R) - To Repair Broken Fire Stop in Pipe Trench
(S) - Repair Refractory Lining in Reversion Htr. Flue & Stack, etc.
(T) - To Repair Firewall from "B" Street to Manifold - Unit 20
(U) - To Replace B.O. Brick around Poly Htr. Burners - Unit 20
(V) - Brickwork in BIa Crude Heater, Flue & Stack - Unit33
(W) - To Remove Dead Manifold Piping & Valves on D Street
(X) - To Repair Electric Conduit in Acid Handling Area at Water Treating Plant
(Y) - Misc. Repairs to Sewer Box #17
(Z) - Safety Meeting

8074 - Wilmington - To Repair Brick Retaining Wall in Pipe Trench
(A) - To Remove Floor in LCO Htr. to Replace 19 Burner Support Castings
(B) - To Remove Burner Tile Neces. to Replace Burner Support Castings in Reformer Heater
(C) - To Remove Burner Tile Neces. to Replace Burner Support Castings in HGO Heater

UNION OIL COMPANY (contd.)

8074 - (contd.)
(D) - To Remove Burner Tile Neces. to Replace Burner Support Cstgs. in Vis-breaker Htr.
(E) - Repair Eyebolts & Misc. Brickwork in B2B Htr.
(F) - Add a Remote Ignition for Pilots at Flare Pit at Incinerator
(G) - Tear Down South Wall of #2 Blr. - Plant #1
(H) - To Make Minor Brickwork Repairs - Plant #1
(I) - Do Necessary Work at Unit #67
(J) - Remove & Salvage 24" Still Line Stub & Fittings U-27 Cooling Tower
(K) - Repair all Unit #34 Htr. Brickwork
(L) - Reseal Gas Burner Rings in B-201 Htr.
(M) - Repairs to Deck of Glassware Oven at CRR Laboratory
(N) - Repair Minor Brickwork in #2 Blr - Plant #2
(O) - Remove Loose Brick & Repair Floor in B-1 Htr Units 25 & 27
(P) - Renew Cracked & Broken Burner Cones on #1 & #9 Burners - Units 25 & 27
(Q) - Remove Brick Dividing Walls between Burners in Superheater Fireboxes & Floor TCC Cracker
(R) - Remove & Replace Brick on F-13 Odor Abatememt
(S) - Rebuild Brick Wall for Iron Walkway in Pipe Trench
(T) - Brickwork Repairs Neces. In Firebox & Plenum Chamber
(U) - Make Minor Refractory Repairs to BB-1 Kiln-TCC Cracker
(V) - Repair Refractory in TCC Cracker Kiln BB-1
(W) - Repair Damaged Refractory at Base of Cracking Htr. Flue Gas Stack
(X) - Repair Refractory in Air Line Burner - TCC Cracker
(Y) - Repair Firestop at E-W Pipe Trench N-W of Unit 84
(Z) - Coulk up Cracks in Brick with Cement

8101 - Union Oil Company of California - Wilmington
Provide Material and Remove Refractory Lining-TCC Htr
(A) - Haul & Store Material for Zone 10 Rpr of TCC Treater Kiln & Gunite
(B) - Remove One Burner in TCC Treater Superheater
(C) - Repair Wall & Floor Refractory in W. Superheater under H_2S Burner Lower
(D) - Remove Refractory in/Half E. Wall Zone 4-TCC Treater
(E) - Remove Refractory on Entire East Wall Zone 1-TCC Treater Kiln
(F) - Rpr Refractory in E. Wall of Plenum Chamber-TCC Ttr
(G) - Remove & Rpr Refractory from N. Wall of E. Side of Zone 8-TCC Ttr Kiln
(H) - Do Neces. Work on U-20

1954

UNION OIL COMPANY (contd.)

8101 (contd.)

(I) - Rpr TCC Ttr. Htr. & Refractory Lining in Flue & Stack
(J) - Remove & Replace Damaged Refractory in Lower S. Wall of W. Side, Zone 3, TCC Ttr Kiln
(K) - Install Acid-Proof Cement in Six Buell Cyclones
(L) - Rpr Refractory Lining in Zone 7, E. Wall, TCC Ttr Kiln
(M) - Rpr Refractory Lining in Zone 6, E. Side N. Wall, TCC Ttr Kiln
(N) - Rpr Refractory in Kiln, Zone 6, Top of West Wall
(O) - Rpr Refractory Lining in Zone 3, N. end of W. Wall TCC Ttr Kiln
(P) - Check Skirts on F-1 Vessel at Unit 101 Area-Unit 91
(Q) - Inspect Skirts on Vessels F-14 & F-17 in Unit 101
(R) - Apply Acid-proof Cement Lining - Reactor Riser Line
(S) - Line Distributors with Fiberized Cement in FCC Reactors
(T) - Rpr Refrac. Lining in Flue & Stack B201 & B202 Htrs.
(U) - Remove Brick to Replace T.W. on B201 & B202 Htrs.
(V) - Repair Fire Stops at P.H. #1
(W) - Remove Refractory from Bottom of B.D. Stack-TCC
(X) - Repair Fire Stop in Pipe Trench-N.E. of Pump House #2
(Y) - Repair Neces. Refrac. Lining in Peabody Heater-FCC
(Z) - Replace Sect. of 3" Propane Loading Line

8113 - Wilmington - Repair Fire Stop on C St. South of Tank 71
(A) - Repair Fire Stop at E-W Pipe Trench S.E. of Unit 86
(B) - Repair Two Fire Stops near Tanks 205 & 206
(C) - Repair Two Fire Stops on C St. & Rds. 11
(D) - Remove Refrac. from DD-601 Regenerator to Install New Nipple
(E) - Install Fire Stop in Pipe Trench Leading to Blr Plant #1
(F) - Rpr Regen Refractory - U-152
(G) - Rpr Acid-proof Cement Lining in Reactor Standpipe
(H) - Rpr Acid-proof Cement Lining in Reactor Line
(I) - Rpr Broken Brk Treads in Stairway over Fire Wall
(J) - Install Brick Fire Stops & Steel Stile
(K) - Provide a Door between Offices7&8-Personnel Bldg.
(L) - Rpr Fire Stops in Pipe Trenches on C St.
(M) - Boiler #8 Brickwork Repairs - Plant #1
(N) - Remove Burner Wall on #3 Boiler - Plant #2
(O) - Repair Support Skirt of F-13 Odor Abatement U-101 Vessel
(P) - Repair Lining & Refractory In B-101 Htr after Repairs are Made
(Q) - Repair Brickwork on Boiler #3, Plant #2

(contd.)

UNION OIL COMPANY (CONTD.)

8113-(contd.)
(R) - Safety Meeting
(S) - Seal Pipe Trench on West Side of BP#1
(T) - Repair Fire Stops in Pipe Trenches on D St.
(U) - Briwrk Rprs in B-3A Hts & Plenum Chamber
(V) - Install Wire in Header Compartments of LGO Heater
(W) - Install Wire in Header Compartments of LGO Heater
(X) - Repair Refractory In Header Compartment of Ref.Htr.
(Y) - Remove Old Refractory to be Repaired in B-3A Htr. Header Boxes
(Z) - Remove Old Refractory to be Repaired in B-2A Conv. Section

8115 - See Southwest Welding & Manufacturing Co.
The Ralph M. Parsons Company
Alhambra
Line Two Reactor Vessels in Your Shop

8150 - Wilmington - Repair Refractory In Header Compartment of Visbreaker Htr.
(A) - Repair Fireproofing on Columns West of E-255
(B) - Replace Brkwrk in B1a Heater
(C) - Replace Brkwrk in B1b Vac. Htr - Unit #33
(D) - Rpr all Brkwrk in B1a Crude Htr & Lining in Htr. Flue and Stack
(E) - Rpr all Brkwrk in B1b Crude Htr & Lining in Htr. Flue & Stack
(F) - Rpr Breeching Linings B1a Htr Stack
(G) - Rpr End Tubes at Asphalt Still #58
(H) - Rpr Brkwrk on Sewer Box #9, Provide Metal Cover & 1" Coupling
(I) - Repair Sewer Box #8
(J) - Repair Sewer Box #19
(K) - Rpr Brkwrk on Base of D-11 Tower
(L) - Install Two Red-brickWalls for Fire Stops in E-W Trench So. of U-91
(M) - Install Brick Trench Fire Block at N.E. cor. of Rd 12 and F St.
(N) - Remove Burner Wall above Burner Tile-B1r#5,Plant#1
(O) - Remove to Salvage the Old Tk. 256 Diesol LR Line
(P) - Repair Plenum Chamber & Radiant Section of B-2B Htr
(Q) - Remove Fireproofing Brick on Support Skirt of D7B Tower
(R) - Renew Refractory in Roof Tube Heater Compartment of B-2B Htr.
(S) - Rpr Brkwrk on #5 Boiler
(T) - Rpr Brk Fire Wall at North Side of B Street
(U) - Inspect Skirts on Vessels-Unit #91
(V) - Remove Brk Insul & Inspect Vessel Bases-U-110A
(W) - Inspect Skirts on D-1 & D-2 Towers
(X) - Remove Obsolete Line at U-20 (Seal in FCC Regen
(Y) - Install Steel Ring & Patch Mono. Insul above Grid

(Z) Rpr FCC T/A, U-152

UNION OIL COMPANY (contd.)

8180 - Wilmington - Open, Decoke and Inspect U-86 Heater, B-101
(A) - Remove Abandoned Pump Base in Acid Area of Water Heating Plant
(B) - Reinsulate around Blasting Steam Nozzle in Reactor Line
(C) - Repair Refractory in Unit 20 Htr.
(D) - Rpr Brkwrk on Boilers #3 & #4
(E) - Insulate Two Spools in 750# Steam Line to U-33
(F) - Nec. Work to Test Skirts on D-2, D-6, & D-7 Towers at U-91
(G) - Nec. Work to Test Skirt on D-3 Tower at U-110A
(H) - Rpr Steam Leaks on Suction Lines of Asphalt Stills
(I) - Remove Brk Wall, etc. (D-1 Htr. Disch. to D-1 Tower)
(J) - Rpr Brk Treadin Stairway - Blk 33 & D St.
(K) - Rpr 1" Steam Line at Tanks 261-262, Unit 110-A
(L) - Relocate A6 Line into New Berth
(M) - Replace Acid-proof Brick around Dump #1635 at Water Treating Plant
(N) - Replace Tube Baffle Tile in D-1 Htr
(O) - Rpr Firewalls Removed for Replacement of Line P-88
(P) - Rpr Brk Firewall between Pump 42 & 197 at P.H. #1
(Q) - Remove Bricks from Waste Gas Burners and to Repair Furn Floor Refractory in area Unit 27
(R) - Remove to Salvage the Old 2" Ammonia Emp-off Line
(S) - Remove to Salvage the Old 10U-84 Feed Line on Rd.8
(T) - Remove to Salvage 3" Line
(U) - Remove to Salvage 3" U-135 Caustic Circ. Line
(V) - Install Ceramic Tile on Floor & Wall at Drinking Fountain
(W) - Rpr Refractories on Cone in B1 Htr - Unit #27
(X) - Replace Refractory Packing on B1Htr Burners-Unit #25
(Y) - Replace Refractory Packing on B-101 Htr Burners
(Z) - Cut and Prepare Material for Zone 16 of TCC Crk Kiln

8186 - See The Fluor Corporation, Ltd. - Oleum, Calif. Design Waste-Gas Incinerator and Stack

8202 - **See The Ralph M. Parsons Company Wilmington Fire Proofing Vessel**

8216 - Wilmington - Remove Old Refrac. from Lower Section of W. Wall Zone 1 of Crk. kiln, to be Repaired
(A) - Repair Flue-Gas Leaks on Treater Kiln -U-151
(B) - Repair Brickwork in Fireboxes, Plenum Chambers, Htr. Flue & Stack - TCC Crk
(C) - Pack Leaks around Steam Coil Outlets, Fit Ends of Header Compartments Zones 5 thru 10, Crk. Kiln

UNION OIL COMPANY (contd.)

8216 - (contd.)
(D) - Obsolete Line Removal, Agit 1 & 2 to 3
(E) - Repair Base of Pump 768 - U-110A
(F) - Repair Base of Pump 633 - U-110A
(G) - Disconnect Lines of P-1135 at PH#1
(H) - Repair Leak in (A12) Line opposite U-91
(I) - Remove to Salvage Suction Manifold to Former Pumps 444-445 at PH#1
(J) - Install Connection bet. U-86 Feed Line & 12" Agit. Line at PH #1
(K) - Repair BB-101 Trt. Kiln Refractory - U-151
(L) - Drill Holes in Refractory in TCC Kiln Hoppers for Thermocouplings
(M) - Repair Brickwork in Trt. Htr. - TCC
(N) - Remove Refrac Insul. to Replace Flue Gas Collector Headers in Zone 8 - TCC Trt.
(O) - Repair S. Wall Refrac. in TCC Trt.
(P) - Insulate Header Boxes - TCC Kiln
(Q) - Remove to Salvage all Dead Piping & Fittings in E-W Trench, Tk. 12 to 136
(R) - Remove to Salvage all Dead Piping & Fittings in E-W Trench, Tk. 11 to 134
(S) - Repair Brkwrk around Gas Burners in Boiler #4
(T) - Place Scaff. at Htr. D-6 at U-91, Place Temp. Light & Clean up Brick
(U) - Install Door in North Wall of Control House of Unit 137
(V) - Remove Brkwrk in D5 and D6 Htrs. for Tube Inspection - U-91
(W) - Replace 1½" Mercaptan Line - Read 10 to F-13 Unit 110-A
(X) - Rpr Damage to D6 Htr. at U-91 Caused by Fire
(Y) - Rpr Roof on Breeching on D5 & D6 Flue to Stack & Damper - U-91
(Z) - Rpr Eyebolts & Brkwrk in Plenum Chamber of B3A Htr and B2A Htr

8240 - Wilmington - **Renew Section of 3" LPD Prod. Line Unit-20**

(A) - Replace Tube Baffle Tile in HGO Htr, Unit 33A
(B) - Replace Tube Baffle Tile in B-1B Htr, Un 33 Crude
(C) - Install New Fire Stop & Remove Existing Brick Wall for Drainage
(D) - Install Improved Fire Stop
(E) - Install New Fire Stop - D St.
(F) - Install Improved Fire Stop & Relocate Walkway
(G) - Replace Refractory Lining in B-103 Incinerator Stack - U--138 Sulphur Plant

UNION OIL COMPANY (contd.)

8240 - (contd.).
(H) - Brick up & Plaster Holes in D-2 @ U--101 Tower Skirt Fireproofing Paint Lines near D-2 & V-1.
(I) - Replace Refractory Lining in B--101 - Unit 86
(J) - Rebrick Area after Old Pump Base is Removed-LAR1682
(K) - Repair LPD Rundown Line E. of Control House U-20
(L) - Install Refractory in Holding Ring of B-101-Unit#138
(M) - Repair Damaged Ref. in B-101 Htr at Unit #138
(N) - Replace Refractory Hold Ring in Aux Burner D-102
(O) - Remove & Replace Brick & Haul Material to BB Steam Superheater - Unit 33, "B" Crkg.
(P) - Replace Old Jacketed Line with Traced Line - D St.
(Q) - Repair 2" Fire Water Line to Lab. Bldg.
(R) - Install Door in S. Wall of U-25, -26, -27 Control House
(S) - Replace Section of Leaky Line on Press. Tap Line from H.P. Steam Drum to Control House
(T) - Repair Eyebolts & Brickwork in B-3B Heater
(U) - Remove Old Ref. from Header Compartments in B-3B Htr and Install Wire
(V) - Remove Old Ref. from Header Compartments in B-2B Htr
(W) - Repair Refractory on B-3B Heater Floor
(X) - Replace Brick in Walls of FH #1 & Pipe Trench
(Y) - Rpr Fire Wall in East-West Pipe Trench
(Z) - Renew 24" Suction Line

8270 - See Burke & Reynolds Construction Co. Wilmington - Repair Fire Wall

8271 - Wilmington - Repair Brickwork on #5 Blr, Plant #2
(A) - Repair Fire Stops - P. H. #1
(B) - Replace Brick & Repr Refrac Lining in Reversion Htr Stack & Flue
(C) - Rpr Refrac on Doors & Header Boxes-B-2 Reversion Htr
(D) - Rpr Brickwork in B-2 Reversion Htr, Unit #20
(F) - Replace Refrac inside of Tube Sheet, Unit 91 Heater
(E) - Replace Brick at Spool P34S, Unit #20
(G) - Install an Improved Fire Stop
(H) - Remove & Replace Baffle Tile for Tube Inspection
(I) - Remove Loose & Burned Brick from Burner Arches
(J) - Remove Baffle Tile from #7 Boiler - Plant #1
(K) - Remove Brick Skirt on F-3 Vessel
(L) - Remove Bricks for Insp. of Line P-32
(M) - Shape & Renew Furnace Floor in Blr #7, B.P. #1
(N) - Rebuild G2 Pump Base & Seal around Classifier Floor

UNION OIL COMPANY (contd.)

8271 - (contd.)
(O) - Replace Acid Brick Paving around G3 Pumps & Fuller Airveyor Equipment
(P) - Rpr Acid Brick Cover Below Centrifuge Dryer #1933
(Q) - Remove Baffle Tile on D-3 Heater for Tube Cleaning
(R) - Rpr Fuller Airveyor Blower Acid Brick Base -U-137
(S) - Replace Baffle Tile in Boiler #4 At Plant #1
(T) - Work per Subsequent Job Orders at U-135
(U) - Replace Line in Old Airblown Asphalt Rundown
(V) - Replace Target Wall after Insp. in D-3 Htr-U-91
(W) - Replace Broken & Deteriorated Tube Baffle Tile in D-3 Htr - U-91
(X) - Repair Fire Stops of P.H. #1
(Y) - Install an Improved Fire Stop
(Z) - Rpr Brick Wall around Acid Storage Tank-Feed Water Treaters

8290 - **See The Fluor Corporation, Ltd.**
Oleum - Fabricate One Hot-Gas Bypass Valve

8302 - Wilmington -Repair Tank No. 204
(A) - Install Improved Fire Stop on D. St. No. Side
(B) - Install Improved Fire Stop on D St. So. Side
(C) - Rpr Sewer Box at Base of D402 & Chck open Sewer Line
(D) - Remove to Salv. Tk. 74 LR Line At PH #1
(E) - Rpr Brkwrk on Fire Wall in E.W. Pipe Trench
(F) - Relocate 1" Flushing Oil Line to Exchanger #248
(G) - Remove Pipelines to Salvage - Block 33
(H) - Install Brk Veneer & Paint Steel on New Guard House
(I) - Brkwrk in Htrs & Radiant Tubes
(J) - E.W. Pipe Trench from Wall to Wall Tanks 51 to Tank 73
(K) - Remove to Salvage all Loose Piping in Blk 33
(L) - Remove to Salvage Tk. 34 LR Line, So of PH #1
(M) - Remove to Salv. Old 3" Stab. Line-Tank 277
(N) - Rpr Brkwrk on #6 Boiler
(O) - Close Openings in Fire Wall in E.-W. Pipe Trench between Towers
(P) - Rpr FDtn. & Accessory Drain Piping for Acid Sludge Pump LAR100
(Q) - Renew Sec. of 4" lit PD Line on So. side of B St.
(R) - Remove Dead Piping on C St.
(S) - Improve Drainage at G1 Pump Bases of U-137
(T) - Remove 2" Caustic Line in Agitator Area
(U) - Improve Drainage at G9, Pump Bases at U-137
(V) - Replace approx 275 ft. Line bet Pump House #1&Tk #57
(W) - Remove Dead Lines to Salvage on C St.
(X) - Repair Brick Wall on Line T21, Unit 20
(Y) - Replace 4" Piping in Tk. #243; & 6" Line with 6" on D St.
(Z) - Rpr Brkwrk at Gas Burners Blr #1, Plt. #2

8330 - Wilmington - Replace Bricks on Wall at Refinery
(A) - Remove to Salvage U-93 Feed Line - PH #1
(B) - Repair Fire Walls in Block #33
(C) - Rpr Eyebolts & other Brkwrk in B-2A Htr-U33 Crkg
(D) - Remove Old Brk & Rpr B1b Vac. Htr. Floor & South End Wall - Unit 33
(E) - Rpr all Brkwrk in B1b Crude Htr & Lining in Flue & Stack - Unit 33
(F) - Repair firestops along "C" Street
(G) - Rpr Plaster Wall - U135, Edel Plt.
(H) - Dismantle PH #3, Clear & Level Area; Oil & Gravel Surface at Rd. 9 and C St.
(I) - Install Bedplate & Frame for Acid P-1540 & Rpr Pump
(J) - Lay Acid Brk-U-137 Ammo Sulfate
(K) - Rpr Eyebolts & Other Brkwrk in B2B & B3B Htrs-U33
(L) - Renew Refract. on U&S Explosion Doors in Vis-breaker Htg. Sections -U33 "B" Crkg.
(M) - Rpr all Htr Brkwrk in B1a Crude Htr & Flue & Stack
(N) - Provide Overflow to Sewer at Top of Sump-Unit 137
(O) - Remove Pipeline - Blk #56
(P) - Repair Fire Stops in Pipe Trenches
(Q) - Minor Brkwrk Rprs to Boilers #1, & #2, BP #1
(R) - Install 1" Drain Line, S. Blow-down Area
(S) - Inspect & Rpr Steamout Lines to CLEF Htrs, B-201 & B201 at Unit 153
(T) - Replace Broken Burner Tile in B-101 Htr, U-25
(U) - Pack Voids in Brkwrk around Tube Guides; Replace Broken Burner Throat
(V) - Repair Brickwork on B-1 Htr
(W) - Replace Wall Removed for Pipe Installation
(X) - Remove Pipes to Salvage
(Y) - Rpr Lining in Reersion Htr, Flue & Stack; Rpr Tube Hanger Bolts & Replace Brk & Insul of Tube Sheets
(Z) - Rebrick Ckr Vaporizer Walls after Tube Supports are installed & Insulation of Tube Sheets

8343 - Wilmington-Construct One Fume Burner & Stack

8381 - Wilmington - Install an Improved Fire Stop
(A) - Install an Improved Fire Stop
(B) - Remove Ref Lining From Zones 3, 4, & 7; Prepare for Welders
(C) - Rpr Brkwrk in Fireboxes, Plenum Chambers; Htr Flue & Stack, Unit 151
(D) - Install Thermowell & Coupling in Cracker of E.&W. Vaporizer-TCC
(E) - Rpr Refractory in Crk Superheater
(F) - Remove & Rpr Refract in Zone 10 of BB-1 Kiln
(G) - Repair BB-1 Refractory - TCC Crk
(H) - Replace Refrac in Cover Boxes, Zones 1, 2, 3, 5, 7, 8

UNION OIL COMPANY OF CALIFORNIA (contd.)

(I) - Relocate Fire Blk. Valve & Replace Short Sec. of Line, PH #1
(J) - Rpr Brkwrk & Steel Cover on Sewer Box 120
(K) - Install an Improved Fire Stop "E" St.
(L) - Remove & Replace Brkwrk to Replace upper SW & NW Soot Blower Element on Blr #8, Plt #1
(M) - Drill Holes or Remove Refractory for Installing Thermocouples in E. & W. Vaporizers - U-151
(N) -
(O) - Rpr Refrac in BB-101, Zones1, 3, 5, 7-U-151 TCC
(P) - Rpr Refrac Lining in Treater Htr, Flue & Stack; Fireboxes & Plenum Chambers U-151
(Q) - Rpr Broken East Wall Arch, Blr #8, Plant #1
(R) - Rpr Refrac in BB-101 Kiln - TCC Treater
(S) - Regunite Furnascotton Target Wall; & Remove Burner Wall; Blr #2, Plt #2
(T) - Replace Al2 Line at Tank 280 by U-86
(U) - Apply Insulating Mat to Reactor Riser Lateral
(V) - Install Cement Lining Two Catalyst Nozzle Sleeve Liners - U-152, FCC
(W) - Repair #2 Boiler in Boiler Plant #2
(X) - Rpr Brk Firewalls in Pipe Trench on "F" St.
(Y) - Drill Holes for 1½" Couplings for Thermowells in B-1 Htr & B-2 Fume Burner & for Electrodes in Htr
(Z) - Apply Insulation to First Half of Reactor Riser Y Line - U-152 TCC

8432 - Wilmington - Reline 4 Sec. Reactor Line at F.C.C.
(A) - Haul Mat & Equip; & Apply Litecrete around Shell of BB-601 Regen - U152, FCC
(B) - Plug off Pipe Sleeves Blr 65 & 66, Rd. 12
(C) - Rpr Lining in Peabody Htr - U-152, FCC
(D) - Apply Refrac to Distributor Heads in FCC Reactor
(E) - Rpr Acid-proof Cement at Welded Joint of Reactor Riser Lateral
(F) - Rpr Damaged Refrac in Reactor Riser Line P666
(G) - Install Raised Floor with Tile Cover-Toilet at U-1
(H) - Replace Leaking Steam Line with Steam Traced Line
(I) - Rpr Fire Stops throughout Refinery
(J) - Rpr 1½" Slops Line - Unit 33 "A" Cracker
(K) - Remove to Salvage 3" C-1 Pipe Line - PH #1
(L) - Patch up Several Holes in Brick Wall - PH #1
(M) - Enlarge Machine Shop Office
(N) - Repair Fire Wall, 8th and "E" St.
(O) - Plug off Two Pipe Sleeves on "D" St. to Tank Blk53
(P) - Rpr Brkwrk on Blr #3, Plant #2

UNION OIL COMPANY OF CALIFORNIA (contd.)

8432 - (contd.)
(Q) - Remove Tube Baffle Tile & Old Roof - Spray Insulation to Renew Roof Refractory in B1b Htr
(R) - Relocate the Fire Block Valve @ P.H. #1
(S) - Rprs to B-2A and B-3A Plenum Chambers & Heaters
(T) - Replace Pipeline, "D" St., Res. 11
(U) - Replace Pipeline, Res. 11 & "D" St.
(V) - Replace 6" Steam Drips Line on "C" St.
(W) - Remove Section of Brick Wall - U-33
(X) - Renew Floor in B1a E&W Crude Heater Firebores
(Y) - Fire Wall Repairs in Trench on "C" Street
(Z) - Repair Fire Blocks in Fire Trenches throughout Refinery

8436 - See The Fluor Corporation, Ltd.. Wilmington - Labor only to Install Refractories and Insulation in One (1) Petro-Chem Heater #B4

8485 - Wilmington - **Remove 4" Spool, Open on both Ends "F" St. at Res. 11**
(A) - Clean & Re-lay Floor Brick in LGO Soaking Sec.
(B) - Brkwrk Rprs in B-2B & B-3B Heaters
(C) - Remove Old Brk & Rebrick Lower N. End Wall in Ref. Soaking Section
(D) - Clean Gas Burner #32, B1AE Crude Htr So. Side, Unit 3
(E) - Repair the Blk. 63, 12" Line - PH #1 to 12th St.
(F) - Repair O-12 Line from PH #1 to Rd. 12
(G) - Rpr Brk Wall at Driveways East of Control Room
(H) - Repair Brickwork on #5 Boiler
(I) - Rpr Refrac Lining in Reversion Htr Stack & Flue
(J) - Repair all U-34 Heater Brickwork
(K) - Replace Brick on Skirt of D-101 S/C Accumulator
(L) - Remove to Salvage 3" Lines from Old Asphalt Stills, 10th and "D" Sts., P. H. #1
(M) - Remove and Replace Refrac Neces to Install New Hangers in B-101 Htr
(N) - Remove to Salvage Blown Line, "D" St.-Rd 3 to Rd 10
(O) - Remove to Salvage Old Air Blown Line from P.H. #1
(P) - Relocate the 3" OAB Line - P. H. #1
(Q) - Remove Feed Line to Salvage - Rd 10 Asphalt Stills
(R) - Remove Piping to Salvage - Res. 9 @ Blk 33
(S) - Work to Drill Tubes & Replace as Neces in Steam Superheater at Unit #33
(T) - Unit #138 - Isolate, Check & Test First Stage conv. and Second Stage Condenser; Replace 16" Line between the Two Vessels at U #137

(contd.)

8485 - (contd.)
(U) - Replace 3" Spool-Welded Flanges-Es North of P.H.#1
(V) - Plug up Air Leaks in #1 and #2 Heaters at U #67
(W) - Replace & Relocate "D" St. Section of the 4" Kero Line
(X) - Repair Leak in #2 Heater Coil at U#67
(Y) - Inspect & Repair as neces. Burner Refractory Cones, B-101 Htr, U-25
(Z) - Repair as neces. Burner Refractory Cones, B-201 Heater

8555 - Wilmington - Brickwork as required in D-5 and D-6 Htrs. - Unit 91
(A) - Rpr Burner Refractory Cones, B-1 Htrs, U-27
(B) - Remove to Salvage P. 231 & all Manifold Piping Remove Pump Base, PH #1
(C) - Remove to Salvage P.50 and all Manifold Piping Remove Pump Base, PH #1
(D) - Remove to Salvage P.197 and all Manifold Piping Remove Pump Base, PH #1
(E) - Replace Suction & Discharge Lines with Salvaged Jet Line, Agitator on Pump 690
(F) - Unplug Sewer Line Running under Sludge Acid Pumps at Unit 86
(G) - Remove & Re-lay Floor Brick in E. Firebox of Superheater at TCC Cracker, U-151
(H) - Rpr Minor Brickwork in Blrs. 3 & 4, Plant #1
(I) - Rpr Brickwork in Fireboxes & Plenum Chambers; Linings in Htr Flue & Stack TCC Cracker
(J) - Rpr Refractory in Zones 1,5,6, & 9-Unit 151
(K) - Re-lay Floor in N. End of E. Evaporator after Rprs
(L) - Rpr Brkwrk in Airline Burner - TCC Cracker
(M) - Rpr Brkwrk Damaged in Repairing Coils A,B,C, & D in Zone 10 Crkr Kiln
(N) - Rpr Insul at Header Boxes, Zones 1 thru 10K
(O) - Replace Neces Tubes in Htr C Asph L.R. & Repair Valve
(P) - Repair Pump Base - Pump #637 at Agits
(Q) - Install Refrac in Kiln Zones 2,4,6,8, & 9
(R) - Replace 2" Acid Line between "F" St. & East Side of U-135
(S) - Repair Refrac Lining in Trtr Htr Flue & Stack
(T) - Remove & Relay Strip of Flooring at N End of E. & W. Vaporizers - TCC Trtr
(U) - Relay Floor in E. & W. Superheater Fireboxes Make Access for Inspection of So. Hearth Plates & Floor Supports in W. Superheater

(contd.)

UNION OIL COMPANY OF CALIFORNIA (contd.)

8555 - (contd.)
(V) - Repair Bulged North End Wall & End Plate on W. Superheater - TCC Trtr
(W) - Insulate Steam Line at New Spent Plumbite Facilities
(X) - Relocate the 76 L.R. Line to Tk. 52 in Block 33
(Y) - Relocate the 75 L.R. Line to Tk. 51 in Block 33
(Z) - Install 2" Drain Line to N. Blowdown Line, Rd 10& DSt

8584 - Wilmington --Remove Baffle Tile from Blr #7, Plant #1
(A) - Isolate Fuel Gas Line from Asphalt Stills & Replace approx. 70 ft.
(B) - Rpr Mercaptan Line Leak at Rd. 10 Trench -U110D
(C) - Clean Instruments, Lines & Paneling, Unit 33 B Crude
(D) - Rpr Brk Firewall in Tench E. of Control House
(E) - Rpr Eyebolts; & Brkwrk in B-3A Plenum Chamber & Radiant Sec. U-33 "A$\frac{1}{4}$ Crkg.
(F) - Remove Old Brk from Ledge to Floor of HGO Soaking Sec.
(G) - Brick in Pipe Culvert at Road "B" & Block 21 Manifold
(H) - Remove Obsolete Butane Line - Unit 33 Crude
(I) - Replace 4" Kero Line with Welded Salvage Line
(J) - Rpr Base of Pump #638 in Lower Agitator Area
(K) - Pave with Acid Brick under F9 and Against Control House - U-137
(L) - Repair Brickwork in #4 Boiler, BP #2
(M) - Brkwrk Rprs. in B-2B & B-3B Htrs. - U-33 "B" Crkg.
(N) - Install 3 rows of Bricks in "B" HGO Htr.-U-33 Crkg.
(O) - Replace Sec. of 6" Cond. Line - Rd 10 & D St.
(P) - Replace 4" Tee on Condensate Line
(Q) - Prepare Firestop for Replacing P-71 Line
(R) - Salvage Old Fuel Gas Line from #1 Blr. Plt. to Asphalt Still; & Trench Line
(S) - Replace Insul. Block as Required, B-1 Htr.
(T) - Brickwork Repairs in Rev. Htr. Flue & Stack
(U) - Restack 2 rows of Brick in Poly Htr. B-1, U-20
(V) - Remove Baffle Tile from Both Heaters -u-67; Repair Heater Tube Tile
(W) - Repair Cracks in Walls of #1 & #2 Heaters
(X) - Replace Toilet Flushing Facility in Men's Lavatory
(Y) - Rpr. Internal Leak & Inspect Tubes in Blr. at B.P. #1
(Z) - Inspect & Rpr. as needed Pipe Trench Fire Blocks throughout Refinery

(contd.)

UNION OIL COMPANY OF CALIFORNIA (contd.)

8650 - Wilmington - Rebrick Fire Stop, D St. Pipe Trench
(A) - Remove to Salvage Pump 1135 & Manifold Piping
(B) - Make Minor Brkwrk. Repairs in Blr. #5, BP #2
(C) - Repairs on Foundation of Acid Pump #2004, BP #1
(D) - Repair Plaster in Office at U-135, Ed Plant
(E) - Replace Brick in Fire Wall, Alkylation U-110A
(F) - Remove to Salvage Dead U33-D1 - #2 SC Line on Rd.8
(G) - Make Roof Repairs at Boiler #6, Plant #1
(H) - Minor Brickwork Repairs on Boiler #6, Plant #1
(I) - Replace Firewall Brick, Rd. 3 & "D"
(J) - Install Acid Brick North of Sump, U-137
(K) - Install Brk. Firebreaks in Feed Line Trenches to B1A & B1B Htrs, Unit 33 Crude
(L) - Rpr. Cement Paving at So. Side of Acid Pump #635
(M) - Install a Skin Tube Coupling on Tube in Heater B1
(N) - Rpr. Brickwork at Gas Burners of Blr. #1, Plt. #2
(O) - Provide 24x24" Sewer Box at Unit 86
(P) - Remove for Salvage Old D-1 & D-3 Fuel Gas Lines, Valves & Instruments, & U-91
(Q) - Remove to Salvage Old 54 6" P.H. Line from P.H. 1
(R) - Modernize & Re-route 6" Slops Line around Block 33
(S) - Repair Spalled Lintels - Unit 33
(T) - Re-lay Brick Floor in HGO Heating Sec., Unit 33
(U) - Repair Brkwrk. in B-2A and B-3A Heaters, Unit 33
(V) - Repair Spalled Lintel and Refractory Lining, Unit33
(W) - Repair Refrac. Lining in Stack and Flue of B-2A and B-3A Heaters - U-33
(X) - Repair Refrac. Lining in B-1B Heater Flue, stack and Plenum
(Y) - Relay Three (3) Floors and Replace Two (2) Lintels
(Z) - Remove to Salvate 12" G.R. Line, P.H. 1

8658 - See John Zink Company
Wilmington - Supply Materials only for Air Heater Lining

8704 - Wilmington - Modernize Pipeline, P.H.#1, Res. 11
(A) - Relocate Pipeline from U-67 to U-91; 10th & D St.
(B) - Construct Relocated Firestop and Catch Basis Red. 12 & E St.
(C) - Remove Insul. to Magnaflux Longitudinal Joints & Steam Drum Heads on Blrs 1 and 2
(D) - Boilers #1 & #2 - Minor Brickwork Repairs - BP1
(E) - Brickwork Repairs in B-2B and B-3B Heaters U-33, "B" crkg.
(F) - Stack & Flue Lining Repairs in B-2B Htrs - U-33
(G) - Replace Depreciated 3" Sludge Line & Reroute

(contd.)

UNION OIL COMPANY OF CALIFORNIA (contd.)

8704 - (contd.)
(H) - Training on Fire Fighting
(I) - Fabricate and Install 3" Steam Traced Line at Asphalt Loading Rack
(J) - Reline Explosion Door, U-33
(K) - Reline Door on Roof Tube Header Compartment, HGO Soaking Sec., U-33
(L) - Repair Refrac. Lining in B-1A Heater Flue and Stack; & Plenum Tile - U-33
(M) - Re-lay Brick Floor in B-1A Vac. Coil Firebox, U-33
(N) - Repair Brick Wall & Steel Post Damaged by Truck
(O) - Fill Hole in Wall and Floor of Elec. Room in Agitator Area, Unit 84
(P) - Make Provision for Installation of Flue Gas Analyzer on B-1 & B-101 Htrs. U-25 & 27
(Q) - Replace Tile in Burner & Refrac. in Burner Rings of B-101 Htr.
(R) - Inspect & Repair Fire Stops in Pipe Trenches throughout Refinery
(S) - Install Refrac. in B-1 Htr. Burner Rings
(T) - Repair Sink Leak in Wash Room - U-86
(U) - Rebrick Fire Stop N.W. Corner P.H. #1
(V) - Salvage 20# Air Vessel, Reducing Valve, & Piping from Air Compressor Plant
(W) - Repair Ceilings in Electric Control and Locker Rooms
(X) - Repair Fire Walls on C Street
(Y) - Drill Holes in U-26
(Z) - Rpr. Refrac. Packing around Burners of B-201 Htr.

8723 - See The Stearns-Roger Manufacturing Co.
Grand Valley, Colorado - Shale Oil Plant
Design and Construct One (1) Waste Gas Incinerator

8742 - Wilmington - Repair Drain on Concentrated Acid Pump #1635
(A) - Remove Bad Refractory & Rpr. in Zones 1, 2, 3, 4 & 6 of U-151 Treater
(B) - Rpr. Lining in Trt. Htr. Flue & Stack - U151 Treater
(C) - Remove & Replace Lining for Flue on W. Side Trt. Htrs
(D) - Remove & Replace Nec. Refrac. from D-101 Htr. to Install New Hangers
(E) - Repair Refrac. in Top of Zones 4 & 6
(F) - Replace Broken T-bar Support Brackets in Zones 3 & 4; Rechink bottom of Zone 10
(G) - Repair Refractory in Zone 7
(H) - Repair Brickwork in Boiler #8
(I) - Repair First Pass of Brickwork in Gass Passage, Blr. #8, Plant #1

(contd.)

UNION OIL CO. OF CALIFORNIA (contd.)

8742 - (contd.)
(J) - Repair Insulation on doors of Zone 7
(K) - Repair Refrac. after Tube Replacement in Zone 10
(L) - Baffle Repairs in First Pass of Boiler #8
(M) - Repair Walls, R.E.I. Misc.
(N) - Kiln Repairs, Zone 10
(O) - Repair Refrac. in Htr. Flue & Stack; Fireboxes & Plenum Chambers
(P) - Remove Damaged Refrac. & Repair in Zones 2,4, 5, 7, 8, & 9 of TCC Crkr Kiln
(Q) - Replace 40 Tubes in Crk. Kiln
(R) - Repair Top of Zone #8 Crk. Kiln
(S) - Repair Refractories on Doors of Crk. Kiln
(T) - Repair Refrac. Damaged While Installing New Tube Sheets in Kiln, Zone 9
(U) - Remove to Salvage Old U26 Resid. Prod. Line
(V) - Plug off Line Sleeves thru No. End of Tank
(W) - Repair Refractories in B-201 & B-202 Heaters
(X) - Repair Refrac. in Cone Section of Regenerator
(Y) - Remove Lining & Deliver Mat. for Plenum Chamber Repair in Regenerator
(Z) - Patch Inside of Incinerator Shell

8788 - Wilmington - Rpr. Refrac. of Aux. H2S Furnace, B-102; and in B-101 Steam Generator, H2S Furnace
(A) - Rpr. Refrac. Lining in Peabody Heater
(B) - Rpr. Refrac. on Cat. Riser Line P-666 & Cat. Outlet Line P-664
(C) - Install Acid Resistant Refrac. in Reactor Catalyst Outlet Nozzle
(D) - Rpr. Refrac. Where Nozzles were Renewedin Line P-665
(E) - Replace Insulation Inside of N. Head Area of H2S Furnace
(F) - Repair Refrac. in H2S Furnace
(G) - Replace Refrac. in Reactor Riser Line
(H) - Install Fireproofing on Skirt Section of D-701 Tur.
(I) - Fireproof Legs on Aluminum Pot, D-402 System
(J) - Repair Wall Tile in Cont. Rm. of U-110 B
(K) - Rpr. Fire Stops in Pipe Trenches throughout Refin.
(L) - Rpr. #2 Blr. Brkwrk. at Gas Burners
(M) - Remove & Replace Brick for Tube Removal Blr. #2
(N) - Relocate Drinking Fountain at Blacksmith Shop
(O) - Install 3" Caustic Line, Agit. Area
(P) - Blank #3 Blr. at #2 Blr. Plant; Clean Scale on Water Sides & Internal Fitting
(Q) - Unplug and Rpr. Sewer at Sludge Pumps 1688-1689
(R) - Relocate the Trench Drain and Fire Stop,9th & C St

(contd.)

UNION OIL COMPANY OF CALIFORNIA (contd.)

8788 - (contd.)
(S) - Remove & Replace Brkwrk. to Install Supports Under D-6A and D-7A TWR Unit #33
(T) - Install Reinforcing Wire on one Support Under Visbreaker Htr. to be Covered with Gunite under B2A Conv. Sec. (4 supports)
(U) - Rpr. Eyebolts & Brkwrk in B2A Htr. on Plenum Chamber
(V) - Rpr. Refractory Lining in Stack & Flue of B3A Htrs.
(W) - Rpr. Refrac. Lining in Htr., Flue & Stack
(X) - Relocate & Rpr. A8 Line, 7th & C St.
(Y) - Repair Heater at Asphalt Loading Rack
(Z) - Install Brick Wall at Asphalt Loading Rack

8795 - See C. R. Butterfield Company

8838 - See C. C. Moore & Co. Engineers

(I) - Make Opening in East Wall for Passageway at Unit135
(J) - Repair Leaks around Coil Inlets & Outlets on Trt. Kiln, 4th floor, at U-151
(K) - Reinforce Ceiling & Paint Office at U-135
(L) - Repair Minor Brkwrk in Blr. #3 and #4
(M) - Repairs to East & West Superheaters, Crk. 151/153; D203, D-204
(N) - Repair Refractory in Convection Sec. Header Box
(O) - Remove & Replace Refrac. in Zones 3, 4, 6 - Crk. 151/153; D-203, D-204
(P) - Remove Baffle Tile from Boilers #3 & #4 in Boiler Plant
(Q) - Rpr. Brkwrk. in Fireboxes & Plenum Chambers, Crk. 151/153; D203, D204
(R) - Patch Holes in Brkwrk. in Crkr. Kiln-Crk.151/153; D-203, D-204
(S) - Repair Refrac. Lining in Crk. Kiln BBl-Crk. 151/153; D203, D204
(T) - Rpr. Refrac. around Header Boxes & Door Sheets, Zones 7 & 8; Crk. 151/153
(U) - Rpr. Refrac. around Tube Skin Couples in Crk. Htr. Crk 151/153
(V) - Rpr. Refrac. around Tube Skin Couples in Crk. Htr. Crk 151/153
(W) - Repair Floor Lining in E-10 Cooling Box, Crkr. #1
(X) - Blank, Open, Test Tubes on Asphalt Htr. at Asphalt Ldg. Rack.
(Y) - Rpr. Brkwrk. in Boiler #41, B.P. #2
(Z) - Replace Refrac. in Zones #2 and #6 of Kiln, Trt #151

(contd.)

UNION OIL CO. OF CALIFORNIA

8940 - Wilmington - Repair Brickwork in Fireboxes and Plenum Chambers; U-151 Trtr./TCC.

(A) - Patch Holes in Brikwork in Trt. Kiln -U-151
(B) - Rpr. Refrac. around Waste-gas Burner Sleeve in B-102 East Superheater
(C) - Rpr. Refrac. in Trtr. Kiln, U-151
(D) - Rpr. Refrac. around Tube Skin Couples in Trtr. Htr.
(E) - Rpr. Refrac. around Tube Skin Couples in Trtr. Htr.
(F) - Inspect & Rpr. Refrac. Lining in Flue of B2A Htr.
(G) - Misc. Repairs to B2A and B3A Htrs.
(H) - Move Baffle Tile to Allow Access to Soot Blower Bearings - Blr.
(I) - Repair Roof at Front of Boiler to Prevent Flue Gas Leakage, Blr. #7
(J) - Repair Flood Gate Control and Hole in Wall
(K) - Install Acid Brick Under South Side of F4-1
(L) - Remove and Repair Brick from Sleeves in Skirt of D9 Twr. for Nozzle Rpr.
(M) - Repair Tube Leaks at Junction Boxes at Asph. Loading Rack
(N) - Repairs in Control Room - Unit 110-A
(O) - Remove and Replace Refrac. Lining in B2B Header Box Compartment
(P) - Remove and Replace Refrac. in B3B Heater Header Box Compartments
(Q) - Misc. Repairs to B2B and B3B Heaters
(R) - Repair Refrac. Linings in Stack & Flue of B2B and B3
(S) - Repair Brickwork at Base of F2 and F4 Drums, Clean & Paint Brickwork 33-Crude
(T) - Replace Cast Iron Fittings and Valves in H.P. Water System
(U) - Repair Refrac. Lining in Rev. Htr. Stack and Flue
(V) -Remove Brick to Repair Line P-27 RerunReflux Drum Bolts
(W) - Repair Broken Brick in Bottom Stop of Stairs
(X) -.Repair Firestops, Refinery Wide.
(Y) - Brick up Holes in Fire Wall, Blk #22
(Z) - Remove Concrete to Insp. Line, Unit #82

9022 - Wilmington - Repair Brickwork around Gas Burners & Boiler Brickwork.

(A) - Repair Crack in Heater Fire Wall
(B) - Remove Brick Wall around Unit #67 & Rpr. Wall in Pipe Trench
(C) - Remove Brick Wall around Tks. 244, 269, 270, 274 at Unit 91
(D) - Repair Storm Drain Control Wall

(contd.)

UNION OIL CO. OF CALIFORNIA (contd.)

9022 - (contd.)
(E) - Minor Brickwork Repairs to Boiler #6
(F) - Relocate Hot Water Line in Control Room at Unit86
(G) - Reconnect #151 PA Line into PC-275 Blk. 24
(H) - Revise the Planning Office
(I) - Re-pave Area around Pump #597 with Acid Brick at Unit #110-A
(J) - Attend Safety Meeting
(K) - Repair Base of Pump #511
(L) - Salvage out old P.H. Line from Tanks 139-140
(M) - Install Two Improved Fire Stops at "C" St.
(O) - Remove & Repair Brickwork Removed to Install Supports on Lines in Crk. Area
(N) - Overhead B-1 Heater at Unit #114
(P) - Relocate Underground Sections of Water Lines at Asph. Loading Rach Walkway
(Q) - Brkwrk. & Eyebolt Repairs in B2A & B3A Htrs.
(R) - Rpr. Refrac. Lining Stack and Flue of B3A Htrs.
(S) - Brkwrk. Rprs. in Heater #33, B1B Crude
(T) - Install Welded Coil in Asphalt Loading Rach Htr.
(U) - Repair Heater at Asph. Rack as neces.
(V) - Brkwrk. Repairs to Blrs. #1 and #2
(W) - Install Acid-Proof Brick, Unit #137
(X) - Rpr. Ceiling near Grease Vent above Kitchen Grill, Unit #152FCC
(Y) - Brkwrk. Repairs in B2B and B3B Heaters
(Z) - Remove Damaged Refractory and Install Wire to Install Refractory on West Wall Tube Header Box North End of Reformer Htr.

Wilmington - Linings for Petrochem Heaters B-103 and B-201

9108 - Wilmington - Repair Refrac. Lining in Stack and Flue of B3B Htr., 33B Crkg.
(A) - Rpr. Plenum Tile & Brkwrk in Htrs; #33 B1A Crude
(B) - Repack all Header Packing Boxes on TCC Cracker Kiln
(C) - Repair Brick Wall on East Side of Road #10 at East-West Pipeway
(D) - Repair Brickwork at Gas Burners, Blr. #1

UNION OIL CO. OF CALIFORNIA

9108 - (contd.)
(E) - Repair Brickwork Boiler #1, B.P. #2
(F) - Repair Burner Tile in Unit #27
(G) - Repair Insulation of D1 Tower by Banding at U-110A
(H) - Install 4" to 6" Connection, Tks. 153 & 154 at U-91
(I) - Repair Pipe Trench Fire Stops Refinery Wide
(J) - Remove to Salvage the Old 6" Agit. Sludge
(K) - Chemically Clean Tubes #33-B Side, Unit #33
(L) - Regrout Top of Bricks, Base of Tower D-2-Unit #84
(M) - Salvage Out the Old Suction and Discharge Pump #278 Manifold - PH #1
(N) - Repair Brickwork, Boiler #8, BP #1
(O) - Replace Top Burner Throats as neces. & Brick at Stack Arches
(P) - Support Lines in "B" Cracking Area-U-33 Cracking
(Q) - Replace as neces. Sec. of 2" Condensate Return Line in Rd. 12
(R) - Install Press. Control Valve and Bypass in 4" Ind. Water Line to #2 B.P.
(S) - Install 3" Water Connections to #1 East and #3 Cooling Towers at U-91
(T) - Regrout Top of Bricks around the Base of F11 Air Receiver - Unit #84
(U) - Repair Tile in Corner at F.C.C. Board
(V) - Remove Section of Open-ended Pipe thru the Firestop at "F" St., & Repair Wall
(W) - Repair Portion of Brick Wall Removed to Open Section Line to Comp. 686
(X) - Repair Brickwork in Firebox of Boiler #4, B.P. #2
(Y) - Brick up Obsolete Sleeve Holes in Pipe Trench throughout Refinery
(Z) - Patch Firewall near Pumps G6 and G6S on Line P33 thru Wall

9165 - Wilmington - Replace Castable Refractory around Tubes at Floor Level of B-101 Htr., U-86
(A) - Repair Ref. at Replaced 2" Snuffing Steam Nozzle
(B) - Remove Samples of Lining in Reactor Riser Line Spoole - U-138; & Repair in Unit #152-FCC Install Acid-proof Cement Lining in Spare Sleeve Liners for the 36" Cat. Inlet Nozzles
(C) - Brick up Obsolete Sleeve Holes in Pipe Trenches throughout the Refinery
(D) - Repair Refrac. in B-101 Steam Generator H2S Furnace; and B-102 Aux. H2S Furnace
(E) - Repair brickwork around Gas Burners in Boiler #2
(F) - Insulate Inside Line P5 Swage at Aux. Burner

(contd.)

UNION OIL CO. OF CALIFORNIA (contd.)

9165 - (contd.)
(G) - Remove & Replace Brickwork for Removal of Tubes 13 & 14, Boiler #2, B.P. #2
(H) - Repair Regenerator BB-601 Refrac. as neces. Unit #152, FCC
(I) - Replace Acid-proof Cement Lining in Spare Reactor Riser Line
(J) - Install New Acid-proof Cement Lining in Reactor Riser Line Spools Line P-666
(K) - Replace Acid-proof Cement Lining in Catalyst Inlet Deflectors, U-152 153, & 154
(L) - Install Acid-proof Cement 38 in Flg. 54 Reactor Riser Line Charge Nozzle Units 152, 153, & 154
(M) -
(N) - Install Sections of Line to 2" Blowdown System - Unit #67

2149 - Reynolds Metals Company - Phoenix, Arizona
Design and supply temperature control system
for Aluminum Remelt Furnace

1962

2246 - Reynolds Metals Company - Phoenix, Arizona
Reline #4 Aluminum Furnace Stack

2265 - See C. C. Moore & Co. Engineers
Arizona Brewing Co. Inc - Phoenix, Arizona
Labor and material to repair Fire Box in
B & W FFB #24 Boiler Unit #2

General Aluminum & Chemical Corp
2505 - Phoenix, Arizona
Furnish Combustion Equipment

1963

2651 - Phoenix, Arizona
Reynolds Metals Co - Supply Combustion System
less Equipment returned.

2662 - Kircher Asbestos & Rubber Co Inc.
C. C. Moore & Co. Engrs.
Phelps Dodge Corporation
Douglas, Arizona
Labor and material to install refractories in
Two (2) B & W Waste Heat Boilers

2824 - Magma Copper Co - San Manuel, Arizona
Supply Coen Burner system for Copper
Reverb Furnace

1964

2977 MAGMA COPPER
San Manuel Division
San Manuel, Arizona
Design and construct Gas Reforming Plant

3089 THE RALPH M. PARSONS COMPANY
Duval Corporation
Mineral Park, Arizona
Labor only to install lining for 20' Skinner Roaster and 10' Skinner Dryer

3230 REYNOLDS METALS CO.
Phoenix, Arizona
Furnish North American combustion equipment

3285 RALPH M. PARSONS CO.
Phelps-Dodge Corporation
Morenci, Arizona
Install Refractory lining in gas ducts.

3328 STEARNS-ROGER CORPORATION (Denver)
Magna Copper Co.
San Manuel, Arizona
Supply Coen Burners

1965

3447 BABCOCK AND WILCOX CO.
Magna Copper Co.
San Manuel, Arizona
Supply Detrick Materials for two (2) B & W Waste Heat Boilers

3510 SOUTHWEST FOREST INDUSTRIES
Snowflake, Arizona
Refractory repairs to 8 ft. diameter lime Kiln.

3770 TWYMAN ENGINEERING CO.
Le Fleur Corp.
Phoenix, Arizona
Labor and material to install lining in tubular Helium heater.

3748 FOSTER-WHEELER CORP (Livingston, New Jersey)
Arizona Chemcopper
Bagdad, Arizona
Install acidproof materials in leach tanks and reduction storage tanks

1965 ARIZONA (Continued)

3833 W.F.H. SCHULTZ INC.
Arizona Chemcopper
Bagdad, Arizona
Unload material
(A) Const. reformer heater lining

1966

3861 FOSTER WHEELER CORP.
Arizona Chemcopper co.
Bagdad, Arizona
Labor only to construct control house.

3954 SPRECKELS SUGAR COMPANY
Tempe, Arizona
Furnish and install lining in vertical lime Kiln and furnish only lining for multi-hearth Kiln.

4000 ALLISON STEEL MFG. CO.
Rolling Mill Divn.
Phoenix, Arizona
Supply and install new lining in reheat furnace

4006 REYNOLDS METALS COMPANY
Phoenix, Arizona
Install Refractory and Insulation Materials, #1 Remelt Furnace

4116 PHELPS DODGE CORP
Morenci Smelter
Douglas, Arizona
Inspection and repair of roaster flue ductwork

4135 REYNOLDS METALS COMPANY
Phoenix, Arixona
Install refractory materials in #8 remelt furnace

4150 KAISER REFRACTORIES (Los Angeles)
Allison Steel
Tempe, Arizona
Rebuild side walls on reheat furnace

4255 REYNOLDS METALS CORP
Phoenix, Arizona
Labor only to reline #9 remelt furnace

4970 ALLISON STEEL
Helena, Arizona
Repairs to bullnose

5050 HOLMES AND NARVER
KENNECOTT COPPER CO
Hayden, Arizona
Furnish and install acid proof materials in contact sulphuric acid plant.

5353 WESTERN PRECIPITATION (LA)
KENNECOTT COPPER CORP°
Hayden, Arizona
Install acid brick in floor of lead lined tank.

5607 RALPH M PARSONS CO
ANACONDA COMPANY
Sahuarita, Arizona
Install lining in 12 cyclones and 5 peabody air heaters.

~~5672 ALLISON STEEL~~
~~Tempe, Arizona~~
~~Labor and Material to repair Billet heating furnace.~~
Cancelled
See Job 5731

5731 ALLISON STEEL
Phoenix, Arizona
Repair heheat furnace

5761 INSPIRATION CONSOLIDATED COPPER
Inspiration, Arizona
Supply engineering to design fired matte launder, preheat burner installation and air heater ductwork.
~~A Supply No. Amer. equip ofr reverb burner system.~~
Cancelled
See Job 5781

5781 INSPIRATION CONSOLIDATED COPPER CO
Inspiration, Ariz. Supply comb equipment for reverb furnace.
A Provide design of comb. system

5909 Inspiration Consolidated Copper 9/30
Miami, Arizona
Combustion system for fired matte launder

6685 Phelps-Dodge Corporation
Morence, Arizona
Supply 5 burners and installation design for #3 Reverb 1971

6726 Combustion Engineering
Power Services Department
Windsor, Conn.
Arizona Public Services Department-Red-Rock
Repairs to CE Boiler Damaged by explosion

6861 Arizona Portland Cement
Rillito, Arizona
Design and Construct Air Heater 1971

6885 California Portland Cement 1971
Arizona Portland Cement
Rillito, Arizona
Refractory Linings Kiln, Cooler and Preheater

6999 Phelps-Dodge Corporation 1971

VIA PERSONAL PICK UP

Margie Devey
~~Morgenstein & Jubelier~~ Morgan Lewis & Bockius
300 South Grand Ave, 22nd Floor
Los Angeles, CA 90071

Re: ***J.T. Thorpe, Inc. - Job Files***

Dear Ms. Devey:

Pursuant to authority granted by John Allen, your office has agreed to pick-up 50 boxes and 4 tubs of original J.T. Thorpe, Inc. job files from our Long Beach office.

Your signature on the bottom of this letter confirms your receipt of all of the original J.T. Thorpe, Inc. job files currently in our possession.

If you have any questions, or if any of this does not comport with your understanding, please feel free to contact our office.

Very truly yours,

PRINDLE, DECKER & AMARO LLP

BY: JAIME ALBA, Paralegal for
KENNETH B. PRINDLE, ESQ.

KBP/jla
Enclosures

The undersigned hereby acknowledges receipt of 50 boxes and 4 tubs of J.T. Thorpe, Inc. job files.

Ken,

This is your authorization to release the J T Thorpe files in your possession to Morgan Lewis. Thanks for your help.

Prindle Decker has confirmed they have approximately 49 boxes of job files in storage. Prindle is having the boxes retrieved from storage tomorrow.
We can send a courier down to Long Beach to pick up the boxes. Jaime Alba will call me tomorrow with a time frame.

Prindle would also like John Allen to send authorization releasing the boxes to Morgan Lewis.

Thorpe

Jaime,

I believe the job files St. Paul is seeking were produced in a case brought by former JT Thorpe employees so they probably were not in a JT Thorpe file but other files if that helps.

Thorpe

Jaime,

Thanks for your help with this. I understand Mr. Prindle is out of the office for the rest of the week. Can you confirm today whether Prindle Decker has any original job files?

During Tom Carpenter's deposition, Mr. Carpenter testified that he (and perhaps others) at Thorpe provided copies of Dissolved Thorpe job files to the Prindle firm and that Thorpe did not keep copies.

Should Prindle Decker possess job files, we will need to produce them to St. Paul.
Thanks again.

Re: ***J.T. Thorpe, Inc. - Job Files***

Dear Ms. Devey:

Pursuant to authority granted by John Allen, your office has agreed to pick-up 50 boxes and 4 tubs of original J.T. Thorpe, Inc. job files from our Long Beach office.

Your signature on the bottom of this letter confirms your receipt of all of the original J.T. Thorpe, Inc. job files currently in our possession.

If you have any questions, or if any of this does not comport with your understanding, please feel free to contact our office.

Very truly yours,

PRINDLE, DECKER & AMARO LLP

BY: JAIME ALBA, Paralegal for
KENNETH B. PRINDLE, ESQ.

INDEX OF J.T. THORPE JOB FILES FROM SOUTHERN CALIFORNIA

September, 1991

Box 38, #5821
ACE FOUNDRY
Location: Huntington Park
Date: August, 1969

No Box, #4642
ACE FOUNDRY
Location: Huntington Beach
Date:
Install new lining.

No Box, #4643
ALCAN
Location: Los Angeles
Date:
Brick work repair on large melting furnace.

Box 33, #7483
ALCAN ALUMINUM
Location: Riverside, California
Date: January, 1973
Repair to #65 furnace.

Box 33, #7484
ALCAN ALUMINUM
Location: Riverside, California
Date: January, 1973
Repairs to #8 furnace.

Box 46, #5374
ALCAN ALUMINUM CORPORATION
Location: Riverside
Date: November, 1968

Box 9, #5726
Ralph M. Parsons Co.
ALLIED CHEMICAL COMPANY
Location: El Segundo
Date: September, 1969
Worked on refractory lining and on the sulfur recovery unit.

No Box, #4000
ALLISON STEEL MANUFACTURING COMPANY
Willing Mole Division
Location: Phoenix, Arizona
Date: 1966
Supply and install new reheat furnace.

No Box, #4970
ALLISON STEEL
Location: Helena, Arizona
Date:
Repairs to bullnose.

Box 35, #6375
ALUMINUM COMPANY OF AMERICA
Location: Vernon
Date: November, 1970

Box 41, #6213 **ALUMINUM EXTRUSION**
Location: Los Angeles, California
Date: May, 1970
Install refractory lining in 40,000 melting furnace and 2,800 holding furnace.

Box 13, #6451 Public Carbon Products
AMAX CORP.
Location: Bakersfield, California
Date: 1971
Design and construct two metallurgical coke kelms. (Two full files with blueprints).

Box 36, #3826 **AMERICAN CAN COMPANY**
Location: Wilmington
Date: January-March, 1966

Box 2, #2877 **AMERICAN GYPSUM COMPANY**
Location: Albuquerque, New Mexico
Date: January, 1984
(illegible)

Box 45, #8218 **AMERICAN KING COMPANY**
Location: Los Angeles
Date: April, 1974
Repairs to #3 furnace.

No Box, #2325 **AMERICAN OIL COMPANY**
Location: Yorktown, Virginia
Date: 1964
Supply one hot gas bypass valve.

Box 34, #7297 **AMETEK ALUMINUM**
Location: Los Angeles, California
Date: August, 1972
Repair charging door jambs and sell 50,000# melting furnace.
(A) Rework of door joints and seals for previous repair job.

Box 40, #6995 **AMETEK ALUMINUM EXTRUSION CORPORATION**
Location: Los Angeles
Date: January, 1972

Box 45, #8200 **AMETEC ALUMINUM**
Location: Los Angeles
Date: December, 1974
Refractory lining for 40,000 melting furnace.

Box 31, #8661 **ANACONDA AMERICAN BRASS**
Location: Paramount
Date: January, 1975
Ram 1

Box 45, #8414 **ANACONDA AMERICAN BRASS**
Location: Paramount
Date: September, 1974
Tear out two lowercases of cash shop furnace.

Box 45, #8498 **ANACONDA AMERICAN BRASS**
Location:
Date: October, 1974
Repair crucible.

Box 45, #8506 **ANACONDA AMERICAN BRASS**
Location: Paramount
Date: November, 1974
Ram two inductors.

Box 30, #9128 **APEX SMELTING CORPORATION**
Location: Long Beach
Date: January, 1976

Box 22, #8170 **APROS-VULCAN BENTON**
Location: Arkansas
Date: November, 1974
Design and construct one 80,000 aluminum melting furnace.

Box 31, #8710 **A. APROS**
Location:
Date: October-November, 1975
Lining for dryer, combustion collector and miscellaneous ducts and sheets.

Box 31, #8710 **A. APROS, VULCAN MATERIALS**
Location: Benton, Arkansas
Date:
Design and construct one special 80,000 aluminum melting furnace.

Box 14, #6779 Ralph M. Parsons Construction Co.
AQUITAINE COMPANY
Location: Canada
Ram River (Canada)
Date: November, 1971
Design and construct one waste gas incinerator.
(A) Repairs to buffalo forge bower.
Two files with blueprints.

Box 18, #7604 Chicago Bridge and Iron Company
ARCO
Location: Carson, California
Date: May, 1973
Refractory repairs FCC regenerator.

Box 37, #7824 **ARCO**
Location: Wilmington, California
Date: February, 1974
Build scaffold on tcc #1 and tcc #2 de flores heater.

Box 39, #7625 **ARCO**
Location: Carson
Date: April-June, 1973
Repairs to C.O. boiler.

Box 41, #6123 National Supply Company, Division of **ARCO STEEL**
Location: Torrance
Date: February, 1970
Repair H to transfer line.
(A) Repair primary reformer.

Box 14, #6881 **ARIZONA PORTLAND CEMENT**
Location: Rillitl, Arizona
Date: February, 1972
Design and construct air heater.

Box 37, #7766 **ARMCO STEEL**
Location: Torrance, California
Date: October, 1973
Design and construct portable heat treating furnace. "Pre-heat hood."

Box 44, #5100 **ARMCO STEEL NATIONAL SUPPLY DIVISION**
Location: Torrance
Date: October, 1968
Design and construct 22' x 30' car bottom heat treat furnace.
(A) Place insulating capsule in furnace floor.

Box 20, #7768 Ortloff Corporation
Location: Arkansas
ASHLY LOUISIANA GAS COMPANY (SHREVEPORT, LA)
Location: Arapaho, Oklahoma
Date: October, 1973
170' exhaust dock

Box 1, #1496 **ASSOCIATED INSULATION COMPANY**
Standard Oil Company
Location: Barbers RT Hawaii
Date: 1962
Refractory linings in FCC unit; file contains drawings.

Box 5, #4248

Brof. Inc.
Location: Minneapolis, Minnesota
Ralph M. Parsons Co.
ATLANTIC RICHFIELD CO.
Location: Watson, California
Date: November, 1966
Furnished and installed lining in reformer gas cooler.

Box 30, #9200

ATLANTIC RICHFIELD CORPORATION
Location: Wilmington
Date: June, 1976

Box 31, #8720

ATLANTIC RICHFIELD COMPANY
Location: Wilmington
Date: April, 1975
Refractory repairs.

Box 45, #8268

ATLANTIC RICHFIELD
Location: Carson
Date: May, 1974
Repairs to #1 coker furnace.

Box 45, #8512

ATLANTIC RICHFIELD
Location: Wilmington
Date: October, 1974
Repairs to rayco furnace.

Box 17, #7331

ATOMICS INTERNATIONAL DIVISION
American Rockwell
Location:
Date: January, 1970 to January, 1973
Design and supply preheater and combustor.
(A) Design and supply ducting between vessel for molten salt testing facility.
(B) Labor and some material to install refractory lining in vessel.
(C) Furnish extra equipment and material.

Box 13, #6420

Ralph M. Parsons Co.
BAMFF OIL LTD.
Location: Alberta, Canada
Date: January, 1972
Design and supply one waste gas incinerator and breaching. (Voluminous documents with blueprints).

Box 6, #4716

Ralph M. Parsons Co.
BANFF OIL LTD.
Location: Alberta, Canada
Date: January, 1968
Design and supply gas incinerator.

Box 2, #3061

BARTLETT PACIFIC INC.
Holly Sugar
Location: Rolley
Date: May, 1962
Install lining in hearth; Pacific furnace.

Box 20, #7920

Arthur G. McKee and Co.
Exxon Co.
BAYWAY REFINERY
Location: Lindon, New Jersey
Date: July, 1974
Design and construct waste gas incinerator.
(A) Supply extra material. (Two files)

Box 21, #8389

Arthur G. McKee and Co.
Exxon Co. USA
BAYWAY REFINERY
Location: Lindon, New Jersey
Date: March, 1975
Design and supply combustor.

Box 2, #2901

BECHTEL CORPORATION
Wilshire Oil Company
Location: Santa Fe Springs, California
Date: March, 1964
Work on waste gas incinerator.

Box 6, #4900

BECHTEL CORPORATION
Location: San Francisco, California
Renolds Metal
Location: Mountain View, Washington
Date: May 1968
Provided labor to install refractory in holding furnaces; provided labor and equipment to check brick sizes.

Box 7, #5078 **BECHTEL CORPORATION**
Renolds Metal
Location: Long View, Washington
Date: May, 1968
Furnished labor and equipment to install refractory lining in crucible preheaters.

Box 46, #5456 **BECHTEL CORPORATION,** and Standard Oil Company
Location: El Segundo
Date: July, 1969

Box 30, #9312 **BETHLEHEM STEEL**
Location: Vernon
Date: June, 1976

Box 37, #7775 **BETHLEHEM STEEL**
Location: Wilmington, California
Date: August, 1973
Labor and material to repair 12" mill
**********furnace-**DETRICK** roof.

Box 39, #7595 **BETHLEHEM STEEL CORPORATION**
Location: Vernon
Date: March, 1973
Repair acid brick lining.

Box 39, #7645 **BETHLEHEM STEEL**
Location: Vernon
Date: Approximately August, 1973
Repair 12" mill furnace roof.

Box 40, #6810 **BETHLEHEM STEEL**
Location: Vernon
Date: September, 1971
Note: Large job file.

Box 45, #8251 **BETHLEHEM STEEL COMPANY**
Location: Los Angeles
Date: August, 1974
Supply and design materials to modify 10" billot heating furnace.

No Box, #4563 **BETHLEHEM STEEL CORPORATION**
Location: Vernon
Date:
Reline south acid pickling tank at wire department.

Box 31, #8754 **BIRD AND SONS**
Location: Wilmington
Date: May, 1975
Modify and repair refractory piping system.

Box 1, #1342

C.F. BRAUN & COMPANY
Collier Carbon & Chemical Company
Location: Wilmington, California
Date:

Box 2, #2997

C.F. BRAUN
Union Oil Co.
Location: Wilmington, California
Date: April-July, 1964
Construct lining for one selan heater and four Foster Wheeler heaters; remove and replace refractory lining in B201 and B203 heater; provide labor and material to repair refractory lining in B101 and B204.

Box 3, #2170

C.F. BRAUN AND COMPANY
US Borax and Chemical Corporation
Location:
Date: March, 1965
Design and construct #6AC melting furnace.

Box 3, #3415

C.F. BRAUN AND CO.
Shell Oil Co.
Location: Wilmington, California
Date: February, 1965
Installed lining in one Foster Wheeler heater and one petrokem heater; also made repair to combustion section of Foster Wheeler heater.

Box 8, #5540

C.F. BRAUN AND COMPANY
Union Oil Company
Location: Lamonte, Illinois
Date: October, 1969
Provided refractory lining for two trains at the RM Parsons Plant.

Box 22, #8780

CF BRAUN
Location:
Date:
Fittings for Collier Carbon and Chem.

Box 31, #8745

CF BRAUN, STANDARD OIL COMPANY
Location: El Segundo
Date: May, 1975
Labor only to install lining in flaregas ground flare.

Box 46, #5390

CF BRAUN AND CO., GLIDDEN-DURKEE DIVISION
Location: Baltimore, Maryland
Date: April, 1969

Box 5, #4248

BROF. INC.
Location: Minneapolis, Minnesota
Ralph M. Parsons Co.
Atlantic Richfield Co.
Location: Watson, California
Date: November, 1966
Furnished and installed lining in reformer gas cooler.

Box 1, #2129 **CALIFORNIA PORTLAND CEMENT**
Location:
Date: 1963
Install lining in two rotary kelms.

Box 1, #2130 **CALIFORNIA PORTLAND CEMENT**
Location: Colton, California
Date:
Construct two firing hood linings.

Box 1, #2131 **CALIFORNIA PORTLAND CEMENT**
Location: Colton, California
Date:
Construct two cooler linings.

Box 11, #6375 **CAN COMPANY**
Location: Passaic, New Jersey
Date: March, April, June, December, 1971
Design and construct 9,000 SCFM furnace incinerator plant 30.
(A) Sealed installation.
(B) Spare parts kit.

Box 15, #7000 **CAN COMPANY**
Corporate Purchasing
Location: New York
Date: June, August, 1972
Blanket order 15 incinerators 3000 SCFM fume incinerators, Portland, Oregon.

Box 3, #3356 **CANADIAN BECHTEL LTD.**
Location: San Francisco, California
Great Canadian Oil Fans Project
Location : Alberta, Canada
Date: 1967
Design and construct waste gas incinerators and furnish spare parts.

Box 33, #7500 **CARLTON FORGE WORKS**
Location: Paramount, California
Date: September, 1973
Design and construct one car bottom forge furnace. Repair brick in two doors and two
**********DETRICK arches.

Box 4, #3458 **CASCADE CARBON CO.**
Location: Bakersfield, California
Date: March, 1965
Designed and constructed one fume burner; furnished SS basket chip; removed and replaced two curtain wall linings.

Box 30, #9198 **CELOTEX**
Location: Los Angeles
Date: April, 1976

Box 46, #5386 **CHEMICAL MILLING INTERNATIONAL CORPORATION**
Location: El Segundo
Date: October, 1968

Box 9, #5969 Ralph M. Parsons Co.
CHEVRON STANDARD OIL, LTD.
Location: Alberta, Canada
Date: October, 1970
Designed and supplied two waste gas incinerators.

Box 1, #1635 **CHICAGO BRIDGE AND IRON COMPANY**
Wilshire Oil Company
Location: Norwalk, California
Date: August, 1961
Provided labor and material to install refractory linings and revamp of FCC regenerator; also did repairs to linings.

Box 5, #4391 **CHICAGO BRIDGE AND IRON COMPANY**
Location: Salt Lake City
Shell Oil Company
Location: Washington
Date: April, 1967
Provided refractory labor on cat. and cracker turnaround.

Box 18, #7604 **CHICAGO BRIDGE AND IRON COMPANY**
Arco
Location: Carson, California
Date: May, 1973
Refractory repairs FCC regenerator.

Box 41, #6055 Horton Process Division
CHICAGO BRIDGE AND IRON
Pozzolan Products Casmalia California
Location: Oakbrook, Illinois
Date: June, 1970
(A) Labor and materials/miscellaneous repair work above reactor orifice plates.
(B) Reactor orifice plate/install refractory lining in duct work and cyclone.

No Box, #4824 **IM CHRISTENSEN AND ASSOCIATES**
Location: La Crescenta
Date:
Install front wall in keeler boiler.

Box 15, #6900
Jacob's Engineering
COKER CHEMICAL COMPANY
Location: Searles Lake, California
Date: March, 1972 - March, 1975
Design and construct melting furnace
(3) files.

Box 1, #1342
C.F. Braun & Company
COLLIER CARBON & CHEMICAL COMPANY
Location: Wilmington, California
Date:

Box 30, #9065
COLLIER CARBON AND CHEMICAL CORPORATION
Location: Wilmington
Date: May, 1976

Box 30, #9073
COLLIER CARBON AND CHEMICAL CORPORATION
Location: Brea

Date: May, 1969

Box 40, #6843
COLLIER CARBON AND CHEMICAL CORPORATION
Location: Wilmington
Date: November, 1971

Box 41, #6158 **COLLIER CARBON AND CHEMICAL CORPORATION**
Location: Brea, California
Date: March, 1970
Labor only to install paco lining in #2950 Press Forge furnace.

No Box, #4786 **COLLIER CARBON AND CHEMICAL COMPANY**
Location: Santa Monica
Date:
Repair calciner.

Box 30, #9291 **COMMERCIAL ENAMELING**
Location: Los Angeles
Date: June, 1972

Box 19, #7700 **CONNOCO (CONTINENTAL OIL COMPANY)**
Location: Lake Charles, Louisiana
Date: Approximately November, 1973
********** Design **DETRICK** wall and arch materials for coke calcining incinerator.

Box 3, #2269 **CONTINENTAL CAN COMPANY**
Location: Los Angeles, California
Date:
Design and construct two lithograph ovens, fume burners and other files containing drawings.

Box 5, #4390 **CONTINENTAL CAN COMPANY**
Location: Van Nuys
Date: July 1967
Designed and constructed on air pollution afterburner.

Box 6, #4500 **CONTINENTAL CAN COMPANY**
Location: Commerce
Date:
Designed and constructed 13,000 SCFM fume burners.

Box 7, #5000 **CONTINENTAL CAN COMPANY**
Location: Commerce
Date: August, 1968
Designed and constructed air pollution afterburners for lines 4 and 5.

Box 8, #5300-A **CONTINENTAL CAN COMPANY**
Location: Tittscury, California
Date: May, 1970
Provided modification to existing 24,000 SCFM fume incinerator at Tittscury.

Box 8, #5310

CONTINENTAL CAN COMPANY
Location: Hayward, California
Date: 1968-69
Designed and constructed one 12,000 SCFM fume burner.

Box 9, #5800

CONTINENTAL CAN COMPANY
White Cap Plant
Location: Hayward, California
Date: November, 1969
Designed and constructed 8,500 SCFM folded chamber type fume incinerators.

Box 11, #6352

CONTINENTAL CAN COMPANY
Location: Hayward, California
Date: April, 1971
Repair 12,000 SCFM furnace incinerator.

Box 16, #7111

CONTINENTAL CAN COMPANY
Location: Olympia, Washington
Date: August, 1972
Design and construct 12,000 SCFM incinerator.
(A) Startup.
(B) Spare parts.

Box 16, #7170

CONTINENTAL CAN COMPANY
Location: Carson, New Jersey
Date: December, 1972 and April, 1973
Design and construct two fume incinerators.
(A) Startup only.
(Files including 13 files and blueprints).

Box 18, #7411

CONTINENTAL CAN COMPANY
Location: Sparrowspoint, Maryland
Date: March, June, 1973 and February, 1974.
Design and construct four 8,000 SCFM fume incinerators and two 10,000 SCFM fume incinerators.

Box 18, #7411
(A, B, & C)

CONTINENTAL CAN COMPANY
Location: Sparrowspoint, Maryland
Date: September, 1974
Modifications to control panels.
(B) Heat exchange rework.
(C) Modify control panels for three units and ship to White Cap Plant (See job #7756-A)
(D) Convert controls for one 8,000 SCFM incinerator to three operator.
(E) Convert one 8,000 SCFM incinerator to catalatic operation.
(F) Retain all units.

(G) Service of erector supervisor for installation of one 8,000 SCM, two 10,000 SCFM incinerators in Chicago P.O. 35T-4940.
(H) Start up for F-7411-E.

Box 18, #7756 Blueprints for **CONTINENTAL CAN COMPANY**

Box 19, #7756 **CONTINENTAL CAN COMPANY**
Location: Chicago, Illinois
Date:
Design and construct one 8,000 SCFM and two 10,000 SCFM fume incinerators.
(A) New design and walls for electrical control.
(B) Heat exchanger rework.

Box 20, #8434 **CONTINENTAL CAN COMPANY**
Plant #462
Location: Sparrow Point, Maryland
Date: September, 1976
Installation of 14,000 SC and fume incinerator.

Box 22, #8439 **CONTINENTAL CAN COMPANY**
Various blueprints.

Box 22, #8440 **CONTINENTAL CAN COMPANY**
Location: Baltimore, Maryland
Date: July, 1975
Fabrication of standard 14,000 CFM incinerator for installation at CCP-16-A.

Box 22, #8444 **CONTINENTAL CAN COMPANY**
Date: September, 1976
Line of catalytic frame for standard incinerator.

Box 41, #6048 **CONTINENTAL CAN COMPANY**
Location: Los Angeles, California
Date: January, 1970
Repair #1 union iron works boiler.

Box 38, #5859 **COPELAND PROCESS CORPORATION**
Pozzolan Products Incorporated
Location: Oakbrook, Illinois
Casmalia, California
Date: September, 1969

Box 14, #6645 **JM COVINGTON CORPORATION**
Location: Bakersfield, California
Date: July, 1971
Design and supply BSP coke cooler.

Box 39, #7692

CROSBY AND OVERTON
Location: Long Beach
Date: May-July, 1973
Reline 14 fireboxes.

Box 45, #8240

DATON FOUNDRY
Location: South Gate
Date: May-June, 1974
2m induction casing.

Box 3, #3370

DORR OLIVER INC.
Port Huenene Serge Disposal Plant
Location: Port Helanee, California
Date: 1965
Install lining and supply and install additional parts to reactors. Repaired insulkote lining.

Box 30, #9213

DOUGLAS OIL
Location: Paramount
Date: April, 1976

No Box, #3913

Sesler and Coffey Incorporated
DOUGLAS OIL COMPANY
Location: Paramount
Date: March, 1966
Burn materials to repair on h2, h3, and h4 furnaces.
(A) Fireproof skirts on columns d6 and d8.

Box 10, #6288

DWG FILE
RM Parsons National Lead Co.
Location: Salt Lake City, Utah
Date: October, 1970
Material and labor to install refractories and magnesium pilot plank.

Box 40, #6910

EMERY INDUSTRIES
Location: City of Commerce
Date: October, 1971

Box 20, #7920

Arthur G. McKee and Co.
EXXON CO.
Bayway Refinery
Location: Lindon, New Jersey
Date: July, 1974
Design and construct waste gas incinerator.
(A) Supply extra material. (Two files)

Box 21, #8389

Arthur G. McKee and Co.
EXXON CO. USA
Bayway Refinery
Location: Lindon, New Jersey
Date: March, 1975
Design and supply combustor.

Box 21, #8390

Arthur G. McKee and Co.
EXXON CO. USA
Baton Rouge Refinery
Date: March, 1975

Box 42, #3094 **FEDERATED METALS**
Location: Los Angeles
Date: May, 1964
Rebuild stack #2 brass furnace.

No Box, #3463 **FEDERATED METALS**
Location: Vernon, California
Date: Approximately March, 1965
Repairs to aluminum furnace.

No Box, #4555 **FEDERATED METALS**
Location: Vernon
Date:
Repair #2 brass revert.

Box 43, #8130 **FELCO**
Location: Canoga Park
Date: February-March, 1974
Supply and design material to install refractory lining in fire sodium heater.

Box 32, #4375 **FIBREBOARD PRODUCTS COMPANY**
Location: Vernon
Date: January, 1967
Repair to roof arch on #5 boiler.

Box 11, #6388 **FISH ENGINEERING (HOUSTON)**
JT Thorpe Co. (Houston)
Panhandle Eastern Co. (Kansas City, Missouri)
Location:
Date:
Design fume incinerator (approximately November, 1970) (File contains primarily blueprints).

Box 7, #5260 J.T. Thorpe Co.
FLOOR CORPORATION
Marathon Oil
Location: Burghausen, Germany
Date:
Engineering study on wulff process furnaces.

Box 10, #6270 **FLOOR CORPORATION**
Mobil Oil Corporation
Location: Jolia, Illinois
Date: May, 1971, October 1972
Start up assistance and supply 2 sulfur furnaces.

Box 14, #6737

JT Thorpe Co. (Houston)
FLOOR (LOS ANGELES)
Mobil Oil Corp. (Beaumont, Texas)
Location:
Date:
Refractory lining for new FCC unit.

Box 20, #8038

THE FLOOR CORPORATION LIMITED
Standard Oil Company, California
Location: El Segundo, California
Date:
Gunite linings for regenerator and reactor.
(A) Lining for cyclones catalyst U-bend flue-gas lines and flue-gas coolers.

Box 1, #1556

FOSTER WHEELER CORPORATION
Texaco Incorporated
Wilmington, California
Date: April, 1961
Install refractory linings in FW fired heaters; provided labor and material to install six inch hollow tiles on fired heater H1 and H2.

No Box, #3897 **GENERAL ALUMINUM**
Location: Torrance
Date: March, 1965
Enlarge and modify 16,000 aluminum melting furnaces with 40,000 capacity.

Box 38, #5945 **GENERAL WELDING COMPANY**
Location: Alhambra
Date: November, 1969

Box 35, #6304 **GLASS CONTAINERS**
Location: Los Angeles
Date: June, 1970

Box 36, #3824 **GLASS CONTAINERS CORPORATION**
Location: Vernon
Date: December, 1965

Box 43, #7955 **GLASS CONTAINERS CORPORATION**
Location: Vernon
Date: December, 1973
Rebuild #1 furnace.
Note: Large job file.

Box 43, #7964 **GLASS CONTAINER**
Location: Vernon
Date: November, 1973

Box 43, #8003 **GLASS CONTAINER**
Location: Vernon
Date: December, 1973-February, 1974
Extra work on checkers.

Box 45, #8219 **GLASS CONTAINER COMPANY**
Location: Los Angeles
Date: April, 1974
Repairs to tank #2.

No Box, #3311 **GLASS CONTAINER COMPANY** H-001

Date: December, 1970

Box 30, #8931 **GREAT LAKES CARBON**
Location: Wilmington
Date: August, 1975

Box 34, #7415 **GREAT LAKES CARBON**
Location: Wilmington, California
Date: Nobember, 1972
Insulate #2 stack.

Box 34, #7435 **GREAT LAKES CARBON**
Location: Wilmington, California
Date: December, 1972
Plate #3 stack.

Box 36, #6551 **GREAT LAKES CARBON COMPANY**
Location: Lompoc
Date: August, 1965

Box 34, # 7063 **GREAT LAKES**
Location: Wilmington, California
Date: March, 1972
Repair to #2 kiln firing hood and discharge chute. Repairs to settling chamber.

Box 38, #5931 **GREFCO**
Location: Lompoc
Date: October, 1969

Box 7, #5053 **GULF OIL CORPORATION**
Location: Santa Fe Springs
Date: April, 1968
Filled conn. of new sections of regenerator - flue gas lines; performed miscellaneous repairs to flue gas and also repaired feed prikenter furnaces; made repairs to CO boiler.

Box 10, #6176 **GULF OIL COMPANY**
Location: Norwalk, California
Date: April, 1970
Repair cat cracker.
(A) Repair seal boiler.
(B) Repair refiner heater.
(C) Repair crude heater.
(D) Repair PH-2 platform.
(E) Repair CCH-2 heater.
(F) Repair H-CH-1 and H-CH-2 heater.
(G) Repair G-H-1 heater.
(H) Repair TP51 sour water oxidizer.

Box 18, #7587 **GULF OIL COMPANY**
Location: Santa Fe Springs, California
Date: March and April, 1973
Repairs to regenerator and flue gas lines.
(A) Repairs to cat. cracker feed heaters #H1A and #H1B.
(B) Repairs to C.O. boiler.

(C) Repairs to incinerator HCH 1 and 2.
(D) Repairs to HCH 1 heater.
(E) Repairs to RH-1B and RH-1C heater.
(F) Repairs to hydrogen heater.

Box 33, #7527

GULF OIL
Location: Santa Fe Springs, California
Date: April, 1973
Supply and install refractory materials for duct lining and heater modification.
(A) Two inch lining with 54-inch ducts and replace with #4 lining.

Box 1, #2100 — Swindell Dressler Corporation
HAGANSBUT COMPANY
Location: Tina, California
Date: January, 1962
Construct tunnel and replace inside concrete slabs.

Box 36, #3852 — **HALE HEAT TREATING COMPANY**
Location: Paramount
Date: February-June, 1966
May-June, 1967

Box 36, #3851 — **HALE HEAT TREATING COMPANY**
Location: Paramount
Date: January-March, 1966

Box 32, #4221 — **HALL HAST PLEATING COMPANY**
Location: Paramount
Date: July, 1967
Design and construct one 6' x 16' draw furnace.

No Box, #4441 — **HALL HAST TREATING COMPANY**
Location: Paramount
Date:
Design and construct one 7' x 13' heat treating furnace.

No Box, #4994 — **HALL HEAT TREATING**

Location: Torrance
Date: January, 1976

Box 31, #8535
MARTIN MARIETTA ALUMINUM
Location: Torrance
Date: November, 1974
Repair to #11 revert furnace

Box 31, #8563
MARTIN MARIETTA ALUMINUM
Location: Torrance
Date: November, 1974
Repairs to #2 furnace.

Box 31, #8766
MARTIN MARIETTA ALUMINUM
Location: Torrance
Date: April, 1975
Necessary repair to #1 furnace.

Box 33, #7511
MARTIN MARIETTA ALUMINUM
Location: Torrance, California
Date: January, 1973
Repairs to #10 furnace.

Box 39, #7600
MARTIN MARIETTA ALUMINUM
Location: Torrance
Date: April-May, 1973
Repair #9 furnace.

Box 39, #7684 **MARTIN MARIETTA ALUMINUM**
Location: Carson
Date: June, 1973
Repairs to cooler section.

Box 39, #7687 **MARTIN MARIETTA ALUMINUM**
Location: Carson
Date: June, 1973
Repairs to cooler section.

Box 39, #7705 **MARTIN MARIETTA ALUMINUM**
Location: Torrance
Date: May, 1973
Repairs to #11 furnace.

Box 39, #7719 **MARTIN MARIETTA ALUMINUM**
Location: Torrance
Date: June, 1973
Repairs to #8 furnace.

Box 43, #8104 **MARTIN MARIETTA ALUMINUM**
Location: Torrance
Date: May, 1974
Labor and material for #8 aluminum reverb.

Box 43, #8159 **MARTIN MARIETTA ALUMINUM**
Location: Torrance
Date: March, 1974
Repairs to #6 furnace.

Box 43, #8164 **MARTIN MARIETTA ALUMINUM**
Location: Torrance
Date: April, 1974
Repairs to #9 furnace.

Box 45, #8194 **MARTIN MARIETTA ALUMINUM**
Location: Torrance
Date: June, 1974
Supply and install steel for modification of melting furnace.

Box 45, #8285 **MARTIN MARIETTA ALUMINUM**
Location: Torrance
Date: June, 1974
Repair to #11 furnace.

Box 45, #8312 **MARTIN MARIETTA ALUMINUM**
Location: Torrance
Date: June, 1974
Repair to normalizing furnace.

Box 45, #8454 **MARTIN MARIETTA ALUMINUM**
Location: Torrance
Date: September, 1974
Repairs to #9 furnace.

Box 45, #8462 **MARTIN MARIETTA ALUMINUM**
Location: Torrance
Date: October, 1974-March, 1975
Labor and material to modify #4 melter (big job).
Note: Large job file.

Box 45, #8468 **MARTIN MARIETTA ALUMINUM**
Location: Torrnace
Date: October, 1974
Furnish one Ajax furnace.

Box 45, #8478 **MARTIN MARIETTA ALUMINUM**
Location: Torrnace
Date: October, 1974
Repairs to #10 power furnace.

Box 34, #7390 **MARTIN MARIETTA**
Location: Torrance, California
Date: November, 1972
Repair to #1 mesta press furnace.

Box 37, #7952 **MARTIN MARIETTA CARBON**
Location: Carson, California
Date: November, 1973
Repair kiln.

Box 34, #7419 Pozzo Construction Company
Location: **MARY'S HOSPITAL**, Long Beach
Date: November, 1972
Repair damage to packaged boiler.

Box 20, #7920 **ARTHUR G. McKEE AND CO.**
Exxon Co.
Bayway Refinery
Location: Lindon, New Jersey
Date: July, 1974
Design and construct waste gas incinerator.
(A) Supply extra material. (Two files)

Box 21, #8389 **ARTHUR G. McKEE AND CO.**
Exxon Co. USA
Bayway Refinery
Location: Lindon, New Jersey
Date: March, 1975
Design and supply combustor.

Box 21, #8390 **ARTHUR G. McKEE AND CO.**
Exxon Co. USA
Baton Rouge Refinery
Date: March, 1975

Box 1, #1397 **RALPH McPHERSON COMPANY**
Richfield Oil
Location:
Date: November, 1960
Install lining in one alcon; fired heater; -one foster wheeler; filed heater and reactors; also tore out and replaced wall on west end; cut brick; replaced bottom in #1 and #2 reformer reactor; labor and material to insulate acid brick in acid pit; ground bottom insulation in two small reactors; packed insulation around boxes; patched FW heater.

Box 1, #1285 **RALPH McPHERSON COMPANY**
Stauffer Chemical Company
Location: Delaware
Date:
Design and material for one waste gas incinerators.

Box 18, #7548 **MISSION CLAY PRODUCTS**
Location: Santa Fe Springs
Date: April, 1973
Supply oil burner systems for four periodic kelms.
(A) Supply safety equipment.

Box 10, #6137 **MOBIL OIL CORPORATION**
Location: Torrance, California
Date: March, 1970
Repair to regenerator
(A) Repair to orifice chamber
(B) Repairs to reactor
(C) Repair to F1 pair heater.

Box 10, #6270 Floor Corporation
MOBIL OIL CORPORATION
Location: Jolia, Illinois
Date: May, 1971, October 1972
Start up assistance and supply 2 sulfur furnaces.

Box 14, #6737
JT Thorpe Co. (Houston)
Floor (Los Angeles)
MOBIL OIL CORP. (BEAUMONT, TEXAS)
Location:
Date:
Refractory lining for new FCC unit.

Box 33, #7465
MOBIL OIL
Location: Torrance, California
Date: March, 1973
Repair regenerator.
(A) Repair reactor riser line.
(B) Repair overhead lines.
(C) Repair orifice.
(D) Repair coal boiler.
(E) Repair regenerator cyclone.
(F) Repair reactor cyclone, etc.

Box 37, #7933
MOBIL OIL
Location: Torrance, California
Date: January-February, 1974
Refractory lining flare stack.

Box 40, #6896
MOBIL OIL CORPORATION
Location: Santa Fe Springs
Date: December, 1971

Box 34, #7300
MONSANTO CHEMICAL
Location: Long Beach, California
Date: August, 1972
Repair to #3 burner.

Box 34, #7302
MONSANTO CHEMICAL
Location: Long Beach, California
Date: August, 1972
Repair to #2 burner.

Box 41, #6009
MONSANTO CHEMICAL
Location: Long Beach, California
Date: December, 1969
Repair calciner combustion unit.

Box 41, #6061
MONSANTO CHEMICAL
Location: Long Beach, California
Date: January, 1970
Repair to #3 burner.

Box 44, #5081
MONSANTO CHEMICAL COMPANY
Location: Long Beach, California
Date: March, 1968
Repair north unit of combustion tunnel.

Box 44, #8234 **MONSANTO CHEMICAL**
Location: Long Beach
Date: May, 1974
Repair to #2 unit.

Box 42, #3136 **CC MOORE AND COMPANY EMPORIUM, SOUTHERN CAL.**
Edison Company
Location: Huntington Beach
Date: June, 1964
Unit UP 4

Box 39, #7721 **MORRIS INDUSTRIES**
Location: Vernon
Date: June, 1973
Repair sun beam furnace.

Box 45, #8261 **MORRIS INDUSTRIES**
Location: Maywood
Date: June, 1974
Repair to #1 hard furnace.

Box 45, #8501 **MORRIS INDUSTRIES**
Location: Maywood
Date: October, 1974
Repair to #2 jaw furnace.

No Box, #3188 **MYERS STRUM COMPANY**
Location: Los Angeles
Date: Approximately July-August, 1974

Box 18, #7424 **NATIONAL ALUMINUM**
Location: Alhambra, California
Date: April-May-August and September, 1973
Design and construct roller hearth glass tempering furnace.
(A) Design and provide furnace modifications.
(B) Repair fire walls.

Box 15, #6934 (Parson's Company) (Louisiana)
NATIONAL LEAD COMPANY
Location: Salt Lake City, Utah
Date: March, 1972
Design and supply system for five magnesium pot furnaces. (Files with blueprints).

Box 41, #6123 **NATIONAL SUPPLY COMPANY,** Division of Arco Steel
Location: Torrance
Date: February, 1970
Repair H to transfer line.
(A) Repair primary reformer.

No Box, #4549 **NATIONAL TANK AND MANUFACTURING COMPANY**
Location: Los Angeles
Date:

No Box, #4835 **NATIONAL TANK AND MANUFACTURING COMPANY**
Location: Los Angeles
Date:
Granite lining, vessel D502

Box 46, #5140 **HUGO NEU-PROLER**
Location: Terminal Island
Date: May, 1968

Box 18, #7747 **NICKELS ENGINEERING AND RESEARCH CORP.**
County Water District
Location: Fountain Valley, California
Date: January and March, 1974
Refractory linings to multiple harth furnace.
(A) Materials supplied.

Box 30, #9073 **N.L. INDUSTRIES**
Location: Los Angeles
Date: January, 1976

Box 30, #9290 **NORRIS INDUSTRIES**
Location: Vernon
Date: June, 1976

Box 37, #7931

NORRIS INDUSTRIES
Location: Maywood, California
Date: November, 1973
Repair to #1 and #2 draw furnaces and #1 and #2 hard furnaces.

Box 38, #5494

NORRIS INDUSTRIES
Location: Vernon
Date: January, 1969

Box 43, #8040

NORRIS INDUSTRIES
Location: Maywood
Date: January, 1974
Repair to #1 hard furnace.

Box 45, #8320

NORRIS INDUSTRIES
Location: Maywood
Date: July, 1974
Repair to #1 pan furnace.

Box 12, #6404

JF Pritchard
NUWAY CHEMICAL COMPANY
Location: Baton Rouge, Louisiana
Date: 1971
Design and construct two 40,000 SCFM phthalicanhydrid incinerators.
(This box contains nothing but Job #6404).

Box 20, #7768

ORTLOFF CORPORATION
Location: Arkansas
Ashly Louisiana Gas Company (Shreveport, LA)
Location: Arapaho, Oklahoma
Date: October, 1973
170' exhaust dock

Box 1, #2062

PACIFIC CLAY PRODUCTS
Location: Santa Fe Springs, California
Date: October, 1961
Repair to floor of perodic kelm; repair to floor kelm.

Box 36, #3736

PACIFIC CRANE AND RIGGING COMPANY
Monsanto Chemical Company
Location: Paramount
Date: December, 1965-February, 1966

Box 30, #8937

PACIFIC SMELTING
Location: Torrance
Date: September, 1975

Box 33, #7516

PACIFIC SMELTING
Location: Torrance, California
Date: February, 1973
Repairs to #1 muffle furnace.

No Box, #3440

PACIFIC SMELTING
Location: Los Angeles
Date of repair: May, 1965
Labor only to repair furnace.

Box 4, #3445

Southern California Gas Company
PACIFIC TOWELL COMPANY
Location: Paramount, California
Date: September, November, 1965
Designed and constructed one circular direct fire tile kelm. File of drawings.

Box 11, #6388

Fish Engineering (Houston)
JT Thorpe Co. (Houston)
PANHANDLE EASTERN CO. (KANSAS CITY, MISSOURI)
Location:
Date:
Design fume incinerator (approximately November, 1970) (File contains primarily blueprints).

Box 1, #1275

RALPH M. PARSONS
Union Oil Company
Location: Wilmington, California
Date: April, 1960
Design and supply one waste gas incinerator. Labor and material to install refractions in breaking between incinerator and stock.

Box 2, #3086

RALPH M. PARSONS CO.
SOCONY Mobil Oil Co.
WINDORNE
Location: Alberta, Canada
Date: November, 1964
Design and supply one waste gas incinerator.
Drawings.

Box 3, #3398

RALPH M. PARSONS CONSTRUCTION CO.
Location: Canada
Hudson Bay Oil and Gas Co. Ltd.
Location: Alberta, Canada
Date:
Drawings.

Box 3, #3405

RALPH M. PARSONS CO.
Shell Oil Co.
Location:
Date: July, 1965
Designed and supplied one waste gas incinerator.

Box 3, #3432

RALPH M. PARSONS CO.
W. Kower Co.
Location: Colombia, South America
Date: June, 1965
Furnished one waste gas incinerator.

Box 4, #3960

RALPH M. PARSONS CO.
PROCON GRAPE LTD.
Location:
Date: September, 1966
Designed and supplied one waste gas incinerator.

Box 4, #4017

RALPH M. PARSONS CO.
Imperial Oil Enterprises, Ltd.
Location: Sarnia, Ontario, Canada
Date: 1967
Designed and supplied one waste gas incinerator.

Box 4, #4064

RALPH M. PARSONS CO.
PETRO GAS PROCESSING, LTD.
Location: Bolzac, Alberta, Canada
Date: 1967
Designed and supplied one waste gas incinerator.

Box 5, #4248

Brof. Inc.
Location: Minneapolis, Minnesota
RALPH M. PARSONS CO.
Atlantic Richfield Co.
Location: Watson, California
Date: November, 1966
Furnished and installed lining in reformer gas cooler.

Box 6, #4716

RALPH M. PARSONS CO.
Banff Oil Ltd.
Location: Alberta, Canada
Date: January, 1968
Design and supply gas incinerator.

Box 6, #4795

RALPH M. PARSONS CO.
Shell Oil Company
Location: Vancouver, BC
Date: May, 1968
Designed and constructed waste gas incinerators.

Box 9, #5523

RALPH M. PARSONS CO.
Standard Oil Company
Location: El Segundo
Date: February-October, 1969
Installed refractory lining, worked on alcorn heaters; repaired #301 heater.

Box 9, #5726

RALPH M. PARSONS CO.
Allied Chemical Co.
Location: El Segundo
Date: September, 1969
Worked on refractory lining and on the sulfur recovery unit.

Box 9, #5752

RALPH M. PARSONS
Location: Canada
Hudson Bay Oil and Gas Co.
Location: Edson, Alberta, Canada
Date: June, 1969
Provided engineering to modify fume incinerator.

Box 9, #5969

RALPH M. PARSONS CO.
Chevron Standard Oil, Ltd.
Location: Alberta, Canada
Date: October, 1970
Designed and supplied two waste gas incinerators.

Box 13, #6420

RALPH M. PARSONS CO.
Bamff Oil Ltd.
Location: Alberta, Canada
Date: January, 1972
Design and supply one waste gas incinerator and breaching. (Voluminous documents with blueprints).

Box 14, #6779

RALPH M. PARSONS CONSTRUCTION CO.
Aquitaine Company
Location: Canada
Ram River (Canada)
Date: November, 1971
Design and construct one waste gas incinerator.
(A) Repairs to buffalo forge bower.
Two files with blueprints.

Box 14, #6875

RALPH M. PARSONS CO.
Standard Oil Co.
Location: El Segundo
Date: January, February, March 1972
Refractory linings sulfur recovery unit.
(A) Furnish material.

Box 17, #7177

RALPH M. PARSONS COMPANY
Location: Los Angeles
Aerial Oil Company
Darknath, Nova Scotia, Canada
Date: September, 1972
Design and construct one waste gas incinerator.

Box 18, #7506

RALPH M. PARSONS
Union Oil Company
Location: Wilmington, California
Date: March, April and May, 1973
Refractory linings - sulfur recovery unit.
(A) Fireproofing vessels #15-1101, #15-1102.
(B) Repair fire walls.

Box 18, #7649

RALPH M. PARSONS
Texaco Inc.
Location:
Date: June, 1973
Refractory lining furnace H751 sulfur recovery unit.

Box 21, #8363

RALPH M. PARSONS CO. ARCO
Location: Carson
Date: March, June, 1975
Design and construct thermal oxidizer.

Box 22, #8682 **RALPH M. PARSONS NORTHERN NATURAL GAS CO.**
Location: Knobbs, New Mexico
Date: November, 1975
Design and supply one thermal oxidizer.

Box 20, #8195 **RALPH AND PARSONS CO.**
Service Oil Co./City Service Oil Co.
Location: Lake Charles, Louisiana
Date: April, 1975
Design and supply thermal oxidizer with stack.
(A) Add electric motor and stock.
(B) Drive motor for weather cap.

Box 20, #8343 **RALPH AND PARSONS**
Standard Oil Company
Location: Toledo, Ohio
Date: April, 1975
Design and supply thermal oxidizer.
(Two folders).

Box 20, #8330 **PARSONS ARCO**
Location: Houston, Texas
Date: August, November 1975
Design and supply thermal oxidizer. (Two files)

Box 15, #6934 **(PARSON'S COMPANY) (LOUISIANA)**
National Lead Company
Location: Salt Lake City, Utah
Date: March, 1972
Design and supply system for five magnesium pot furnaces. (Files with blueprints).

Box 22, #8757 **PARSONS-GURDEN SARCHESHMEN**
Location:
Date: February, 1976
Supply burners and supports.

Box 38, #5972 **PHELPS DODGE COPPER PRODUCTS CORPORATION**
Location: Los Angeles
Date: November, 1969

Box 34, #7225 **PHELPS DODGE CORPORATION**
Location: Morenci, Arizona
Date: July, 1972
Labor only to repair #3 reverb furnace.

Box 37, #7793 **PHELPS DODGE TUBE CORPORATION**
Location: Los Angeles, California
Date: August, 1973
Labor and materials to lower slag door an ascast.

(A) Labor and materials for repair to rest of furnace.

Box 37, #7886 **PHELPS DODGE TUBE COMPANY**
Location: Los Angeles, California
Date: September, 1973
Replace the main arch in #680 annealing furnace.

Box 30, #9083 **PHILADELPHIA QUARTZ**
Location: South Gate
Date: January, 1976

Box 30, #9303 **PHILADELPHIA QUARTZ**
Location: South Gate
Date: June, 1976

Box 31, #8631 **PHILADELPHIA QUARTZ**
Location: South Gate
Date: February, 1975
Necessary repairs to cilacade furnace.

Box 37, #7862 **PHILADELPHIA QUARTZ**
Location: South Gate, California
Date: September, 1973
Repairs to cylicade furnaces.

Box 44, #5004 **PHILADELPHIA QUARTZ, URATZ**
Location: South Gate
Date: February, 1968
Repair cylica furnace.

Box 45, #8421 **PHILADELPHIA QUARTZ**
Location: South Gate
Date: September, 1974
Repairs to cilicade furnace.

Box 41, #6089 Morris P. Kirk, Division of **PIONEER ALUMINUM**
Location: Long Beach, California
Date: March, July 1970
Design and construct #1 aluminum chip melting furnace.

Box 34, #7376 **POWERINE OIL COMPANY**
Location: Santa Fe Springs, California
Date: October, 1972
Billed repair to South FW boiler.

Box 39, #7647 **POWERINE OIL**
Location: Santa Fe Springs
Date: May, 1973

Box 46, #5451 **POWERINE OIL COMPANY**
Location: Santa Fe Springs
Date: July, 1969

Box 34, #7419 **POZZO CONSTRUCTION COMPANY**
Location: Mary's Hospital, Long Beach
Date: November, 1972
Repair damage to packaged boiler.

Box 38, #5859 Copeland Process Corporation
POZZOLAN PRODUCTS INCORPORATED
Location: Oakbrook, Illinois
Casmalia, California
Date: September, 1969

Box 41, #6055 Horton Process Division
Chicago Bridge and Iron
POZZOLAN PRODUCTS Casmalia California
Location: Oakbrook, Illinois
Date: June, 1970
(A) Labor and materials/miscellaneous repair work above reactor orifice plates.
(B) Reactor orifice plate/install refractory lining in duct work and cyclone.

Box 12, #6404 **JF PRITCHARD**
Nuway Chemical Company
Location: Baton Rouge, Louisiana
Date: 1971
Design and construct two 40,000 SCFM phthalicanhydrid incinerators.
(This box contains nothing but Job #6404).

Box 17, #7332 **JF PRITCHARD AND CO.**
Location: Atlantic Richfield, Carson
Date: March, 1973
Design and construct waste mass incinerator and stack. (Four files).

Box 34, #7284 **PROCTOR AND GAMBLE MANUFACTURING COMPANY**
Location: Long Beach, California
Date: August, 1972
Peabody furnaces.

Box 13, #6451 **PUBLIC CARBON PRODUCTS**
Amax Corp.
Location: Bakersfield, California
Date: 1971
Design and construct two metallurgical coke kelms. (Two full files with blueprints).

Box 34, #7334

QUEMETCO INC.
Location: City of Industry
Date: September, 1972
Work, equipment and supervision to repair the refractory lining in reverbatory lead furnace.

Box 43, #7979 **RALPH AND PARSONS**
Location: Los Angeles
Date: March-April, 1974
Refractory lining 6 experimental reaction.

Box 6, #4900 Bechtel Corporation
Location: San Francisco, California
RENOLDS METAL
Location: Mountain View, Washington
Date: May 1968
Provided labor to install refractory in holding furnaces; provided labor and equipment to check brick sizes.

Box 6, #4981 **RENOLDS METAL**
Location: Torrance, California
Date: May and October, 1968
Designed and constructed fume incinerator for lines 6 and 7. Drawings. (also Box 7, #4981)

Box 7, #5078 Bechtel Corporation
RENOLDS METAL
Location: Long View, Washington
Date: May, 1968
Furnished labor an equipment to install refractory lining in crucible preheaters.

Box 36, #3489-A **REULAND ELECTRIC**
Location: City of Industry
Date: August-September, 1965

Box 1, #1397 Ralph McPherson Company
RICHFIELD OIL
Location:
Date: November, 1960
Install lining in one alcon; fired heater; -one foster wheeler; filed heater and reactors; also tore out and replaced wall on west end; cut brick; replaced bottom in #1 and #2 reformer reactor; labor and material to insulate acid brick in acid pit; ground bottom insulation in two small reactors; packed insulation around boxes; patched FW heater.

Box 18, #7550 **RICHFIELD (ARCO)**
Location: Watson
Date: May, 1973
FCC turn around - refractory repair.
(A) Repair regenerator cyclones,
(B) Repair reactor,
(C) Repair reactor stand pipe,
(D) Repair regenerator side walls.

No Box, #4855

ALEX ROBERTSON COMPANY
Location: Paramount
Date:
For Southern California Edison (Lomita Station). Build and remove scaffold in #2 borin heater.

Box 30, #9299 **SELAS CORPORATION** and Standard Oil
Location: El Segundo
Date: July, 1976

No Box, #3913 **SESLER AND COFFEY INCORPORATED**
Douglas Oil Company
Location: Paramount
Date: March, 1966
Burn materials to repair on h2, h3, and h4 furnaces.
(A) Fireproof skirts on columns d6 and d8.

Box 40, #6984 **SHELL CHEMICAL COMPANY**
Location: Ventura
Date: December, 1971

Box 46, #5391 **SHELL CHEMICAL CORPORATION**
Location: Ventura
Date: October, 1968

No Box, #3893 **SHELL CHEMICAL COMPANY**
Location: Torrance
Date: May, 1966
Rebuild combustion chamber on white Foster boiler.

No Box, #4740 **SHELL CHEMICAL COMPANY**
Location: Dominguez
Date:
Repair #85 tank.

Box 3, #3405 Ralph M. Parsons Co.
SHELL OIL CO.
Location:
Date: July, 1965
Designed and supplied one waste gas incinerator.

Box 3, #3415 C.F. Braun and Co.
SHELL OIL CO.
Location: Wilmington, California
Date: February, 1965
Installed lining in one Foster Wheeler heater and one petrokem heater; also made repair to combustion section of Foster Wheeler heater.

Box 5, #4391 Chicago Bridge and Iron Company
Location: Salt Lake City
SHELL OIL COMPANY
Location: Washington
Date: April, 1967
Provided refractory labor on cat. and cracker turnaround.

Box 6, #4795

Ralph M. Parsons Co.
SHELL OIL COMPANY
Location: Vancouver, BC
Date: May, 1968
Designed and constructed waste gas incinerators.

Box 10, #6032

SHELL OIL CO.
Location: Dominguez, California
Date: February, 1970
Repair regenerator during cap cracking shut down.

Box 16, #7073

SHELL OIL COMPANY
Location: Dominguez, California
Date: April, 1972
Refractory repairs on cat. cracker turn around.
(A) Remove and replace refractory and top head regenerator.
(B) Install lining in four secondary cyclones.
(C) Miscellaneous patch work.
(D) Install AA22 and cyclone chimney.
(E) Repair heaters 15 and 16.

Box 31, #8560

SHELL OIL COMPANY
Location: Dominguez
Date: November, 1974
Repair to #4 furnace.

Box 32, #4180

SHELL OIL COMPANY
Location: Dominguez
Date: August, 1966
Necessary repairs to #1 vacuum flasher; necessary repairs to heater 13 and 14.

Box 37, #7761

SHELL OIL COMPANY
Location: Dominguez, California
Date: July, 1973
Repair #9 boiler.

Box 38, #5915

SHELL OIL COMPANY
Location: Watson
Date: October, 1969

Box 46, #5283

SHELL OIL COMPANY
Location: Dominguez
Date: August, 1968

No Box, #3241

SHELL OIL COMPANY
Location: Wilmington
Date: November, 5, 1964
Repairs to heater.

No Box, #3295 **SHELL OIL COMPANY**
Location: Dominguez
Date: November 30, 1964
Repair to catalyter plant.

No Box, #3386 **SHELL OIL COMPANY**
Location: Wilmington, California
Date: January-February, 1965
Repair burner wall #3 furnace
(A) Furnish labor and material for refractory repair of dubs #3 heater.

Box 2, #2932 **SIGNAL OIL AND GAS COMPANY**
Cascade Carbon Department
Location: Bakersfield, California
Date: April-July, 1964
Design and construct fintering retort.
Design and construct coke fintering retort.

Box 2, #3086 Ralph M. Parsons Co.
SOCONY MOBIL OIL CO.
WINDORNE
Location: Alberta, Canada
Date: November, 1964
Design and supply one waste gas incinerator.
Drawings.

Box 32, #4290 **SOULE STEEL**
Location: Dominguez
Date: November-December, 1966
Repair reheat furnace.

Box 34, #7076 **SOULE STEEL COMPANY**
Location: Long Beach, California
Date: Approximately February, 1972
Repairs to reheat furnace.

Box 34, #7193 **SOULE STEEL COMPANY**
Location: Long Beach, California
Date: June, 1972
Repair reheat furnace.

Box 35, #6369 **SOULE STEEL**
Location: Dominguez
Date: September, 1970

Box 37, #7762 **SOULE STEEL COMPANY**
Location: Dominguez, California
Date: July, 1973
Repair reheat furnace.

Box 40, #6878 **SOULE STEEL CORPORATION**
Location: Long Beach
Date: October, 1971

Box 41, #6014 **SOULE STEEL**
Location: Long Beach, California
Date: December, 1969
January, 1970
Repair reheat furnace.

Box 41, #6206 **SOULE STEEL**
Location: Long Beach, California
Date: April, 1970
Repair hearth for reheat furnace.

Box 46, #5102 **SOULE STEEL**
Location: Long Beach
Date: April, 1968

Box 46, #5338 **SOULE STEEL**
Location: Dominguez
Date: October, 1968

No Box, #3281 **SOULE STEEL**
Location: Dominguez
Date: October, 1964
Repair preheat furnace.

Box 4, #3445 **SOUTHERN CALIFORNIA GAS COMPANY**
Pacific Towell Company
Location: Paramount, California
Date: September, November, 1965
Designed and constructed one circular direct fire tile kelm. File of drawings.

No Box, #4755 **SOUTHWEST WELDING AND MANUFACTURING**
Location: Alhambra
Date:
Line water draw off vessel D401.

Box 1, #1496 Associated Insulation Company
STANDARD OIL COMPANY
Location: Barbers RT Hawaii
Date: 1962
Refractory linings in FCC unit; file contains drawings.

Box 9, #5523 Ralph M. Parsons Co.
STANDARD OIL COMPANY
Location: El Segundo
Date: February-October, 1969
Installed refractory lining, worked on alcorn heaters; repaired #301 heater.

Box 14, #6875

Ralph M. Parsons Co.
STANDARD OIL COMPANY
Location: El Segundo
Date: January, February, March 1972
Refractory linings sulfur recovery unit.
(A) Furnish material.

Box 20, #8038

The Floor Corporation Limited
STANDARD OIL COMPANY, CALIFORNIA
Location: El Segundo, California
Date:
Gunite linings for regenerator and reactor.
(A) Lining for cyclones catalyst U-bend flue-gas lines and flue-gas coolers.

Box 20, #8343

Ralph and Parsons
STANDARD OIL COMPANY
Location: Toledo, Ohio
Date: April, 1975
Design and supply thermal oxidizer.
(Two folders).

Box 30, #9230

STANDARD OIL
Location: El Segundo
Date: April, 1976

Box 30, #9283

STANDARD OIL CORPORATION
Location: El Segundo
Date: June, 1976

Box 30, #9299

Selas Corporation, and **STANDARD OIL**
Location: El Segundo
Date: July, 1976

Box 31, #8554

STANDARD OIL COMPANY
Location: El Segundo
Date: November, 1974
Repair to bottom drum head of coker.

Box 31, #8745

CF BRAUN, **STANDARD OIL COMPANY**
Location: El Segundo
Date: May, 1975
Labor only to install lining in flaregas ground flare.

Box 32, #4125

STANDARD OIL COMPANY
Location: El Segundo
Date: August, 1966
Necessary repairs to F1 and F2 furnaces, unit #48.

Box 34, #7172 **STANDARD OIL COMPANY**
Location: El Segundo, California
Date: April, 1972
Repair F301 hydrogen.

Box 3, #7173 **STANDARD OIL COMPANY**
Location: El Segundo, California
Date: Approximately May, 1972
Repair to hydrofinder.

Box 37, #7763 **STANDARD OIL COMPANY**
Location: El Segundo, California
Date: July, 1973
Repair F610 a and b isomax furnace.

Box 38, #5906 **STANDARD OIL**
Location: El Segundo
Date: October, 1969

Box 39, #7582 **STANDARD OIL COMPANY**
Location: El Segundo
Date: March, 1973
Repair #2 cox reformer.

Box 39, #7637 **STANDARD OIL COMPANY**
Location: El Segundo
Date: April, 1973
Repair to #33 boiler.

Box 39, #7720 **STANDARD OIL COMPANY**
Location: El Segundo
Date: June, 1973
Repair to #34 boiler.

Box 39, #7725 **STANDARD OIL COMPANY**
Location: El Segundo
Date: July, 1973
Replace haydit.

Box 40, #6820 **STANDARD OIL COMPANY**
Location: El Segundo
Date: August, 1971

Box 40, #6915 **STANDARD OIL COMPANY**
Location: El Segundo
Date: October, 1971

Box 44, #5021 **STANDARD OIL COMPANY**
Location: El Segundo
Date: March, 1968
Repair boiler #56 at #3 boiler house.

Box 44, #5027 **STANDARD OIL COMPANY**
Location: El Segundo
Date: March, 1968
Repair #11 unit.

Box 44, #5042 **STANDARD OIL COMPANY**
Location: El Segundo
Date: March, 1968
Repair #1 unit.

Box 46, #5456 Bechtel Corporation, and **STANDARD OIL COMPANY**
Location: El Segundo
Date: July, 1969

No Box, #3961 **STANDARD OIL COMPANY**
Location: El Segundo
Date: August, 1966
Install lining to heat cured twenty buelo reactor cylomer and thirty-two fuel regenerator cycloner.

No Box, #4069 **STANDARD OIL COMPANY**
Location: El Segundo, California
Date: 1966
Repairs to #10 unit.

No Box, #4598 **STANDARD OIL COMPANY**
Location: El Segundo
Date:
Necessary repairs to #2 residuum stripper furnace.

No Box, #4641 **STANDARD OIL COMPANY**
Location: El Segundo
Date:
Repair boiler #34.

No Box, #4845 **STANDARD OIL COMPANY**
Location: El Segundo
Date:
Repair F1, F2 and F3 desulferizing furnaces.

No Box, #4851 **STANDARD OIL COMPANY**
Location: El Segundo
Date:
Repair boiler #36.

No Box, #4978 **STANDARD OIL COMPANY**
Location: El Segundo
Date:
Repair #12 unit furnace.

Box 37, #7904 **STARKIST FOODS, INC.**
Location: Terminal Island, California
Date: October, 1973

Box 40, #6760 **STARKIST TUNA INC.**
Location: Terminal Island
Date: September, 1971

Box 45, #8302 **STARKIST TUNA**
Location: Terminal Island
Date: July, 1974
Repair to large and small dryers.

No Box, #3890 **STATE OF CALIFORNIA**
California Institute for Women Frontera
Location: Chino
Date: August, 1966
Repair 3c-14 city boiler.

Box 1, #1285 Ralph McPherson Company
STAUFFER CHEMICAL COMPANY
Location: Delaware
Date:
Design and material for one waste gas incinerators.

Box 21, #8386 **STAUFFER CHEMICAL COMPANY**
Location: Henderson, Nevada
Date: September, 1974
Labor to line 1 backing stripper.

Box 32, #4348 **STAUFFER CHEMICAL COMPANY**
Location: Dominguez
Date: January, 1967
Repair #1 absorbing tower plant #1.

Box 34, #7090 **STAUFFER CHEMICAL**
Location: Dominguez, California
Date: Approximately March, 1972
Fledge furnace plant #1.
(A) Rebrick sledge furnace dust chamber outlet.
(B) Clean out hot gas flue and make repair to quench tower.

Box 37, #7838 **STAUFFER CHEMICAL COMPANY**
Location: Dominguez, California
Date: September, 1973
Install acid brick linings in a manhole; sewer patch basin and pump.

Box 38, #5924 **STAUFFER CHEMICAL COMPANY**
Location: South Gate
Date: October, 1969

Box 39, #7533 **STAUFFER CHEMICAL**
Location: Dominguez
Date: January, 1973
Repair #3 caustic pot.

Box 40, #6965 **STAUFFER CHEMICAL CORPORATION**
Location: Dominguez
Date: December, 1971

Box 40, #6990 **STAUFFER CHEMICAL CORPORATION**
Location: Dominguez
Date: December, 1971

Box 42, #3143 **STAUFFER CHEMICAL CORPORATION**
Location: Dominguez
Date: June, 1964

Box 42, #3145 **STAUFFER CHEMICAL CORPORATION**
Location: Dominguez
Date: June, 1964

Box 46, #5117 **STAUFFER CHEMICAL CORPORATION**
Location: Long Beach
Date: April, 1968

No Box, #3302 **STAUFFER CHEMICAL COMPANY**
Location: Dominguez, California
Date: December, 1964
Plant #1 repair quench tower.

No Box, #4726 **STAUFFER CHEMICAL COMPANY**
Location: South Gate
Date:
Construct carbon block #1 acid tower; install firebrick lining in tower.

Box 30, #8903 **STEEL CASTING**
Location: Los Angeles
Date: July, 1975

Box 39, #7641 **STEEL CASTING**
Location: Vernon
Date: May, 1973
Repair arch and supports.

Box 45, #8235

STEEL CASTING
Location: Los Angeles
Date: May, 1974
Repair to #2 furnace.

Box 15, #6999

STERNS AND ROGER CORPORATION
Location: Denver, Colorado
Phelps Dodge Morenci, Arizona
Location: Morenci, Arizona
Date: April, 1974
Line one air preheater.

Box 5, #4320

SULOR FLOOR CORPORATION
Location: Los Angeles
Texaco, Inc.
Location: Wilmington
Date: February, 1967
Installed refractory lining and ripped out reactor lining.

Box 1, #2100

SWINDELL DRESSLER CORPORATION
Hagansbut Company
Location: Tina, California
Date: January, 1962
Construct tunnel and replace inside concrete slabs.

Box 1, #1556

Foster Wheeler Corporation
TEXACO INCORPORATED
Wilmington, California
Date: April, 1961
Install refractory linings in FW fired heaters; provided labor and material to install six inch hollow tiles on fired heater H1 and H2.

Box 5, #4320

Sulor Floor Corporation
Location: Los Angeles
TEXACO INC.
Location: Wilmington
Date: February, 1967
Installed refractory lining and ripped out reactor lining.

Box 10, #6295

TEXACO
Location: Montebello
Date: July, 1970
Install lining in dust tunnel (per Norton RB-23316).

Box 18, #7649

Ralph M. Parsons
TEXACO INC.
Location:
Date: June, 1973
Refractory lining furnace H751 sulfur recovery unit.

Box 22, #8799

TEXACO
Location: Wilmington
Date: May, 1975
Repairs to reactor: Repairs to regenerator, repairs to regenerator cyclone, repairs to the C22 lines, repairs to the FCC unit water side tank, repairs to the C8 line, repairs and sandblast dip legs of reactor.

Box 33, #7523

TEXACO INC.
Location: Wilmington, California
Date: January, 1973
Repair #5 boiler.

Box 35, #6321

TEXACO INC.
Location: Wilmington
Date: June, 1970

Box 41, #6175

TEXACO INC.
Location: Wilmington
Date: April, 1970

Location: Wilmington
Date: July, 1968

Box 46, #5343 **TEXACO INC.**
Location: Wilmington
Date: October, 1968

No Box, #4600 **TEXACO INC.**
Location: Wilmington
Date:
Repair H1 heater at HTU #3.

Box 20, #7967 **THE TEXAS COMPANY**
Location: Wilmington, California
Date:
Insulation linings in NC8-C22-A and C-22-B fluid cracking unit.

Box 30, #9136 **THATCHER GLASS CORPORATION**
Location: Saugus
Date: April, 1976

Box 30, #9238 **THATCHER GLASS**
Location: Saugus
Date: May, 1976

Box 31, #8592 **THATCHER GLASS**
Location: Saugus
Date: January, 1975
Repair to #1 glass tank.

Box 31, #8630 **THATCHER GLASS**
Location: Saugus
Date: December 1974-January 1975
Hot patch #3 furnace.

Box 34, #7423 **THATCHER GLASS**
Location: Saugus, California
Date: December, 1972
Rebuild furnace #2

Box 35, #6520 **THATCHER GLASS COMPANY**
Location: Saugus
Date: January, 1971

Box 35, #6595 **THATCHER GLASS COMPANY**
Location: Saugus
Date: May, 1971

Box 40, #6600 **THATCHER GLASS COMPANY**
Location: Saugus
Date: May, 1971

Box 36, #3676 **THATCHER GLASS MANUFACTURING COMPANY**
Location: Saugus
Date: August-September, 1965

Box 42, #2970 **THATCHER GLASS MANUFACTURING COMPANY**
Location: Saugus
Date: 1964
Factory construction new glass melting furnace.
Numerous files on this job.

Box 44, #5042 **THATCHER GLASS**
Location: Saugus, California
Date: March, 1968
Repair #2 glass tank.
(A) Repair to forehearth.

Box 46, #5435 **THATCHER GLASS CORPORATION**
Location: Saugus
Date: December, 1968

No Box, #4048 **THATCHER GLASS**
Location: Saugus, California
Date: June, 1966
#2 tank.

No Box, #4620 **THATCHER GLASS COMPANY**
Location: Saugus
Date:
Repair #3 glass tank repair hearth furnace.

No Box, #4932 **THATCHER GLASS**
Location: Saugus
Date:
Repair dog house furnace #1.

Box 23, #9259 **AP THORPE AND SON CHEVRON CHEMICAL**
Location: Richmond, California
Date: November, December, 1976
Engineering only for thermal oxidizer system.

Box 6, #4888 **JT THORPE ANALYSIS SHEETS**
Location:
Date: 1968

Box 7, #5260 **JT THORPE CO.**
Fluor Corporation
Marathon Oil
Location: Burghausen, Germany
Date:
Engineering study on wulff process furnaces.

Box 11, #6388

Fish Engineering (Houston)
JT THORPE CO. (HOUSTON)
Panhandle Eastern Co. (Kansas City, Missouri)
Location:
Date:
Design fume incinerator (approximately November, 1970) (File contains primarily blueprints).

Box 14, #6737

JT THORPE CO. (HOUSTON)
Floor (Los Angeles)
Mobil Oil Corp. (Beaumont, Texas)
Location:
Date:
Refractory lining for new FCC unit.

Box 11, #6332

TRIO CONTRACTORS
Location: Idaho
Engineering Development Center
Arnold Airforce Station
Location: Tullahoma, Tennessee
Date: June, July, 1971
Remove and reinstall pebbles and refractory lining in pebble and air heater.
(A) Installation of lining at Tullahoma.

Box 43, #8063

TRISCOPETRO
Location: Bakersfield
Date: October, 1974
Repair brick work on inside of boiler #2.

Box 31, #8622 **UNION CARBIDE**
Location: Torrance
Date: January, 1975
Repairs to #5 cracking furnace.

Box 41, #6110 **UNION CARBIDE AND CHEMICAL**
Location: Torrance, California
Date: March, 1970
Repair #1 furnace.
(A) Repair to sludge furnace.

Box 1, #1275 Ralph M. Parsons
UNION OIL COMPANY
Location: Wilmington, California
Date: April, 1960
Design and supply one waste gas incinerator. Labor and material to install refractions in breaking between incinerator and stock.

Box 2, #2997 C.F. Braun
UNION OIL CO.
Location: Wilmington, California
Date: April-July, 1964
Construct lining for one selan heater and four Foster Wheeler heaters; remove and replace refractory lining in B201 and B203 heater; provide labor and material to repair refractory lining in B101 and B204.

Box 8, #5540 C.F. Braun & Co.
UNION OIL COMPANY
Location: Lamonte, Illinois
Date: October, 1969
Provided refractory lining for two trains at the RM Parsons Plant.

Box 11, #6400 **UNION OIL COMPANY**
Location: Wilmington, California
Date: October, 1970
Design and construct FCC gas incinerator.
(Voluminous file with blueprints).

Box 18, #7506 Ralph M. Parsons
UNION OIL COMPANY
Location: Wilmington, California
Date: March, April and May, 1973
Refractory linings - sulfur recovery unit.
(A) Fireproofing vessels #15-1101, #15-1102.
(B) Repair fire walls.

Box 36, #3527 **UNION OIL COMPANY OF CALIFORNIA**
Location: Wilmington

Install lining in furnace.

Box 43, #8054 **VALLEY BRASS**
Location: El Monte
Date: January, 1974
Install lining in furnace.

Box 45, #8502 **VISTA METALS**
Location: Fontana
Date: November, 1974
Modification lining for #3 melting furnace.

Box 35, #6331 **WATSON CARBON AND CHEMICAL**
Location: Wilmington
Date: July, 1970

Box 37, #7916 **WESTERN BRASS**
Location: Los Angeles
Date: October, 1973-January, 1974
Ram an inductor.

Box 45, #8463 **WESTERN BRASS**
Location: Los Angeles
Date: September, 1974
Ram inductor.

Box 34, #7239 **WILMAC CONSTRUCTION COMPANY**
Kaiser Gypsum
Location: Long Beach, California
Date: September, 1972
Furnish and install refractories in gypsum kettles and hot pits.

Box 42, #6054 **WILSHIRE BECHTEL CORPORATION OIL**
Location: Santa Fe Springs
Date: April-November, 1964

Box 1, #1635 Chicago Bridge and Iron Company
WILSHIRE OIL COMPANY
Location: Norwalk, California
Date: August, 1961
Provided labor and material to install refractory linings and revamp of FCC regenerator; also did repairs to linings.

Box 2, #2901 Bechtel Corporation
WILSHIRE OIL COMPANY
Location: Santa Fe Springs, California
Date: March, 1964
Work on waste gas incinerator.

LAW OFFICES OF
PRINDLE, DECKER & AMARO

INDEX OF J.T. THORPE JOB FILES

BOX #1:

#1275: Ralph M. Parsons
Union Oil Company
Location: Wilmington, California
Date: April, 1960
Design and supply one waste gas incinerator.
Labor and material to install refractions in breaking between incinerator and stock.

#1342: CF Braun and Company
Collier Carbon and Chemical Company
Location: Wilmington, California
Date:

#1397: Ralph McPherson Company
Richfield Oil
Location:
Date: November, 1960
Install lining in one alcon; fired heater; -one foster wheeler; filed heater and reactors; also teared out and replaced wall on west end; cut brick; replace bottom in #1 and #2 reformer reactor; labor and material to insulate acid brick in acid pit; grinded bottom insulation in two small reactors extend height of access door; pack insulation around boxes; patch FW heater.

#1342: CF BRAUN AND COMPANY
COLLIER CARBON AND COMPANY
Location: Wilmington, California
Date:
Plan drawings.

#1285: Ralph McPherson Company
Stauffer Chemical Company
Location: Delaware
Date:
Design and material for one waste gas incinerators.

#1496: Associated Insulation Company
Standard Oil Company
Location: Barbers RT Hawaii
Date:
Refractory linings in FCC unit; file contains drawings; 1962.

#1556: Foster Wheeler Corporation
Texaco Incorporated
Location: Wilmington, California
Date: April, 1961
Install refractory linings in FW fired heaters; provided labor and material to install six inch hollow tiles on fired heater H1 and H2.

#1635: Chicago Bridge and Iron Company
Wilshire Oil Company
Location: Norwalk, California
Date: August, 1961
Provided labor and material to install refractory linings and revamp of FCC regenerator; also did repairs to linings.

#2062: Pacific Clay Products
Location: Santa Fe Springs, California
Date: October, 1961
Repair to floor of perodic kelm; repair to floor kelm.

#2100: Swindell Dressler Corporation
Hagansbut Company
Location: Tina, California
Date: January, 1962
Construct tunnel and replace inside conrete slabs.

#2129: California Portland Cement
Location:
Date: 1963
Install lining in two rotary kelms.

#2130: California Portland Cement Co.
Location: Colton, California
Date:
Construct two firing hood linings.

#2131: California Portland Cement Co.
Location: Colton, California
Date:
Construct two cooler linings.

BOX #2:

#2393: Kaiser Engineers
Location: Cushenbury, California
Date:
Permanent cement cushion.
Additional blueprints.

#2877: American Gypsum Co.
Location: Albequrque, New Mexico
Date: January, 1984.
[illegible]

#2901: Bechtel Corporation
Location: San Francisco, California
Wilshire Oil
Location: Sante Fe Springs
Date: June, 1964
Constructed one waste gas incinerator.

#2937: Bechtel Corporation
Wilshire Oil Company
Location: Sante Fe Springs
Date: March, 1964
Work on waste gas incinerator

#2932: Signal Oil and Gas Company
Cascade Carbon Department
Location: Bakersfield, California
Date: April-July, 1964
Design and construct fintering retort.

#2932: Signal Oil and Gas Company
Cascade Carbon Department
Location: Bakersfield, California
Date:
Design and construct coke finitering retort.

#2991: Joslin Pacific Company
Location: Vernon, California
Date: March, 1964
Design and construct brick enclosures for #2 galvanizing kettle.

#2997: CF Braun
Union Oil Co.
Location: Wilmington, California
Date: April-July, 1964
Construct lining for one selan heater and four foster wheeler heaters; remove and replace refractory lining in B201 and B203 heater; provide labor and material to repair refractory lining in B101 and B204.

#3061: Bartlett Pacific Inc.
Holly Sugar
Location: Rolley
Date: May, 1962
Install lining in hearth; Pacific furnace.

#3086: Ralph M. Parsons Co.
SOCONY Mobil Oil Co.
WINDORNE
Location: Alberta, Canada
Date: November, 1964
Design and supply one waste gas incinerator.

#3086: Ralph M. Parsons Co.
SOCONY Mobil Oil Co.
Location: Alberta, Canada
Date:
Drawings.

BOX #3:

#2170: CF Braun and Company
US Borax and Chemical Corporation
Location:
Date: March, 1965
Design and construct #6AC melting furnace.

#2269: Continental Can Company
Location: Los Angeles, California
Date:
Design and construct two lithograph ovens fume burners and other files containing drawings.

#3356: Canadian Bechtel Ltd.
Location: San Franciso, California
Great Canadian Oil Fans Project
Location: Alberta, Canada
Date: 1967
Design and construct waste gas incinerators and furnish spare parts.

#3370: Dorr Oliver Inc.
Port Huenene Serge Disposal Plant
Location: Port Helanee, California
Date: 1965
Install lining and supplied and installed additional parts to reactors. Repaired insulkote lining.

#3398: Ralph M. Parsons Construction Co.
Location: Canada
Hudson Bay Oil and Gas Co. Ltd.
Location: Alberta, Canada
Date:
Drawings

#3405: Ralph M. Parsons Co.
Shell Oil Co.
Location:
Date: July, 1965
Designed and supplied one waste gas incinerator.

#3415: CF Braun and Co.
Shell Oil Co.
Location: Wilmington, California
Date: February, 1965
Installed lining in one Foster Wheeler heater and one petrokem heater; also made repair to combustion section of Foster Wheeler heater.

#3432: Ralph M. Parsons Co.
W. Kower Co.
Location: Columbia, South America
Date: June, 1965
Furnished one waste gas incinerator.

BOX #4:

#3445: Southern California Gas Company
Pacific Towell Company
Location: Paramount, California
Date: September, November, 1965
Design and constructed one circular direct fire tile kelm.
File of drawings.

#3458: Cascade Carbon Co.
Location: Bakersfield, California
Date: March, 1965
Designed and constructed one fume burner; furnished SS basket chip; removed and replace two curtain wall linings.

#3960: Ralph M. Parsons Co.
Procon Grape Ltd.
Location:
Date: September, 1966
Designed and supplied one waste gas incinerator.

#4017: Ralph M. Parsons Co.
Imperial Oil Enterprises, Ltd.
Location: Sarnia, Ontario, Canada
Date: 1967
Designed and supplied one waste gas incinerator.

#4017: Ralph M. Parsons Co.
Imperial Oil Enterprises, Ltd.
Location: Sarnia, Ontario, Canada
Date:
Designed and supplied one waste gas incinerator.
Another file of drawings.

#4064: Ralph M. Parsons Co.
Petro Gas Processing, Ltd.
Location: Bolzac, Alberta, Canada
Date: 1967
Designed and supplied one waste gas incinerator.

BOX #5:

#4248: Brof. Inc.
Location: Minneapolis, Minnisota
Ralph M. Parsons Co.
Atlantic Richfield Co.
Location: Watson, California
Date: November, 1966
Furnished and installed lining in reformer gas cooler.

#4320: Sulor Floor Corporation
Location: Los Angeles
Texaco Inc.
Location: Wilmington
Date: February, 1967
Installed refractory lining and ripped out reactor lining.

#4390: Continental Can Company
Location: Van Nuys
Date: July 1967
Designed and constructed on air pollution afterburner.

#4391: Chicago Bridge and Iron Company
Location: Salt Lake City
Shell Oil Company
Location: Washington
Date: April, 1967
Provided refractory labor on cat. and cracker turnaround.

BOX #6:

#4500: Continental Can Company
Location: Commerce
Date:
Designed and constructed 13,000 SCFM fume burners.

#4716: Ralph M. Parons
Banff Oil Ltd.
Location: Alberta, Canada
Date: January, 1968
Design and supply gas incinerator.

#4795: Ralph M. Parsons Co.
Shell Oil Company
Location: Vancouver, British Columbia
Date: May, 1968
Designed and constructed waste gas incinerators.

#4888: JT Thorpe Analysis Sheets
Location:
Date: 1968

#4900: Bechtel Corporation
Location: San Francisco, California
Renolds Metal
Location: Long View, Washinton
Date: May, 1968
Provided labor to install refractory in holding furnaces; provided labor and equipment to check brick sizes.

#4981: Renolds Metal
Location: Torrance, California
Date: May and October, 1968
Designed and constructed fume incinerator for lines 6 and 7.

#4981: Drawings
Location:
Date:

BOX #7:

#4981: Drawings
Location:
Date:

#5000: Continental Can Company
Location: Commerce
Date: August, 1968
Designed and constructed air pollution afterburners for lines 4 and 5.

#5053: Gulf Oil Corporation
Location: Sante Fe Springs
Date: April, 1968
Filled conn. of new sections of regenerator - flue gas lines; performed miscellaneous repairs to flue gas and also repaired feed prikenter furnaces; made repairs to CO boiler.

#5078: Bechtel Corporation
Renolds Metal
Location: Long View, Washington
Date: May, 1968
Furnished labor and equipment to install refractory lining in crucible preheaters.

#5260: JT Thorpe Co.
Flour Corporation
Marathon Oil
Location: Burghausen, Germany
Date:
Engineering study on wulff process furnaces.

BOX #8:

#5300-A: Continental Can Company
Location: Tittscury, California
Date: May, 1970
Provided modification to existing 24,000 SCFM fume incinerator at Tittscury.

#5310: Continental Can Company
Location: Hayward, California
Date: 1968-1969
Designed and constructed one 12,000 SCFM fume burner.

#5487: CF Braun and Company
Union Oil Company
Location: Lamonte, Illinois
Date: October, 1969
Provided refractory lining for two trains at the RM Parsons Plant.

#5540: Jacob Engineering in Pasadena
US Borax and Chemical Corporation
Location:
Date: May, 1970
Designed and constructed new #FAB furnace.

BOX #9:

#5523: Ralph M. Parsons Co.
Standard Oil Company
Location: El Segundo
Date: February-October, 1969
Installed refractory lining, worked on alcorn heaters; repaired #301 heater.

#5726: Ralph M. Parsons Co.
Allied Chemical Co.
Location: El Segundo
Date: September, 1969
Worked on refractory lining and on the sulfur recovery unit.

#5752: Ralph M. Parsons
Location: Canada
Hudson Bay Oil and Gas Co.
Location: Edson, Alberta, Canada
Date: June, 1969
Provided engineering to modify fume incinerator.

#5800: Continental Can Company
White Cap Plant
Location: Hayward, California
Date: November, 1969
Designed and constructed 8,500 SCFM folded chamber type fume incinerators.

#5969: Ralph M. Parsons Co.
Chevron Standard Oil, Ltd.
Location: Alberta, Canada
Date: October, 1970
Designed and supplied two waste gas incinerators.

BOX #10:

#6032: Shell Oil Co.
Location: Dominguez, California
Date: February, 1970
Repair regenerator during cap cracking shut down.

#6137: Mobil Oil Corporation
Location: Torrance, California
Date: March, 1970
Repair to regenerator.
(A) Repair orifice chamber,
(B) Repairs to reactor,
(C) Repair to F1 pair heater.

#6176: Gulf Oil Company
Location: Norwalk, California
Date: April, 1970
Repair cat cracker.
(A) Repair seal boiler.
(B) Repair refiner heater.
(C) Repair crude heater.
(D) Repair PH-2 platform.
(E) Repair CCH-2 heater.
(F) Repair H-CH-1 and H-CH-2 heater.
(G) Repair G-H-1 heater.
(H) Repair TP51 sour water oxidizer.

#6270: Floor Corporation
Mobil Oil Corporation
Location: Jolia, Illinois
Date: May, 1971, October, 1972
and supply 2 sulfur furnaces.
(A) Start up assistance.

#6288: DWG File
RM Parsons National Lead Co.
Location: Salt Lake City, Utah
Date: October, 1970
material and labor to install refractories and magnesium pilot plank.

#6295: Texaco
Location: Montebello
Date: July, 1970
Install lining in dust tunnel (per Norton RB-23316).

#6325: Drawings for a job at Harvey Aluminum
Location:
Date:

BOX #11:

#6332: Trio Contractors
Location: Idaho
Engineering Development Center
Arnold Airforce Station
Location: Tullahoma, Tennessee
Date: June, July, 1971
Remove and reinstall pebbles and refractory lining in pebble and air heater.
(A) Installation of lining at Tullahoma.

#6352: Continental Can Company
Location: Hayward, California
Date: April, 1971
Repair 12,000 SCFM furnace incinerator.

#6375: Can Company
Location: Passaic, New Jersey
Date: March, April, June, December, 1971
Design and construct 9,000 SCFM furnace incinerator plant 30.
(A) Sealed installation.
(B) Spare parts kit.

#6388: Fish Engineering (Houston)
JT Thorpe Co. (Houston)
Panhandle Eastern Co. (Kansas City, Missouri)
Location:
Date:
Design fume incinerator (approximately November, 1970)
(File contains primarily blueprints).

#6400: Union Oil Company
Location: Wilmington, California
Date: October, 1970
Design and construct FCC gas incinerator.
(Luminous file with blueprints).

BOX #12:

#6404: JF Pritchard
Nuway Chemical Company
Location: Batton Rouge, Louisianna
Date: , 1971
Design and construct two 40,000 SCFM phthalicanhydrid incinerators.
(This box is nothing but Job #6404).

BOX #13:

#6420: Ralph M. Parsons Co.
Bamff Oil Ltd.
Location: Alberta, Canada
Date: January, 1972
Design and supply one waste gas incinerator and breaching.
(Luminous documents with blueprints.)

#6451: Public Carbon Products
Amax Corp.
Location: Bakersfield, California
Date: , 1971
Design and construct two metallurgical coke kelms.
(Two full files with blueprints).

#6585: Lianco Container Corp.
Location: Chicago, Illinois
Saint Louis, Missouri
Date:
and supply to 15,000 SCFM fume incinerators.
(File contains blue prints only).

BOX #14:

#6585: Lianco Containers Corp.
Location: Chicago, Illinois
Saint Louis, Missouri
Date: November, 1971, February, 1972, March, 1972
Design and supply two 15,000 SCFM fume incinerators.
(A) Installation
(B) Spare Parts.

#6645: JM Covington Corporation
Location: Bakersfield, California
Date: July, 1971
Design and supply BSP coke cooler.

#6737: JT Thorpe Co. (Houston) Floor (Los Angeles)
Mobil Oil Corp. (Beaumant, Texas)
Location:
Date:
Refractory lining for new FCC unit.

#6779: Ralph M. Parsons Construction Co.
Aquitaine Company
Location: Canada
Ram River (Canada)
Date: November, 1971
Design and construct one waste gas incinerator.
(A) Repairs to buffalo forge bower.
Two files with blue prints.

#6881: Arizona Portland Cement
Location: Rillitl, Arizona
Date: February, 1972
Design and construct air heater.

#6875: Ralph M. Parsons Co.
Standard Oil Co.
Location: El Segundo
Date: January, February, March, 1972
Refractory linings sulfur recovery unit.
(A) Furnish material.

BOX #15:

#6900: Jacob's Engineering
Coker Chemical Company
Location: Searles Lake, California
Date: March, 1972-March, 1975
Design and construct melting furnace.
(3) Files

#6934: (Parson's Company) (Louisiana)
National Lead Company
Location: Salt Lake City, Utah
Date: March, 1972
Design and supply system for five magnesium pot furnaces.
(Files with blueprints)

#6999: Sterns and Roger Corporation
Location: Denver, Colorado
Phelps Dodge Morenci, Arizona
Location: Morenci, Arizona
Date: April, 1974
Line one air preheater.

#7000: Can Company
Corporate Purchasing
Location: New York
Date: June, August, 1972
Blanket order 15 incinerators 3000 SCFM fume incinerators
Portland, Oregon.

BOX #16:

#7073: Shell Oil Company
Location: Dominguez, California
Date: April, 1972
Refractory repairs on cat. cracker turn around.
(A) Remove and replace refractory and top head regenerator.
(B) Install lining in four secondary cyclones.
(C) Miscellaneous patch work.
(D) Install AA22 and cyclone chimney.
(E) Repair heaters 15 and 16.

#7104: Air Erection Division
Universal Oil Products Company
Location: Darion, Connecticut
American Cyanamide
Location: Azusa
Date: March, 1972 and April, 1972
(A) Dryout of the lining.
(B) Miscellaneous work assigned to U.O.P.
(C) Repair of lining.
(D) Burner.

#7111: Continental Can Company
Location: Olympia, Washington
Date: August, 1972
Design and construct 12,000 SCFM incinerator.
(A) Startup.
(B) Spare parts.

#7170: Continental Can Company
Location: Carson, New Jersey
Date: December, 1972 and April, 1973
Design and construct two fume incinerators.
(A) Startup only.
(Files including 13 files and blueprints)

BOX #17:

#7177: Ralph M. Parsons Company
Location: Los Angeles
Aerial Oil Company
Darknath, Novia Scotia [Canada]
Date: September, 1972
Design and construct one waste gas incinerator.

#7185: UOP American Cyanamid
Location: Azusa
Date: May, 1972
Tear out and reline annelex incinerator.

#7331: Atomics International Division
American Rockwell
Location:
Date: January, 1970 to January, 1973
Design and supply preheater and combustor.
(A) Design and supply ducting between vessel for molten salt testing facility.
(B) Labor and some material to install refractory lining in vessel.
(C) Furnish extra equipment and material.

#7332: J.F. Pritchard and Co.
Location: Atlantic Richfeld, Carson
Date: March, 1973
Design and construct waste mass incinerator and stack.
(Four files).

BOX #18:

#7411: Continental Can Company
Location: Sparrowspoint, Maryland
Date: March, June, 1973 and February, 1974
Design and construct four 8,000 SCFM fume incinerators and two 10,000 SCFM fume incinerators.

#7411(A)(B)(C): Continental Can Company
Location: Sparrowspoint, Maryland
Date: September, 1974
Modifications to control panels.
(B) Heat exchange rework
(C) Modify control panels for three units and ship to White Cap Plant (See job #7756-A).
(D) Convert controls for one 8,000 SCFM incinerator to three operator.
(E) Convert one 8,000 SCFM incinerator to catalatic operation.
(F) Retain all units.
(G) Service of erector supervisor for installation of one 8,000 SCM two 10,000 SCFM incinerators in Chicago P.O. #35T-4940.
(H) Start up for F-7411-E.

#7424: National Aluminum
Location: Alhambra, California
Date: April-May-August and September, 1973
Design and construct roller harth glass tempering furnace.
(A) Design and provide furnace modifications.
(B) Furnish vibrations.

#7506: Ralph M. Parsons
Union Oil Company
Location: Wilmington, California
Date: March, April and May, 1973
Refractory linings - sulfur recovery unit.
(A) Fireproofing vessels #15-1101, #15-1102.
(B) Repair fire walls.

#7548: Mission Clay Products
Location: Sante Fe Springs
Date: April, 1973
Supply oil burner systems for four periodic kelms.
(A) Supply safety equipment.

#7550: Richfeld (Arco)
Location: Watson
Date: May, 1973
FCC turn around - refractory repair.
(A) Repair regenerator cyclones,
(B) Repair reactor,
(C) Repair reactor stand pipe,
(D) Regenerator side walls.

#7587: Gulf Oil Company
Location: Sante Fe Springs, California
Date: March and April, 1973
Repairs to regenerator and flue gas lines.
(A) Repairs to cat. cracker feed heaters #H1A and #H1B.
(B) Repairs to C.O. boiler.
(C) Repairs to incinerator HCH 1 and 2.
(D) Repairs to HCH 1 heater.
(F) Repairs to RH-1B and RH-1C heater.
(G) Repairs to hydrogen heater.

#7604: Chicago Bridge and Iron Company
Arco
Location: Carson, California
Date: May, 1973
Refractory repairs FCC regenerator.

#7649: Ralph M. Parsons
Texaco Inc.
Location:
Date: June, 1973
Refractory lining furnace H751 sulfur recovery unit.

#7747: Nickels Engineering and Research Corp.
County Water District
Location: Fountain Valley, California
Date: January and March, 1974
Refractory linings to multiple harth furnace.
(A) Materials supplied.

#7756: Blue prints for Continental Can Company.

<u>BOX #19</u>:

#7700: Connoco (Continental Oil Company)
Location: Lake Charles, Louisiana
Date: Approximately November, 1973
Design detrick wall and arch materials for coke calcining incinerator.

#7756: Continental Can Company
Location: Chicago, Illinois
Date:
Design and construct one 8,000 SCFM and two 10,000 SCFM fume incinerators.
(A) New design and walls for electrical control.
(B) Heat exchanger rework.

BOX #20:

#7768: Ortloff Corporation
Location: Arkansas
Ashly Louisiana Gas Company (Shreveport, Louisiana)
Location: Arapaho, Oklahoma
Date: October, 1973
170' exhaust dock

#7492: Holly Sugar
Location: Rolley, California
Date: January, 1974
Repairs to #1 and #2 dryer furnace
(A) Refractory installation on seven burners, on dryers #1, #2 and #3.
(B) Extra work.

#7967: The Texas Company
Location: Wilmington, California
Date:
Insulation linings in NC8-C-22-A and C-22-B fluid cracking unit.

#7920: Arthur G. McKee and Co.
Exxon Co.
Bayway Refinery
Location: Lindon, New Jersey
Date: July, 1974
Design and construct waste gas incinerator
(A) Supply extra material.

#7920: Arthur G. McKee and Co.
Exxon Co.
Bayway Refinery
Location: Lindon, New Jersey
Date: July, 1974
Design and construct waste gas incinerator supply extra material. (Two files)

#8195: Ralph and Parsons Co.
Service Oil Co.
Location: Lake Charles, Louisiana
Date: April, 1975
Supply thermal oxidizer with stack.
(A) Add electric motor and stock.
(B) Drive motor for weather cap.

#8195: Ralph and Parsons
City Service Oil Co.
Location: Lake Charles, Louisiana
Date:
Design and supply thermal oxidizer with stack.

#8330: Parsons Arco
Location: Houston, Texas
Date: August, November 1975
Design and supply thermal oxidizer. (Two files)

#8434: Continental Can Company
Plant #462
Location: Sparrow Point, Maryland
Date: September, 1976
Installation of 14,000 SC and fume incinerator.

#8038: The Floor Corporation Limited
Standard Oil Company, California
Location: El Segundo, California
Date:
Gunite linings for regenerator and reactor.
(A) Lining for cyclones catalyst U-bend flue-gas lines and flue-gas coolers.

#8343: Ralph and Parsons
Standard Oil Company
Location: Ohio, Toledo, Ohio
Date: April, 1975
Design and supply thermal oxidizer. (Two folders).

<u>BOX #21</u>:

#8386: Stauffer Chemical Company
Location: Henderson, Nevada
Date: September, 1974
Labor to line 1 (1) backing stripper.

#8389: Arthur G. McKee and Co.
Exxon Co. U.S.A.
Bayway Refinery
Location: Lindon, New Jersey
Date: March, 1975
Design and supply combustor.

#8363: Ralph M. Parsons Co. Arco
Location: Carson
Date: March, June, 1975
Design and construct thermal oxidizer.

#8390: Arthur G. McKee Co.
Exxon Co. U.S.A.
Batton Rouge Refinery
Location: Louisiana
Date: March, 1975

#8439: Additional blue prints (See box #22a).

BOX #22:

#8439: Continental Can Company
Various blue prints.

#8440: Continental Can Company
Location: Baltimore, Maryland
Date: July, 1975
Fabrication of standard 14,000 CFM incinerator for installation at CCP-16-A.

#8444: Continental Can Company
Date: September, 1976
Line of catalytic frame for standard incinerator.

#8673: United States Airforce Engineering and Development
Location: Oklahoma, Tullahona, Tennessee
Date: May, 1976
Supply and install refractory materials in pebble air heater.
(A) Partial spare lining.

#8682: Ralph M. Parsons Northern Natural Gas Co.
Location: Knobbs, New Mexico
Date: November, 1975
Design and supply one thermal oxidizer.

#8170: Apros-Vulcan Benton
Location: Arkansas
Date: November, 1974
Design and construct one 80,000 aluminum melting furnace.

#8757: Parsons-Gurden Sarcheshmen
Location:
Date: February, 1976
Supply burners and supports.

#8780: CF Braun
Location:
Date:
Fittings for collier carbon and chem.

#8799: Texaco
Location: Wilmington
Date: May, 1975
Repairs to reactor: Repairs to regenerator, repairs to regenerator cyclone, repairs to the C22 lines, repairs to the FCC unit water side tank, repairs to the C8 line, repairs and sandblast dip legs of reactor.

BOX #23:

#9259: AP Thorpe and Son Chevron Chemical
Location: Richmond, California
Date: November, December, 1976
Engineering only for thermal oxidizer system.

BOX #30:

Job #8903: Steel Casting
Location: Los Angeles
Date: July, 1975.

Job #8931: Great Lakes Carbon
Location: Wilmington
Date: August, 1975.

Date: May, 1976.

<u>BOX #31</u>:

Job #8535: Martin Marietta Aluminum
Location: Torrance
Repair to #11 revert furnace
Date: November, 1974.

Job #8554: Standard Oil Company
Location: El Segundo
Repair to bottom drum head of coker
Date: November, 1974.

Job #8560: Shell Oil Company
Location: Dominguez
Repair to #4 furnace
Date: November, 1974.

Job #8563: Martin Marietta Aluminum
Location: Torrance
Repairs to #2 furnace
Date: November, 1974.

Job #8579: Jorgensen Steel
Location: Los Angeles
Repairs to #2 boiler
Date: December, 1974.

Job #8592: Thatcher Glass
Location: Saugus
Repair to #1 glass tank
Date: January, 1975.

Job #8616: Collier Carbon and Chemical
Location: Brea
Rebrick elbow reformer
Date: January, 1974.

Job #8622: Union Carbide
Location: Torrance
Repairs to #5 cracking furnace
Date: January, 1975.

Job #8630: Thatcher Glass
Location: Saugus
Hot patch #3 furnace
Date: December, 1974 - January, 1975.

Job #8631: Philadelphia Quartz
Location: South Gate
Necessary repairs to cilacade furnace
Date: February, 1975.

Job #8650: Earle M. Jorgensen
Location: Seattle
Design and construct 18' by 21' carbottom forge furnace
Date: May - June, 1975.

Job #8650: Earle M. Jorgensen
Location: Seattle
Date: May - June, 1975.

Job #8661: Anaconda American Brass
Location: Paramount
Ram 1
Date: January, 1975.

Job #8710: A. Apros
Location:
Lining for dryer, combustion collector and miscellaneous ducts and sheets
Date: October - November, 1975.

Job #8710: A. Apros, Vulcan Materials
Location: Benton, Arkansas
Design and construct one special 80,000 aluminum melting furnace
Date:

Job #8720: Atlantic Richfield Company
Location: Wilmington
Refractory repairs
Date: April, 1975.

Job #8742: Jorgensen Steel
Location: Los Angeles
Remove and replace floor complete #5 furnace
Date: April, 1975.

Job #8745: CF Braun, Standard Oil Company
Location: El Segundo
Labor only to install lining in flaregas ground flare
Date: May, 1975.

Job #8754: Bird and Sons
Location: Wilmington
Modify and repair refractory piping system
Date: May, 1975.

Job #8766: Martin Marietta Aluminum
Location: Torrance
Necessary repair to #1 furnace
Date: April, 1975.

Job #8901: Kaiser Steel
Location: Fontana
Design and construct furnace
Date: October, 1975.

BOX #32:

Job #4100: Kaiser Steel Corporation
Location: Fontana
Design and construct stress relieving furnace
Date: November, 1966 - January, 1967.

Job #4114: Collier Carbon and Chemical Corporation
Location: Santa Maria
Furnish and install refactory lining in new kilm.
Date: November, 1966.

Job #4125: Standard Oil Company
Location: El Segundo
Necessary repairs to F1 and F2 furnaces unit #48
Date: August, 1966.

Job #4149: International Extrusion Corporation
Location: Alhambra
Design and construct one aluminum 80,000 homogenizing furnace
Date: June, 1967.

Job #4150: Kaiser Refractories, Allison Steel
Location: Tempe, Arizona
Rebuild side walls and reheat furnace
Date: September, 1966.

Job #4176: U.S. Borax and Chemical
Location: Boron
